**NOTICE OF APPLICATION AND ORAL HEARING
APPROVING PAYMENT AMOUNTS FOR
PRESCRIBED GENERATING FACILITIES**

Ontario Power Generation Inc.

The Ontario Energy Board (the Board) received an application from Ontario Power Generation Inc. (OPG) on November 30, 2007, under section 78.1 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c.15, Schedule B, seeking approval for increases in payment amounts for the output of certain of its generating facilities, to be effective April 1, 2008. The Board has assigned the application file number EB-2007-0905. The Board's decision on this application will affect most electricity customers in Ontario.

This is OPG's first application for an order from the Board approving payment amounts for output from generating facilities prescribed by Ontario Regulation 53/05. Those facilities are OPG's nuclear generating stations at Pickering and Darlington, and the following hydroelectric facilities: Sir Adam Beck I, Sir Adam Beck II, Sir Adam Beck Pump Generating Station, DeCew Falls I, DeCew Falls II, and R.H. Saunders. In 2006, these stations generated over 40% of the electrical energy consumed in Ontario. The payments OPG currently receives for these generation facilities have been fixed under Ontario Regulation 53/05 and remain in effect until the Board determines other payment amounts on or after April 1, 2008.

OPG indicates that, if the application is approved as filed, there would be a 14% increase in the payment amounts. According to OPG, for a residential customer consuming 1,000 kWh per month that would mean an increase of approximately \$2.75 in the monthly electricity bill. As part of the application, OPG is also seeking an interim payment amount adjustment to take effect April 1, 2008, to allow for recovery of its requested payments if the Board's final decision is not made by that date.

The Board has decided to proceed with this application by oral hearing.

How to see Ontario Power Generation Inc.'s Pre-filed Evidence

Copies of the application and the pre-filed evidence in support of OPG's application will be available for public inspection at the Board's offices and website, and at OPG's head office and website at www.opg.com/about/reg/filings/hearings/.

EB-2007-0905

**AVIS DE REQUÊTE ET AVIS D'AUDIENCE ORALE
AFIN D'APPROUVER LE MONTANT DES PAIEMENTS
POUR LES INSTALLATIONS DE PRODUCTION VISÉES PAR RÈGLEMENT**

d'Ontario Power Generation Inc.

La Commission de l'énergie de l'Ontario (ci-après, la « Commission ») a reçu une requête d'Ontario Power Generation Inc. (ci-après, « OPG ») le 30 novembre 2007 aux termes de l'article 78.1 de la *Loi de 1998 sur la Commission de l'énergie de l'Ontario*, L.O. 1998, c.15, Annexe B, en vue d'obtenir l'approbation d'augmentations du montant des paiements pour la production de certaines de ses installations à compter du 1^{er} avril 2008. La Commission a assigné à la requête le numéro EB-2007-0905. La décision de la Commission concernant cette requête aura une incidence sur la plupart des consommateurs d'électricité en Ontario.

Il s'agit de la première requête d'OPG afin d'obtenir une ordonnance de la Commission approuvant le montant des paiements pour la production de ses installations visées par le Règlement de l'Ontario 53/05. Ces installations comprennent plus spécifiquement les centrales nucléaires exploitées par OPG (Pickering et Darlington), ainsi que les installations hydroélectriques suivantes : Sir Adam Beck I, Sir Adam Beck II, la centrale de pompage Sir Adam Beck, De Cew Falls I, De Cew Falls II et R.H. Saunders. En 2006, ces centrales ont produit plus de 40 % de toute l'énergie électrique consommée en Ontario. Les paiements qu'OPG reçoit actuellement pour ces installations de production ont été établis aux termes du Règlement de l'Ontario 53/05 et demeurent en vigueur jusqu'à ce que la Commission détermine d'autres montants pour les paiements le 1^{er} avril 2008 ou après cette date.

OPG indique que si la requête est approuvée telle que déposée, le montant des paiements augmenterait de 14 %. Selon OPG, le consommateur résidentiel qui utilise 1 000 kWh par mois verrait une augmentation d'environ 2,75 \$ sur sa facture

d'électricité mensuelle. Dans le cadre de la requête, OPG demande également un rajustement du montant du paiement intérimaire qui prendra effet le 1^{er} avril 2008 afin de permettre le recouvrement des paiements demandés si la décision finale de la Commission n'est pas rendue à cette date.

La Commission a décidé de tenir une audience orale pour traiter cette requête.

Comment consulter les documents déposés par Ontario Power Generation Inc.

Des exemplaires de la requête et des documents déposés avant l'audience à titre de pièces appuyant la requête d'OPG seront disponibles pour consultation publique dans les bureaux de la Commission et au bureau central d'OPG ainsi que dans son site Web : www.opg.com/about/reg/filings/hearings/.
