Subject: Comment on application for exemption by Hydro One re: Microfit timelines

Good day,

I would like to voice my concerns concerning the proposed connection delays applied for by Hydeo One.

I am struggling to pay my loan for my solar project. These delays are placing hardships on my financial situation. I must be able to generate income from the solar project to pay my creditor. I am opposed to this and feel it is unjust. I think Hydro One should make every effort to expedite and streamline the processing of my request. Their backlog is due to their own shortsightedness particularly related to the Electronic Transfer Form and lack of helpful instructions in filing the form. In my own case, I have had to send in corrections twice and still have yet to have them process. My initial form was sent in early June and I am still waiting for them to process.

Regartds,
Pierre Montigny
