Dear Madame:

**Re: EB-2011-0063: Grand Renewable Wind, LP (the "Applicant")  
Update on REA Process - Consultation Report**

Please find enclosed the Applicant's Consultation Report, which was recently finalized after the prescribed second public meeting concerning the Grand Renewable Energy Park (the "GREP"). The Consultation Report is being filed in three parts given its large size.

The Consultation Report forms part of the Applicant's renewable energy approval application for the GREP, including the Transmission Facility. The Consultation Report is being submitted as per the Applicant's undertaking in its original application (filed April 28, 2011) to provide the Board with the updated Consultation Report.

All of which is respectfully submitted,

McCarthy Tétrault LLP

Per: *Signed in the original*

Kristyn Annis
