Dear Ms Walli:

**Re: 2011 IRM3 Distribution Rate Application - Tariff of Rates and Charges
Board File No. EB-2010-0106**

In accordance with the Decision and Order with respect to Board File No. EB-2010-0106, Orillia Power Distribution Corporation ("Orillia") wishes to advise the Board that with the exception of a few 'wording' issues, Orillia is in agreement with the draft Tariff of Rates and Charges and hereby confirms the completeness and accuracy thereof. The 'wording' issues include:

1. All classifications: Low Voltage Volumetric Rate – we prefer Low Voltage **Service** Rate as used in the previous tariff of rates and charges. Under Street Lighting Service Classification, the word 'Voltage' is missing from the description.
2. Unmetered Scattered Load Service Classification: There is a word missing, 'average', in the description: "This classification applies to an account taking electricity at 750 volts or less whose **average** monthly maximum demand is less than,"
3. Under Application, last paragraph for all classifications, 'Provincial Benefit' should now be called 'Global Adjustment' to be consistent with Ontario Regulation 398/10 Section 16(7) which amended Ontario Regulation 429/04 effective January 1, 2011.

Where the Board is in agreement, Orillia requests that these changes be made to its Tariff of Rates and Charges.
