#### Notes:

- (1) Non-capital losses include allowable business investment losses, fed.s.111(8)(b), as made applicable by s.34.
- (2) Where acquisition of control of the corporation has occurred, the utilization of losses can be restricted. See fed.s.111(4) through 111(5.5), as made applicable by s.34.
- (3) Includes losses on amalgamation (fed.s.87(2.1) and s.87(2.11)) and/or wind-up (fed.s.88(1.1) and 88(1.2)), as made applicable by s.34.
- (4) To the extent of applicable gains/income/at-risk amount only.

- (5) Generally a three year carry-back applies. See fed.s.111(1) and fed.s.41(2)(b), as made applicable by s.34.
- (6) Where a limited partner has limited partnership losses, attach loss calculations for each partnership.
- (7) Include amount from 11 if taxable income is adjusted to claim unused foreign tax credit for federal purposes.
- (8) Amount in 709 must equal total of 829 + 839.
- (9) Include non-capital losses incurred in taxation years ending after March 22, 2004.

# **Applies** to corporations requesting a reassessment of the return of one or more previous taxation years under s.80(16) with respect to one or more types of losses

.. . .

- carried back.
  If, after applying a loss carry-back to one or more previous years, there is a balance of loss available to carry forward to a future year, it is the corporation's responsibility to claim such a balance for those years following the year of loss within the limitations of fed.s.111, as made applicable by s.34.
- Where control of a corporation has been acquired by a person or group of persons, certain restrictions apply to the carry-forward and carry-back provisions of losses under fed.s.111(4) through 111(5.5), as made applicable by s.34.
- Refunds arising from the loss carry-back adjustment may be applied by the Minister of Finance to amounts owing under any Act administered by the Ministry of Finance.

- Any late filing penalty applicable to the return for which the loss is being applied will not be reduced by the loss carry-back.
- The application of a loss carry-back will be available for interest calculation purposes on the day that is the latest of the following:
  - 1) the first day of the taxation year after the loss year,
  - 2) the day on which the corporation's return for the loss year is delivered to the Minister, or
  - the day on which the Minister receives a request in writing from the corporation to reassess the particular taxation year to take into account the deduction of the loss.
- If a loss is being carried back to a predecessor corporation, enter the predecessor corporation's account number and taxation year end in the spaces provided under Application of Losses below.

### Certification

I am an authorized signing officer of the corporation. I certify that this CT23 return, including all schedules and statements filed with or as part of this CT23 return, has been examined by me and is a true, correct and complete return and that the information is in agreement with the books and records of the corporation. I further certify that the financial statements accurately reflect the financial position and operating results of the corporation as required under section 75 of the *Corporations Tax Act*. The method of computing income for this taxation year is consistent with that of the previous year, except as specifically disclosed in a statement attached.

. . . .

. . . .

Note 1. Include any property acquired in previous years that has now become available for use. This property would have been previously excluded from column 3. List separately any acquisitions that are not subject to the 50% rule. See Regulation 1100(2) and (2.2) of the *Income Tax Act* (Canada).

Note 2. The net cost of acquisitions is the cost of acquisitions plus or minus certain adjustments from column 4.

Note 3. If the taxation year is shorter than 365 days, prorate the CCA claim.

Note 4. Ontario recapture should be included in net income after deducting the federal recapture and the Ontario terminal loss is deducted from net income after including the federal terminal loss.

## Business Consent form (RC59 continued)

## $_{ar{}}$ Part 3 – Select the program accounts, years and authorization level (continued) -

b) Details of program accounts and fiscal periods - Complete this area only if you ticked box B in Part 3a) on page 1.

If you ticked box B in part 3a), you have to provide at least one program identifier. You can then tick the "All program accounts" box for that program identifier or enter a reference number. Provide the authorization level (tick either box 1 to disclose information or box 2 to disclose information and accept changes to your program account).

You can also tick the "All years" box to allow unlimited tax year access **or** enter a specific fiscal period (specific period authorization **is not available** for online access). You can also enter an expiry date to automatically cancel authorization. If more authorizations or more than four program identifiers are needed, complete another Form RC59.

# **Federal Tax Instalments**

### - Federal tax instalments

For the taxation year ended 2010-12-31

The following is a list of federal instalments payable for the current taxation year. The last column indicates the instalments payable to Revenue Canada. The instalments are due no later than on the dates indicated, otherwise non-deductible interest will be charged. A cheque or money order should be made payable to the Receiver General. Payment may be made by cheque or money order payable to the Receiver General either to an authorized financial institution or filed with **the appropriate remittance voucher to the following address**:

#### Canada Revenue Agency 875 Heron Road Ottawa ON K1A 1B1

Note that you may also be able to pay by telephone or Internet banking. For more information, consult the Corporation Instalment Guide.

