IN THE MATTER OF sections 25.20 and 25.21 of the *Electricity Act, 1998*; **AND IN THE MATTER OF** a Submission by the Ontario Power Authority to the Ontario Energy Board for the review of its proposed expenditure and revenue requirements and the fees which it proposes to charge for the year 2011.

INTERROGATORIES With Respect to the Evidence of the Green Energy Coalition

1. Is it Mr. Neme's evidence that the sum of the targets assigned to local distribution utilities is less than the provincial target for the 2011 to 2014 period for energy savings and for capacity savings?
2. With respect to appliance and equipment standards, how should the OPA account impact That such global standards will have in Ontario? In your opinion, how could the OPA provide an accurate analysis of the true impact of province-wide standards in Ontario? Should such savings be included in the load forecast rather than in a count of Ontario based savings?
