Subject: EB-2011-0027

Dear Board,

I would appreciate to be included as an observer in the application for leave to construct transmission facilities for Summerhaven Wind LP. The proximity of the project to my principle residents is the reason for my interest. I would like to be aware of each stage of the application process and how it will impact my lifestyle.

I did not find it made clear as to whom I should send this letter so I sent it to all emails listed on the newspaper ad. Please forward all information pertaining to the project to me through my email address: [REDACTED]

Thank you,

Becky Haywood
