Dear Mr. Ross:

**Re: Application for Standard Offer Program Licence  
Board File Number EB-2007-0961**

This will acknowledge receipt on December 20, 2007 of your application for an electricity generator licence under the Standard Offer Program. The Board has assigned File Number EB-2007-0961 to this matter.

On December 5, 2006 the Government of Ontario filed an amendment to Ontario Regulation 161/99 under the *Ontario Energy Board Act, 1998* exempting generators from the need to be licensed as owners or operators of generation facilities that have a name plate capacity rating of equal to or less than 500 kW. The regulation also exempts these generators from the need to obtain a licence to sell electricity if the generation is contracted in the Standard Offer Program currently being implemented by the Ontario Power Authority.

Accordingly, the Board is returning the documentation received on December 20, 2007. Please find attached your application.

Please direct any questions relating to this application to our market operations hotline at 416-440-7604 or email at [market.operations@oeb.gov.on.ca](mailto:market.operations@oeb.gov.on.ca).

Yours truly,
