Dear Ms. Walli:

RE: EB-2010-0295, Late Payment Penalty Generic hearing, and  
EB-2010-0105, Orangeville Hydro Limited 2011 IRM3 Rate Application

Per the Board's Decision and Order regarding the Late Payment Penalty Generic hearing (EB-2010-0295) issued February 22, 2011, Orangeville Hydro Limited (OHL) is listed as one of the "Affected Electricity Distributors" and as such is requesting recovery of its share of the settlement amount owing of \$34,423.12.

As directed in the Order, please find attached "Appendix A: LPP Rate Riders" for Orangeville Hydro Limited. OHL has allocated the approved recovery amount across all customer classes based on its 2009 actual distribution revenues as filed under the 2009 year end Reporting and Record Keeping Requirement ("RRR"). OHL has calculated a fixed monthly customer charge, for recovery of the LPP Class Action Costs over twelve months, for each customer class based on the actual 2009 year end customer counts also as filed under the 2009 RRR reporting with the exception of the Unmetered Scattered Load (USL) customer class. In our 2010 Rate Application, EB-2009-0272 the USL customer class was changed to a per connection charge of 151 connections from 35 customers as filed in the 2009 RRR reporting.

An electronic copy of this submission has been filed on the Ontario Energy Board's RESS Filing System and two (2) hard copies have been sent by courier to the Board office to the attention of the Board Secretary.

If you have any further questions, please do not hesitate to contact me.

Yours truly,

ORANGEVILLE HYDRO LIMITED
