Review of Electricity Distribution Cost Allocation Policy Issuance of the Report of the Board - Cost Allocation Working Group (Board File EB-2010-0219)

Dear Ms. Walli

Thank you for your letter dated March 31, 2011 seeking participants on the Cost Allocation Working Group. Cornerstone Hydro Electric Concepts (CHEC) would respectfully request that Ken Robertson, our Finance / Regulatory Analyst, be a representative on this working group.

CHEC is a cooperative of 12 Local Distribution Companies in the province working together to achieve efficiencies. CHEC views Ken's involvement as an effective way of participating in these consultations on their behalf. Ken has worked very closely this past year with CHEC LDC's and other CHEC staff on a variety of cost allocation issues. In addition Ken, as the representative on this Working Group, will be able to access support from our 12 LDCs and also from Dave Proctor, CHEC Finance Coordinator, who has a long history with Cost Allocation.

It would be greatly appreciated if you would consider Ken for participation in the Cost Allocation Working Group.

I look forward to hearing from you.

Respectfully submitted

Gord Eamer
