

**IN THE MATTER OF** the *Ontario Energy Act 1998, S.O. 1998, c. 15, (Schedule B)*;

**AND IN THE MATTER OF** an Application by Summerhaven Wind LP for an Order granting leave to construct a new transmission line and associated facilities for the Summerhaven Wind Energy Centre

**INTERVENTION**  
**OF**  
**CAPITAL POWER CORPORATION**

1. Capital Power Corporation ("CPC") is developing a new 104.4 MW windfarm near Nanticoke, Ontario – the Port Dover and Nanticoke Windfarm ("**Port Dover Windfarm**") – approximately 1 kilometre ("**km**") from the proposed Summerhaven Wind Energy Centre ("**Summerhaven**"). The Port Dover Windfarm project was awarded a power purchase contract by the Ontario Power Authority under the Feed-in-Tariff Program and is expected to commence commercial operation in October 2012 or earlier.
2. CPC has registered encumbrances on seven separate parcels of lands that will be directly affected by Summerhaven's proposed transmission line and related facilities.
3. The Port Dover Windfarm will connect to the transmission system of Hydro One Networks Inc. ("Hydro One") on its 230 kV circuit N2M, at or near the intersection with Concession Road 5, approximately 7 km north of Hydro One's Nanticoke Transmission Station. Hydro One and the Independent Electricity System Operator have issued a Customer Impact Assessment and a System Impact Assessment Final Report, respectively, for the project.
4. As the Board has indicated that it will reserve its decision on whether to proceed by way of an oral hearing until after the completion of the interrogatory phase, CPC has no submissions to make in this regard.
5. CPC does not intend to seek an award of costs.
6. The following are the names of CPC's authorized representatives and its counsel for the purpose of serving documents on CPC in this proceeding:
  - (a) Mr. Boris De Jonge  
Capital Power Corporation

Address for personal service
