

PROPOSED CONSTRUCTION SCHEDULE

1. The proposed construction schedule is as follows:
 - Commence Construction April 2012
 - Completion of Construction August 2012
 - Completion of Reinstatement April 2013
 - Final Inspection August 2013
2. The construction of the pipeline will take approximately 18 to 22 weeks.
The pipeline construction is scheduled to be completed and tested by August 2012.
3. Enbridge gas Distribution Inc. will construct the pipeline using qualified construction contractors following approved construction specifications and updated to reflect the site specific conditions found on this project.
4. Restoration monitoring will be conducted through 2013 to ensure successful environmental mitigation.
5. A post construction report will be issued upon completion of the project.
