Ms. Kirsten Walli, Board Secretary
ONTARIO ENERGY BOARD
2300 Yonge Street, 27th Floor
Toronto ON M4P 1E4

Dear Ms. Walli:

Re: EB-2007-0681 - Hydro One Networks Inc. 2007 Distribution Rates Application

We are counsel to Rogers Cable Communications Inc. ("Rogers") in respect of the captioned proceeding. Please accept this letter as Rogers' request for intervention herein.

Description of the Intervenor.

Rogers is an integrated cable and communications company that receives electricity for its power supplies from distributors throughout Ontario, including Hydro One. Many of Rogers' facilities are classified as unmetered scattered load.

Impact of the Application on the Intervenor.

Hydro One's application herein includes a proposal for rate harmonization, a component of which proposal is adoption of the results of a cost allocation study to establish a new fixed service charge for unmetered scattered loads across Hydro One's service territory. Rogers has a direct interest in the critical evaluation of this proposal, as the proposal will have a direct financial impact on Rogers as a Hydro One distribution customer.

Rogers may have other issues of interest to raise following full review of the pre-filed evidence herein.

Intervention Request and Costs.

As previous counsel for Rogers in various Hydro One proceedings, our office received from Hydro One a copy of the Notice of Application and Hearing herein on January 17th. On the terms

of that notice intervention requests were due on Monday January 28th. Accordingly, as may be required, we hereby request that the Board accept this letter as a request for late intervention on behalf of Rogers. Rogers is prepared to accept the record in this proceeding as it stands as of the date of the Board's determination on this request for intervention.

Rogers does not intend to seek costs in this proceeding.

Communications.

Rogers requests that all communications and materials in this proceeding be directed to the following contacts on its behalf:
