**Re: Application by Ontario Waterpower Association to Amend the Distribution  
Licence of Hydro One Networks Inc.  
Board File Number EB-2011-0067**

The Board granted Canadian Manufacturers & Exporters ("CME") intervenor status in the above referenced proceeding and confirmed CME's eligibility to apply for an award of costs under the Board's Practice Direction on Cost Awards.

On May 5, 2011, the Board made an oral Decision and Order with respect to the application and cost awards. With respect to cost awards, the Board stated:

The Board notes that CME has participated in this proceeding and has been deemed eligible for a cost award. CME is to file any cost claims by May 12th, 2011. Any concerns with the cost claim filed by CME must be received by May 19th, with CME given until May 26th for a reply.

On May 25, 2011, CME filed its cost claim and requested that the Board permit the late filing of its claim and proceed to assess it in accordance with the Practice Direction on Cost Awards. CME stated that it became aware of the Board's decision regarding cost awards on May 25, 2011 upon conducting a Regulatory Document Search in this proceeding on the Board's website.

The Board accepts the late filing of CME's cost claim. The Board notes that CME provided Ontario Water Power Association ("OWA") with a copy of its cost claim. OWA

may file with the Board and forward to CME any objections to the claimed costs by June 2, 2011. CME may file with the Board and forward to OWA a response to any concerns raised by OWA by June 9, 2011.
