Herta & Arno Woerner submit a Letter of Comment

We are residents of Pottageville since 1966, residing [REDACTED] [REDACTED] [REDACTED]

A 16 inch Gas Line is to be installed to feed the YEC Peaker Plant.

Why was this route chosen?

Besides 15-20 School Buses (Monday to Friday) I counted 75 to 85 vehicles every 10 minutes from 7:30-8:00am.

The Gas Line is very dangerous to all of us living in Pottageville and also detrimental to property values and our wells.

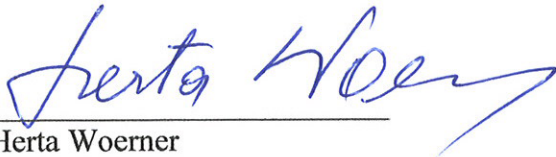

We had little or no information from our Council and the Media----we did not know what was going on.

Once again, we ask ---why was this route chosen with so much at stake for all the residents of Pottageville?

Every effort should be made to change the route to Route 4 (Highway 9), with much less impact on everyone.

Thank you.

Yours truly,

Herta Woerner

Arno Woerner