#### **T2 CORPORATION INCOME TAX RETURN**

This form serves as a federal, provincial, and territorial corporation income tax return, unless the corporation is located in Quebec or Alberta. If the corporation is located in one of these provinces, you have to file a separate provincial corporation return.

Parts, sections, subsections, paragraphs, and subparagraphs mentioned on this return refer to the federal *Income Tax Act*. This return may contain changes that had not yet become law at the time of printing.

Send one completed copy of this return, including schedules and the *General Index of Financial Information* (GIFI), to your tax centre or tax services office. You have to file the return within six months after the end of the corporation's tax year.

For more information see **www.cra.gc.ca** or Guide T4012, *T2 Corporation – Income Tax Guide*.

If the corporation is not associated with any corporations in the current tax year, but was associated in the previous tax year, the amount to be entered on line 415 is: (Total taxable capital employed in Canada for the current year minus \$10,000,000) x 0.225%

• For corporations associated in the current tax year, see Schedule 23 for the special rules that apply.

| Canadian-controlled private                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                                |                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | 61,951            |

\* "Permanent establishment" is defined in Regulation 400(2).

\*\* Starting in 2009, if the corporation has income or loss from an international banking centre; the taxable income is the amount on line 360 or line Z of the T2 return **plus** the total amount not required to be included, or **minus** the total amount not allowed to be deducted, in calculating the corporation's income under section 33.1 of the federal Income Tax Act. Notes:

 After determining the allocation of taxable income, you have to calculate the corporation's provincial or territorial tax payable. For more information on how to calculate the tax for each province or territory, see the instructions for Schedule 5 in the T2 Corporation - Income Tax Guide.

2. If the corporation has provincial or territorial tax payable, complete Part 2.

Note: Class numbers followed by a letter indicate the basic rate of the class taking into account the additional deduction allowed. Class 1a: 4% + 6% = 10% (class 1 to 10%), class 1b: 4% + 2% = 6% (class 1 to 6%).

\* Include any property acquired in previous years that has now become available for use. This property would have been previously excluded from column 3. List separately any acquisitions that are not subject to the 50% rule, see Regulation 1100(2) and (2.2).

\*\* Include amounts transferred under section 85, or on amalgamation and winding-up of a subsidiary. See the *T2 Corporation Income Tax Guide* for other examples of adjustments to include in column 4.

\*\*\* The net cost of acquisitions is the cost of acquisitions (column 3) plus or minus certain adjustments from column 4. For exceptions to the 50% rule, see Interpretation Bulletin IT-285, *Capital Cost Allowance – General Comments*.

\*\*\*\* If the tax year is shorter than 365 days, prorate the CCA claim. Some classes of property do not have to be prorated. See the *T2 Corporation Income Tax Guide* for more information.

#### **SCHEDULE 500**

#### ONTARIO CORPORATION TAX CALCULATION

| Name of corporation | Business Number   | Tax year-end<br>Year Month Day |
|---------------------|-------------------|--------------------------------|
| HYDRO 2000 INC.     | 86595 5397 RC0001 | 2009-12-31                     |

• Use this schedule if the corporation had a permanent establishment (as defined in section 400 of the federal *Income Tax Regulations*) in Ontario at any time in the tax year and had Ontario taxable income in the year.

• References to subsections and paragraphs are from the federal Income Tax Act.

• This schedule is a worksheet only and does not have to be filed with your T2 Corporation Income Tax Return.

#### Part 1 – Calculation of Ontario basic rate of tax for the year -

#### Part 4 – Calculation of surtax re Ontario small business deduction -

Complete this part if the corporation is claiming the OSBD and its adjusted taxable income, **plus** the adjusted taxable income of each corporation with which the corporation was associated during its tax year, is greater than \$500,000. If the corporation is a member of an associated group, complete Schedule 501, Ontario Adjusted Taxable Income of Associated Corporations to Determine Surtax re Ontario Small Business Deduction.

Note: For days in the tax year after June 30, 2010, the small business surtax rate is 0%. You do not have to complete this part if the corporation's tax year begins after June 30, 2010.

| Adjusted taxable income *                                                                                                                                                                                                                                                                                                                                                                      |                 |

#### SCHEDULE 510

## **ONTARIO CORPORATE MINIMUM TAX**

| Name of corporation | Business Number   | Tax year-end<br>Year Month Day |
|---------------------|-------------------|--------------------------------|
| HYDRO 2000 INC.     | 86595 5397 RC0001 | 2009-12-31                     |

File this schedule if the corporation is subject to Ontario corporate minimum tax (CMT). CMT is levied under section 55 of the Taxation Act, 2007 (Ontario), referred to as the "Ontario Act".

