Dear Ms. Walli:

Re: Capital Power GP Holdings Inc.; Board File No.: EB-2011-0027

We are counsel to Capital Power G.P. Holdings Inc., in its capacity as general partner of Capital Power L.P. ("Capital Power") and write further to your letter dated September 20, 2011 enclosing draft Conditions of Approval ("Draft Conditions") in the above-referenced matter.

We note that item 1.4 of the Draft Conditions provides that Summerhaven "shall satisfy the [IESO] requirements and recommendations reflected in the [SIA]... and such further and other conditions which may be imposed by the IESO".

We understand that item 1.4 was not intended to adopt the IESO's suggestion that Capital Power's Port Dover and Nanticoke Project share a common connection facility with the Summerhaven Wind Energy Centre. We therefore suggest the following revisions to item 1.4 to avoid any confusion in this regard:

1.4 Summerhaven shall satisfy the Independent Electricity System Operator ("IESO") requirements and recommendations as reflected in the System Impact Assessment document dated November 4, 2010, ("SIA") and such further and other conditions which may be imposed by the IESO with the exception of Recommendation (1) at page 7 of the SIA that a common switching station be built for the Applicant's project and the Port Dover and Nanticoke Wind Farm.

Yours very truly,

ORIGINAL SIGNED BY MATTHEW FLEMING
