

March 11, 2011

VIA RESS and COURIER

Ms. Kirsten Walli, Board Secretary
ONTARIO ENERGY BOARD
2300 Yonge Street, 27th Floor
Toronto ON M4P 1E4

Dear Ms. Walli:

**Re: EB-2010-0141: St. Thomas Energy Inc. ("St. Thomas")
2011 Electricity Rate Application**

We are counsel to Rogers Cable Communications Inc. ("Rogers") in respect of the captioned proceeding. Please accept this letter as Rogers' request for intervention herein.

Description of the Intervenor

Rogers is an integrated cable and communications company that receives electricity for its cable signal amplification power supplies from distributors throughout Ontario, including St. Thomas. Rogers' power supplies are connected to local distribution systems, and are generally served on an unmetered basis (as "Unmetered Scattered Load", or "USL").

Impact of the Application on the Intervenor

Rogers' interest in this application is primarily focused on its rate treatment, including the metering of its load and the indication by St. Thomas of its intention to eliminate the Unmetered Scattered Load customer Class at the outset of the 2011 Rate Year.

Rogers may have other issues of interest to raise following full review of the pre-filed evidence herein.

Costs

Rogers does not intend to seek costs in this proceeding.

Communications

Rogers requests that all communications and materials in this proceeding be directed to the following contacts on its behalf:

MACLEOD DIXON LLP
