

April 1, 2011

Mr. Mark Graham  
Director, Partnerships and External Relations  
Hydro One Networks Inc.

SUBJECT: Ontario Energy Board File Number EB-2011-0067

I am writing with respect to the above noted proceeding to request the cooperation of Hydro One Networks Inc. in the development and filing of a list with the Ontario Energy Board identifying waterpower developers at risk of loss of capacity allocation prior to June 1, 2011.

As you will be aware, our pre-filed evidence with the Board in this matter has indicated that there are twenty-seven (27) waterpower projects directly affected by the issue identified, a number of which, according to our information, are expected to satisfy the requirements of the Distribution System Code with respect to payment of the Connection Cost Estimate Deposit prior to June 1, 2011. Given the significance of this issue for those affected projects, I would be most appreciative of your early assistance in this matter.

A handwritten signature in black ink, appearing to read "P. Norris", with a long horizontal flourish extending to the right.

Paul Norris  
President  
Ontario Waterpower Association
