Re: Notice of Proposal Under Section 81 of the Ontario Energy Board Act, 1998 as submitted by Kruger Energy Inc.

Board File Number EB-2007-0691

Dear Ms. Walli:

We write in response to the January 7, 2008 letter of the Board Secretary. In the letter, the Board stated that it is of the view that the SIA and CIA applications are relevant to this proceeding and are required to be filed before the Board holds its technical conference in this proceeding.

This to inform the Board that the System Impact Assessment ("SIA") Application for the "Chatham-Bloomfield Substation" has been sent to the IESO as of February 25th, 2008. A copy of the application is enclosed.

With the technical information provided in the SIA application materials, Kruger Energy Inc is of the view that there is sufficient evidence at this time to determine whether the impact of the proposal would adversely affect the development and maintenance of a competitive market in Ontario. Kruger Energy Inc respectfully submits that the technical conference should be held without delay.

Yours very truly,

Michael Cookson
