Lot 17, 18 Con 10 Raleigh Twp.

Lot 17, 18 & 20 Raleigh Twp. Kent Cty

Concerns of the proposed project:

1. Sale of the railroad property – As landowners, we have not received any information as to the first right of refusal to purchase the existing railroad property. Has this land already been sold to the South Kent Wind project?
2. Proximity to our houses - Is there any by-laws restricting locations of such hydro lines to residential homes.
3. Railroad property – If the property is owned by the South Kent Wind project, is the company providing any changes to the land? The removal of the existing railway system, restoring the land to proper agricultural status for the adjacent landowners' property. As landowners and farmers, we have great concern without proper drainage this will greatly affect the crop production of the land.
4. Land value – Will this proposal be prepared in a manner that will not depreciate the value of our land. As having owned the property for many years and providing proper maintenance of our property, this is of great concern to us. From an aesthetics view point, it would greatly enhance our community.

We have applied for our intervenor ID #. We appreciate your consideration of our concerns, and look forward to hearing from you.

Sincerely,

William and Mary Ann Machacek
