June 10, 2011

Ms. Kirsten Walli
Board Secretary
Ontario Energy Board
P.O. Box 2319
2300 Yonge Street, 27th Floor
Toronto, ON M4P 1E4

Dear Ms. Walli:

Re: Summerhaven Wind, LP Leave to Construct Application (EB-2011-0063)

The Independent Electricity System Operator (the "IESO") is writing to request the Ontario Energy Board's (the "Board") clarification regarding the scope of the Board's Procedural Order No. 6; in particular, the limit or extent to which intervenors, Board staff or Summerhaven Wind LP may seek additional information related to intervenor's evidence that is relevant to the proceeding. Specifically, in Part 2 of Procedural Order No. 6, the Board orders that:

"Any party (intervenor, Board staff or Summerhaven Wind LP) that requires additional information related to any intervenor's evidence that is relevant to the proceeding [with emphasis], shall request it by written interrogatories filed with the Board and delivered to the parties on or before Wednesday, June 8, 2011."

Given the provisions in Procedural Order No. 6; in particular, Part 2 of the Board's order, is it reasonable for the IESO to file interrogatories on additional information that was provided by Hydro One in the course of the Technical Conference, wherein the transcript forms part of the evidence in this proceeding and was subsequently filed as such. The IESO believes certain information that was revealed by Hydro One in the course of the Technical Conference is relevant and important to a rational outcome in

this proceeding; accordingly, this establishes an acceptable basis for its interrogatories which was filed on June 8, 2011, in accordance with its plain reading and interpretation of the Part 2 of Procedural Order No. 6.

The IESO appreciates the Board's indulgence regarding the requested clarification of its order.

Yours truly,
