Dear Ms. Walli:

**RE: EB-2011-0120 CANDAS Application**

Horizon Utilities Corporation ("Horizon Utilities") is an electricity distributor, license by the Ontario Energy Board (the "Board") under license ED-2006-0031. Horizon Utilities is applying for intervention status in the above-noted proceeding.

On May 11th, 2011, the Board released its Notice of Application and Hearing (the "Notice") in respect of this proceeding. The Notice states that CANDAS is seeking an order requesting that the licences of all electricity distributors be amended so as to require distributors to provide Canadian carriers with access to the power poles for the purpose of attaching wireless equipment, including wireless components of distributed antenna systems.

Consequently, Horizon Utilities has a direct interest in this proceeding and therefore seeks intervenor status. Horizon Utilities is not seeking an award of costs in this proceeding.

Correspondence related to this matter may be sent to me electronically, at my email address as follows:
