Mr. Jeong Tack Lee  
Grand Renewable Wind LP  
c/o Grand Renewable Wind GP Inc.  
55 Stanish Court  
Mississauga, ON L5R 4B2

Dear Mr. Tack Lee:

**Re: Application by Grand Renewable Wind LP for  
Leave to Construct Transmission Facilities  
(EB-2011-0063)**

The application as filed contains several references to the Renewable Energy Approval (“REA”) process that is being undertaken outside of the leave to construct application before the Board. The Board would be assisted if Grand Renewable Wind, LP (“GRW”) would file further information with respect to this process. In particular, the Board would like to understand: what steps in the REA process have already taken place, what steps will occur in the future including the date and location of the second Mandatory Open House, and the anticipated date by which final REA approval will be received.

The Board further observes that the amended application states that: “SRE is seeking to enter into Ground Leases with the three affected private landowners (“the Landowners”) in order to obtain the rights to construct the two Transition Stations and the Interconnection Station, respectively”. The Board asks GRW to

clarify the extent to which the route identified in the application before the Board is expected to be the final route subject to the REA approval.

Yours truly,
