Solicitor for Haldimand County

Interrogatory #1: General

PREAMBLE:

Haldimand County recognizes the need in appropriate circumstances to locate hydro lines on municipal road allowances. In the case of transmission facilities, Haldimand has safety concerns briefly described in its request for intervenor status. Haldimand acknowledges and understands the comments of the Board concerning jurisdiction made in Procedural Order #2.

QUESTIONS:

1. Will there be any negative effect on the interests of consumers with respect to prices and the reliability of quality of electrical service if the transmission facilities are re-routed away from County road allowances?

2. Will there be any negative effect on the promotion of the use of renewable energy sources consistent with the policies of the Government of Ontario if such transmission facilities are re-routed away from County road allowances?
