AND WE WOULD LIKE TO MAKE A REQUEST THAT THIS NEEDS TO BE A ORAL HEARING WITH REGARDS TO A SIX MONTH EXEMPTION FROM THE TIMELINES FOR THE MICRO-EMBEDDED GENERATIONS – this is requested for the following reasons:

- We need to be there to hear why they feel they need these extension
- We also need to be there to explain to the OEB – what we have been put through over these past 6 months as well what happened in 2010.
- We have all been experiencing frustration and to extend this makes no sense.
- We need to come together so that we all can have a better understanding.
- It is also necessary that this extension not be granted – because we all have a invested in this project and the cost just keep going up.

Hoping to hear from you in the near future.

Judy McLellan
