Dear Ms. Walli:

Re: Grimsby Power Incorporated
Electricity Distribution Rate Application for 2012 Rates

On June 22nd, 2011 the Board issued revisions to the "Chapter 2 of the Filing Requirements for Transmission and Distribution Applications" which contains a number of changes and a number of prescribed OEB MS Excel templates to include with applications.

Grimsby Power Incorporated (Grimsby Power) was intending to file its rate rebasing cost of service application by June 24th, 2011 as per our letter to the OEB dated April 7th, 2011. However, the issuance and timing of revised guidelines will delay this submission.

Grimsby Power has reviewed the new filing requirements and is working towards incorporating the changes into Grimsby Power's rate application.

Grimsby Power is advising the Board that in order to file its cost of service application to include the additional requirements of Chapter 2 it will need additional time. Grimsby Power will file its cost of service rate application in the near future.

Regards,

Doug Curtiss

Doug Curtiss, P.Eng.
Chief Executive Officer
Grimsby Power Inc.
