Dear Ms. Walli:

EB-2011-0209 – Trout Creek Wind Power Inc. Application of DSC Exemption from Hydro One – Hydro One Networks Inc. Intervention Request

In response to the Board's Notice of Application and Hearing dated June 7, 2011, Hydro One Networks Inc. ("Hydro One") is applying for intervenor status in the above-noted proceeding.

Hydro One is a subsidiary of Hydro One Inc. and operates extensive electricity transmission and distribution facilities throughout Ontario. Hydro One is a major stakeholder in the Ontario energy sector and a regulated Ontario electricity distributor and transmitter. Hydro One is affected by the outcome of this proceeding, as in this Application, the Applicant seeks to amend Hydro One Networks Inc.'s Electricity Distribution Licence ED-2003-0043, to exempt Hydro One from certain obligations in the Distribution System Code. Also in its Procedural Order No. 1, the Board identifies certain actions that require the cooperation and involvement of Hydro One. Hydro One's interests in this proceeding include, but are not limited to, continuing to support the cost effective, timely and efficient connection of renewable energy generation projects without undue adverse impact on the Company and its ratepayers.

The proposal put forward by Trout Creek Wind Power is substantially similar to that put forward by the Ontario Waterpower Association and Hydro One and subsequently decided upon by the Board in proceeding EB-2011-0067. As Hydro One actively participated in creation of the OWA proposal, Hydro One anticipates minimal participation will be required for this proceeding.

Hydro One is not eligible for and does not intend to seek an award of costs as per the Board's Cost Award Guidelines.

Hydro One requests that documents filed with the Board in this proceeding be served as follows –
