**Subject:** Energy Board Hearings for Hydro One Networks Participation

Kirsten Walli

I wish to actively participate in the hearing. Hydro One Networks needs to be held accountable for they're actions , promises and contract ural obligations. My dealings with Hydro One Networks has been one of pure frustration and dissatisfaction from day one. This is a totally disorganized organization that if not a monopoly or in the private sector would have been bankrupt decades ago. My interest in all this is an owner of 50% interest in 15, 10kw microfit systems with my father ,of which only 9 are connected to the grid and producing. of the six remaining , 2 have been ready for connection for since November ,2010 and the remaining 4 since March 2011. We completed 3 in May 2011 and they were connect from 5-14 days of completion . How is this right.?...why aren't they connected in chronological sequence? My Father and I have in excess of a 1.3 Million dollars invested in this venture and are paying interest on the invested money for projects that are not producing returns because of all the foot dragging, red tape and utter disorganization on the part of Hydro One Networks. If we say we are going to do something..we do it....how is Hydro One Networks exempt from integrity? I will participate in hearings with witnesses if need be , and many questions will be asked in cross examination. I wish a basis for restitution of financial losses due to the incompetence of Hydro One Networks. I will also seek restitution of all expenses incurred by participating in the hearings for myself and all witnesses. I will not participate in the French language at the hearing.

I may be contacted by the following means:  
Steve Quenneville president of Steve Quenneville Inc
