Dear Ms. Walli:

RE: COLLUS Power Corp – IRM3 2011 electricity distribution rate application
Board File No: EB-2010-0076
Response to Decision & Order dated March 17, 2011

COLLUS Power Corp (“COLLUS”) is providing with this letter confirmation of receipt of the Board’s Decision and Order in this matter. The Board requires an assessment of the draft Tariff of Rates and Charges provided with the decision.

During review it is noted that the Unmetered Scattered Load Service Classification tariff sheet incorrectly indicates the Volumetric Rate as being a Service Charge (per customer). Also it is noted that the Distribution Volumetric Rate that is listed is actually the applicable Low Voltage rate.

It is also noted that the Stretch Factor noted in the model COLLUS_EB_2010_0076_IRM3_Model_Final at the front does not reflect that Group 3 is our group. It appears though that the calculation of rates has used the appropriate -.6%. Also the LRAM model incorrectly shows the sunset date of April 30, 2015 but it is correctly calculated in the model as only a 2 year recovery period.

At this time these are the items that have been noted. We will await word from Board staff on how to proceed and will take the required steps to meet all requirements.

Thank you,

T Fryer
