

**EB-2011-0128**

**IN THE MATTER OF** the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15, (Schedule B);

**AND IN THE MATTER OF** an application by PowerStream Inc. for an order or orders approving or fixing just and reasonable distribution rates related to Smart Meter deployment, to be effective November 1, 2011.

### **PROCEDURAL ORDER No. 1**

PowerStream Inc. ("PowerStream") filed an application ("the Application") with the Ontario Energy Board (the "Board") on June 11, 2010 under section 78 of the Ontario Energy Board Act, 1998, S.O. 1998, c. 15, (Schedule B) (the "Act"), seeking approval for rate riders to recover costs related to smart meter deployment. PowerStream continues to operate two separate rate zones, PowerStream South, the legacy service area and PowerStream North, the Barrie service area. This Application pertains to both service areas. The Board has assigned the application file number EB-2011-0128.

The Board issued a Notice of Application and Written Hearing on July 14, 2011. The Vulnerable Energy Consumers Coalition ("VECC") applied for intervenor status and cost eligibility. Veridian Connections Inc. requested observer status for the proceeding. No objections were received.

The Board has determined that VECC will be granted intervenor status and is eligible to apply for an award of costs under the Board's *Practice Direction on Cost Awards*. The Board grants observer status to Veridian Connections Inc.

In the Notice of Application and Hearing, the Board stated its intention to proceed with its review of this application by way of a written hearing.

In the Application, PowerStream filed a request that the following documents be held in confidence by the Board pursuant to the Board's *Practice Direction on Confidential Filings* (the "Practice Direction"):

- Advanced Metering Infrastructure Services Agreement between PowerStream Inc. and Sensus Metering Systems Inc.;
- Residential Smart Meter Pricing from Sensus Metering Systems Inc.;
- Smart Meter Installation Contract between PowerStream Inc. and Olameter Inc.;
- and
- Olameter Inc. price quote for the installation of 3-phase meters.

PowerStream advised the Board that un-redacted copies of all documents have been filed with the Board in confidence. PowerStream stated that it will provide un-redacted copies of the documents to parties' counsel and experts or consultants who have executed the Declaration and Undertaking appended to the Practice Direction, subject to any objection which might be raised by PowerStream.

The Practice Direction permits any party to a proceeding to object to the request for confidentiality by filing a written objection. This Procedural Order establishes the process for receiving such objections and PowerStream's response.

The Board will also make provision at this time for written interrogatories. After its review of the responses, the Board will determine the next steps.

Please note that this Procedural Order may be amended, and further procedural orders may be issued from time to time.

**THE BOARD ORDERS THAT:**

1. The Applicant shall provide all materials for which confidential treatment has been requested to counsel for VECC upon execution of a Declaration and Undertaking pursuant to the Board's *Practice Direction on Confidential Filings*.
2. VECC and Board staff may make written submissions regarding the request for confidential treatment of any or all documents for which PowerStream is claiming confidentiality, which must be filed with the Board and delivered to PowerStream and all other intervenors on or before **August 10, 2011**. Submissions should

comply with the *Practice Direction on Confidential Filings*, specifically sections 5.16 and 5.17.

3. PowerStream shall file any reply submission with respect to any submissions filed pursuant to part 2 above, pursuant to section 5.1.8 of the *Practice Direction on Confidential Filings*, with the Board and delivered to all intervenors on or before **August 15, 2011**.
4. Parties shall request information and material from PowerStream Inc. that is in addition to PowerStream's pre-filed evidence with the Board, and that is relevant to the hearing, by written interrogatories filed with the Board and delivered to PowerStream and all intervenors on or before **August 17, 2011 for Board Staff and August 22, 2011 for VECC**. Where possible, the questions should specifically reference the pre-filed evidence. For interrogatories that have been asked based on information that PowerStream has requested confidential treatment, parties should make best efforts to frame their questions in such a manner as to be placed on the public record.
5. PowerStream shall file with the Board complete responses to all interrogatories and deliver them to VECC on or before **September 9, 2011**.

All filings to the Board must quote file number EB-2011-0128, be made through the Board's web portal at [www.errr.ontarioenergyboard.ca](http://www.errr.ontarioenergyboard.ca), and consist of two paper copies and one electronic copy in searchable / unrestricted PDF format. Filings must clearly state the sender's name, postal address and telephone number, fax number and e-mail address. Parties shall use the document naming conventions and document submission standards outlined in the RESS Document Guideline found at [www.ontarioenergyboard.ca](http://www.ontarioenergyboard.ca).

If the web portal is not available, parties may email their documents to the address below. Those who do not have internet access are required to submit all filings on a CD in PDF format, along with two paper copies. Those who do not have computer access are required to file 7 paper copies.

All communications should be directed to the attention of the Board Secretary at the address below, and be received no later than 4:45 p.m. on the required date.
