Dear Ms. Walli,

Application by Hydro One Networks Inc. for a Six Month Exemption from the Timelines for the Connection of Micro-Embedded Generators

Application from Section 6.2.6 & 6.2.7 of Distribution System Code

Board File No.: EB-2011-0118

Our File No.: 339583-000108

We are writing to seek intervenor status and cost award eligibility in this proceeding on behalf of Canadian Manufacturers & Exporters ("CME").

Request for Intervenor Status

The reasons why CME should be granted intervenor status in this proceeding include the following:

1. CME is Canada's leading business network. Its members represent 75% of manufactured output in the Province of Ontario, and 90% of all exports.
2. Manufacturing is important to the Province of Ontario. It is the single largest sector of the economy (17.5% of Gross Domestic Product ("GDP") or \$300B) employing, directly, over 1M people in the Province.
3. CME wishes to actively participate in this proceeding to ensure that there will be no adverse cost consequences to ratepayers if the Application is approved.

Request for Cost Award Eligibility

CME seeks a determination that it is eligible for a Cost Award on the following grounds:

1. CME is a not-for-profit organization funded by membership fees and revenues from the services it renders to Federal and Provincial Governments and Agencies to foster the development of national and international markets for its members and to break down trade barriers.

2. About 85% of CME's 1,200 Ontario-based member companies are Small to Medium sized business Enterprises ("SMEs") with 500 employees or less. The views of these businesses should be considered in this proceeding.
3. CME's ability to actively participate in this proceeding is dependent upon a determination that it is eligible for a Cost Award. In many prior proceedings, the Board has determined that CME is eligible for a Cost Award.
