Dear Ms. Walli:

**RE: Canadian Distributed Antenna Systems Coalition
Application - Access to Power Poles
Board File Number EB-2011-0120**

We represent the Applicant, CANDAS, in this matter.

We understand that the Board intends to convene an oral hearing to hear and decide CANDAS's application sometime in late September or early October of this year. In light of this development, we wish to advise the Board that CANDAS no longer requires the Board to deal with the request for interim relief set out in paragraph 1.0(c) of its Application filed on April 21, 2011.

We also wish to advise the Board that CANDAS intends to file supplementary fact evidence as well as expert evidence relating to the matters in issue that we believe will assist the Board in its deliberations. Due to a number of pre-existing commitments on the part of counsel and witnesses we expect to be able to file this evidence the week of July 25th, 2011. We would ask that the first procedural order take this into account.

Should you have any questions regarding the forgoing, we would of course be happy to assist you.

Yours truly,

(signed) Michael D. Schafler
