Dear Ms. Walli,

Westario Power Inc. – License #ED-2002-0515
2011 3rd Generation IRM Model Rate Application # EB-2010-0122

Westario Power Inc. is in agreement with Board staff to dispose of Group 1 Accounts (including the GA Sub-account), since the combined balance exceeds the preset disposition threshold of \$0.001 per kWh. With respect to the disposition of the global adjustment sub-account, Board staff submits that Westario Power dispose of the global adjustment sub-account by means of a separate rate rider that would prospectively apply to non-RPP customers. Westario Power's billing system is capable of billing the non-RPP customers the separate rate rider. However, Board staff should be aware that additional billing system modifications and sufficient time required will be necessary to implement the changes.

We would be pleased to provide any further information or details that you may require relative to this application.

Respectively submitted,

WESTARIO POWER INC.

Alvin Allim,
Chief Financial Officer
