Dear Ms. Walli:

RE: Ontario Power Authority 2011 Revenue Requirement (EB-2010-0279)
Association of Power Producers of Ontario ("APPrO")
Request for Oral Hearing

We are counsel to APPrO in the above-noted proceeding. APPrO's main area of concern relates to Issue 7.2 (extension of the usage fee to exporters). We believe that the pre-filed evidence and the answers to Interrogatories do not provide sufficient information to allow us to determine the reasonableness and appropriateness of OPA's proposal to recover fees from export customers. As such, we request that an oral hearing be held with respect to this issue.

Yours very truly,

"Signed"

Richard King
