Re: Toronto Hydro-Electric System Limited
2011-2014 Board-Approved Conservation and Demand Management Programs
AMPCO's Request for Intervenor Status and Cost Award Eligibility
Board File No. EB-2011-0011

Dear Ms. Walli:

I am writing pursuant to the Board's Notice of Application and Hearing for the above application dated January 24, 2011, to request intervenor status in this application.

AMPCO's Interest

AMPCO is a not-for-profit consumer interest advocacy organization. AMPCO's members represent Ontario's major industries: forestry, chemical, mining and minerals, steel, petroleum products, cement, automotive and manufacturing and business consumers in general. AMPCO members are major investors, major employers and a major part of communities in which we operate, across Ontario.

AMPCO and its member companies are well known to the Board. AMPCO participates in many proceedings, working groups, consultations and initiatives of the Ontario Energy Board in which matters relevant to Ontario's large electricity consumers are being addressed.

AMPCO's interest in the Board's regulation of local distribution companies relates generally to the interests of consumers with respect to price, adequacy, reliability and quality of electricity service. With respect to the current application, AMPCO is interested in the design of the Programs as well as Toronto Hydro's interpretation of the Board's new CDM Code that sets out the obligations and requirements that licensed distributors are required to follow for Board-Approved CDM Programs.

Costs

We respectfully request that the Board please confirm AMPCO's eligibility for an award of costs in this matter. AMPCO has been granted intervenor cost awards in other OEB proceedings including Electricity Distribution Rate Change Applications.

Notice

Please serve all documents and correspondence pertaining to this proceeding to AMPCO's consultants as follows:
