Dear Mr. Ryckman:

Re: OPCC Review of the Alliston Pipeline Reinforcement Project -Environmental and Cumulative Effects Assessment Report , Enbridge Gas Distribution Inc. (EGDI)

On June 23, 2011, EGDI submitted an Environmental and Cumulative Effects Assessment Report for Alliston Pipeline Reinforcement Project, prepared by Dillon Consulting (ER) to the Ontario Pipeline Coordinating Committee (OPCC) for review. This is to confirm that the OPCC has completed its formal review of the ER. Once an application for leave to construct is filed with the Board, the project, including the environmental aspects, will be reviewed by the Board. The ER will form a part of EGDI's pre-filed evidence for Board's consideration.

Yours truly,
