Dear Ms. Walli:

Re: Oshawa PUC Networks Inc.
Electricity Distribution Rate Change Application
Request for Intervenor Status
Board File No. EB-2011-0073

I am writing pursuant to the Board's Notice of Application and Oral Hearing for the above application dated June 17, 2010 to respectfully request that the Board grant AMPCO intervenor status in this application.

I. AMPCO's Interest

AMPCO is a not-for-profit consumer interest advocacy organization. AMPCO's members represent a cross-section of Ontario's major industries: forestry, chemical, mining and minerals, steel, petroleum products, cement, automotive and manufacturing and business consumers in general. AMPCO members are major investors, major employers and a major part of communities in which we operate, across Ontario.

AMPCO, and its member companies, are well known to the Board. AMPCO actively participates in many proceedings, working groups, consultations and initiatives of the Ontario Energy Board (OEB) in which matters of relevance to Ontario's large electricity consumers are being addressed. AMPCO works as far as possible with other industry and consumer interest organizations, both outside and within OEB proceedings.

AMPCO's interest in the present application relates to matters that pertain generally to the interests of consumers with respect to price, adequacy, reliability and quality of electricity service and specifically to how costs are allocated to, and rates are designed to recover costs from industrial customers. Any order of the Board pertaining to this application will directly affect industrial customers.

I. Costs

I respectfully request that the Board please confirm AMPCO's eligibility for an award of costs in this matter. AMPCO has been granted intervenor status and cost award eligibility in other OEB proceedings including Electricity Distribution Rate Applications.
