Dear Ms Walli:

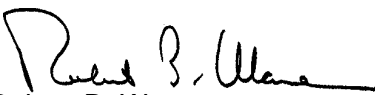

Re: Toronto Hydro-Electric System Limited/EB-2010-0142

We received a copy of Mr. Rodger's letter of January 26, 2011. In that letter, Mr. Rodger indicates that his client will be filing updated evidence, he anticipates no later than February 9, 2011. In addition, Mr. Rodger proposes a relatively constrained, amended timeline to allow parties to consider, and ask questions about, the updated evidence, prior to the resumption of the settlement conference.

While we appreciate, and indeed agree with, Mr. Rodger's desire to move the case along as expeditiously as possible, we think it premature to set any timeline until the updated evidence has been filed and parties are able to assess how much time is required for the discovery process.

Yours very truly,

WeirFoulds LLP
