Re: Toronto Hydro-Electric System Limited
Application for an Electricity Distribution Rate Change
AMPCO Request for Intervenor Status
Board File No. EB-2011-0144

Dear Ms. Walli:

I am writing pursuant to the Board's Notice of Application and Hearing for the above application dated September 14, 2011 to request intervenor status in this application.

AMPCO's Interest

AMPCO is a not-for-profit consumer interest advocacy organization. AMPCO's members represent Ontario's major industries: forestry, chemical, mining and minerals, steel, petroleum products, cement, automotive and manufacturing and business consumers in general. AMPCO members are major investors, major employers and a major part of communities in which we operate, across Ontario.

AMPCO and its member companies are well known to the Board. AMPCO participates in many proceedings, working groups, consultations and initiatives of the Ontario Energy Board in which matters relevant to Ontario's large electricity consumers are being addressed.

AMPCO's interest in the Board's regulation of local distribution companies relates generally to the interests of consumers with respect to price, adequacy, reliability and quality of electricity service, and, more particularly, to how costs are allocated to, and rates are designed to recover costs from, industrial customers.

In the current application, we also are interested in the long term capital distribution plan and the proposed \$152 capital investment related to the Green Energy Act Plan. Any order of the Board pertaining to this application will directly affect industrial consumers and AMPCO members served by the Applicant.

Costs

We respectfully request that the Board please confirm AMPCO's eligibility for an award of costs in this matter. AMPCO has been granted intervenor cost awards in other OEB proceedings including Electricity Distribution Rate Change Applications.

Notice

Please serve all correspondence pertaining to this proceeding to AMPCO and its consultant as follows:
