Dear Ms. Walli:

Re: EB-2011-0052 Preliminary Assessment of IR Plans of the Natural Gas Utilities

PowerStream Inc. ("PowerStream") is applying for intervention status in the above-noted proceeding.

PowerStream has a vested interest in observing the review of incentive regulation plans of the gas utilities. The electric distribution companies will be moving to a 4th Generation IRM in the upcoming years so it is important to the company and to our customers that we participate in this review.

PowerStream is not eligible for and does not seek an award of costs as per the Board's Cost Award Guidelines.

In an attempt to reduce the amount of paper printed, PowerStream requests to only receive electronic copies of the materials filed by the applicant and subsequent intervenors.

PowerStream requests that documents filed with the Board in the proceeding be served as follows:
