Dear Ms. Walli:

**Re: Cambridge and North Dumfries Hydro Inc. 2012 IRM Application
EB-2011-0156**

On June 22, 2011 the Board sent a letter surveying all electricity distribution utilities in the province as to which of various elements they anticipate are to be included in their 2012 IRM Application. This information was requested so that the Board could assign distributors into one of six application groups based on the expected level of complexity of their application.

Cambridge and North Dumfries Hydro Inc. ("CNDH") responded to the survey on July 4, 2011 and indicated at that time they would not be applying for LRAM/SSM Recovery. On August 2, 2011 the Board issued a letter indicating that CNDH was assigned to Tranche 6, with an application deadline of November 25, 2011. The letter stated that the information filed in the survey is not binding on distributors and if a distributor contemplates a material increase to the complexity of their application, they should file in an earlier tranche.

Subsequent to that date CNDH determined that they will be applying for LRAM/SSM Recovery.

As a result, CNDH respectfully requests to file its 2012 IRM Application, with an LRAM/SSM Recovery, on November 10, 2011 which is consistent with the date for the earlier, Tranche 5 grouping.

Sincerely,

CAMBRIDGE AND NORTH DUMFRIES HYDRO INC.
