

ONTARIO ENERGY BOARD

STAFF SUBMISSION

2010 ELECTRICITY DISTRIBUTION RATES

West Perth Power Inc.

&

Clinton Power Corporation

EB-2009-0262/EB-2010-0121

January 12, 2011

West Perth Power Inc. (“West Perth Power”) and Clinton Power Corporation (“Clinton Power”) filed cost of service applications with the Ontario Energy Board (the “Board”) on June 15, 2010 and June 18, 2010 respectively seeking approval for changes to the rates that West Perth Power and Clinton Power charge for electricity distribution in their respective service areas, to be effective July 1, 2010.

In the Decision and Order (the “Decision”) dated December 14, 2010, the Board accepted a complete settlement agreement filed by the parties to this proceeding for both West Perth Power and Clinton Power. The Decision established a deadline of 7 days from the date of the Decision for West Perth Power and Clinton Power to file Draft Rate Orders (“DROs”). The DROs were to include the proposed Tariffs of Rates and Charges and other supporting information that reflect the Board’s findings in its Decision. Board staff and intervenors were to file comments on the DROs within 7 days of the date of the filing of the DROs.

West Perth Power and Clinton Power filed their respective DROs on December 17, 2010. Board staff filed comments on December 24, 2010 identifying deficiencies with both DROs. West Perth Power and Clinton Power refiled the DROs on December 29, 2010. Upon review of the refiled DROs, Board staff contacted West Perth Power and Clinton Power identifying further discrepancies between the DROs and the Decision of the Board. West Perth Power and Clinton Power refiled the DROs once again on December 31 2010 and a finalized version on January 5, 2011.

Board staff has reviewed the latest DROs and is satisfied that they reflect the settlement agreement approved by the Board in its Decision.

~ All of which is respectfully submitted ~
