Dear Ms Walli,

In the event that this transmission line is approved by the board the transition station at the east end of Nelles Corners should be to the east of all residences along Haldimand Road Twenty at Nelles Corners. There are several residences on the north side of the road at the east end of Nelles Corners that are in very close proximity to the road and hence will be close to the proposed line and the transition station if it were to be placed at 1138 Haldimand Road Twenty.

It would seem prudent given the health concerns and property devaluation of these and my own properties that the transition station be placed to the east and the line if approved be underground at this point.

Thank You

Bruce Genery
