Dear Mr. Vansickle:

**Re: Larry Vansickle Concerns
Board Decision EB-2007-0633/0661**

This letter is in response to your phone request on January 21, 2008 for information about the routing considerations and procedural matters in pipeline leave to construct proceedings.

For your information enclosed is a copy of the relevant Board documents:

- OEB Rules of Practice and Procedure;
- OEB Environmental Guidelines for Hydrocarbon Pipelines.

The OEB's Rules of Practice and Procedures set out general procedures to be followed by parties appearing on matters before the Board. These rules address: documents filings and service; proceedings; pre-hearing procedures; hearings; costs; review of Board's decisions and orders; and rules concerning the licensing of market participants.

The OEB's Environmental Guidelines provide direction to those parties making applications for facilities approvals before the Board. It includes the planning requirements for locating new facilities, the mitigation required for construction of these projects as well as the process for review and approval of the environmental reports which are produced. This document explains the route selection process to be followed by gas utilities and their consultants. It also explains participation by interested persons, affected landowners, municipalities and provincial ministries in the route selection.

If you wish to provide additional correspondence on this matter, please contact the Board Secretary at the following address:

Ms. Kirsten Walli
