Attn: Ms Kirsten Walli
Board Secretary

By electronic filing and e-mail

Dear Ms Walli:

Re: EB-2011-0011 THESL CDM Application

Enclosed are GEC's interrogatories in this matter.

Sincerely,

A handwritten signature in black ink, appearing to read 'David Poch', with a stylized flourish at the end.

David Poch

GEC Interrogatories to THESL

1. Please provide a tabular summary with:
 - the MW and MWh savings expected from each proposed program and from THESL delivery of OPA province-wide programs in each of the four years and persisting at the end of 2014
 - the Directive targets that have been allocated to THESL
2. For each proposed CDM program, please list the *annual* MWh savings that will persist and occur in each of 2014 and 2015 and 2020 from the combined effect of the four years of program effort.
3. For each proposed program please provide the completed evaluation plan showing the particular data that will be collected for each measure and each participant and for each program.
4. For each proposed program that includes energy or capacity savings, please describe how THESL has estimated free ridership and describe any evaluation that will occur to monitor free ridership.
5. For each proposed program please describe how participation rates were estimated and provide any studies or data relied upon.
6. For each proposed program please indicate whether higher participation rates could be cost-effectively achieved and if so how. Where higher rates are cost-effective and achievable please discuss THESL's rationale for not pursuing such savings.
7. Please provide the ratio of incentive costs to total program costs for each program.

8. Please provide a description of the process THESL undertook to:
 - a. determine cost-effective and achievable CDM potential in the franchise area for CDM that is non-duplicative with the OPA programs
 - b. to prioritize and select the proposed programs
9. Please provide any studies that THESL relied upon to determine cost-effective and achievable potential for CDM in the THESL franchise area.
10. Please provide a list of OPA province-wide program offerings (or expected offerings) that THESL is choosing not to participate in and provide a rationale for that determination in each case.
11. Please provide a list of cost-effective measures and programs that are non-duplicative with OPA programs but THESL has chosen not to pursue and provide a rationale for that choice.
12. Does THESL anticipate applying for additional CDM program approvals at a later date for any part of the 2011-2014 period?
13. Does THESL intend to apply for a shareholder incentive and LRAM recovery?
14. Is THESL targeting all cost-effective and attainable CDM in its territory and if so over what time frame? If not why not?
15. Please provide an estimate of rate impact on Ontario ratepayers due to the THESL programs.
16. Please provide an estimate of rate impact on Ontario ratepayers assuming all LDCs offer comparable programs.
17. Please provide an estimate of rate impact due to the OPA Province-wide programs.