- Complete Part 1 to determine if the corporation is subject to CMT for the tax year.
- A corporation not subject to CMT in the tax year is still required to file this schedule if it is deducting a CMT credit, has a CMT credit carryforward, or has a CMT loss carryforward or a current year CMT loss.
- A corporation that has Ontario special additional tax on life insurance corporations (SAT) payable in the tax year must complete Part 4 of this schedule even if it is not subject to CMT for the tax year.
- A corporation is exempt from CMT if, throughout the tax year, it was one of the following:
  - 1) a corporation exempt from income tax under section 149 of the federal Income Tax Act;
  - 2) a mortgage investment corporation under subsection 130.1(6) of the federal Act;
  - 3) a deposit insurance corporation under subsection 137.1(5) of the federal Act;
  - 4) a congregation or business agency to which section 143 of the federal Act applies;
  - 5) an investment corporation as referred to in subsection 130(3) of the federal Act; or
  - 6) a mutual fund corporation under subsection 131(8) of the federal Act.
- File this schedule with the T2 Corporation Income Tax Return.

#### Part 1 – Determination of CMT applicability -

| Total assets of the corporation at the end of the tax year *                    | 1,446,181 |
|---------------------------------------------------------------------------------|-----------|
| Share of total assets from partnership(s) and joint venture(s) *                |           |
| Total assets of associated corporations (amount from line 450 on Schedule 511)  |           |
| Total assets (total of lines 112 to 116)                                        | 1,446,181 |
| Total revenue of the corporation for the tax year ** 142                        | 2,455,072 |
| Share of total revenue from partnership(s) and joint venture(s) **              |           |
| Total revenue of associated corporations (amount from line 550 on Schedule 511) |           |
| Total revenue (total of lines 142 to 146)                                       | 2,455,072 |

The corporation is subject to CMT if:

- for tax years ending before July 1, 2010, the total assets at the end of the year of the corporation or the associated group of corporations are more than \$5,000,000, or the total revenue for the year of the corporation or the associated group of corporations is more than \$10,000,000.
- for tax years ending after June 30, 2010, the total assets at the end of the year of the corporation or the associated group of corporations are equal to or more than \$50,000,000, and the total revenue for the year of the corporation or the associated group of corporations is equal to or more than \$100,000,000.
   If the corporation is not subject to CMT, do not complete the remaining parts unless the corporation is deducting a CMT credit, or has a CMT credit carryforward, a CMT loss carryforward, a current year CMT loss, or SAT payable in the year.

#### \* Rules for total assets

- Report total assets according to generally accepted accounting principles, adjusted so that consolidation and equity methods are not used.
- Do not include unrealized gains and losses on assets and foreign currency gains and losses on assets that are included in net income for accounting purposes but not in income for corporate income tax purposes.
- The amount on line 114 is determined at the end of the last fiscal period of the partnership or joint venture that ends in the tax year of the corporation. Add the proportionate share of the assets of the partnership(s) and joint venture(s), and deduct the recorded asset(s) for the investment in partnerships and joint ventures.
- A corporation's share in a partnership or joint venture is determined under paragraph 54(5)(b) of the Ontario Act and, if the partnership or joint venture had no income or loss, is calculated as if the partnership's or joint venture's income were \$1 million. For a corporation with an indirect interest in a partnership or joint venture, determine the corporation's share according to paragraph 54(5)(c) of the Ontario Act.

#### \*\* Rules for total revenue

- Report total revenue in accordance with generally accepted accounting principles, adjusted so that consolidation and equity methods are not used.
- If the tax year is less than 51 weeks, multiply the total revenue of the corporation or the partnership, whichever applies, by 365 and divide by the number of days in the tax year.
- The amount on line 144 is determined for the partnership or joint venture fiscal period that ends in the tax year of the corporation. If the partnership or joint venture has 2 or more fiscal periods ending in the filing corporation's tax year, **multiply** the sum of the total revenue for each of the fiscal periods by 365 and **divide** by the total number of days in all the fiscal periods.
- A corporation's share in a partnership or joint venture is determined under paragraph 54(5)(b) of the Ontario Act and, if the partnership or joint venture had no income or loss, is calculated as if the partnership's or joint venture's income were \$1 million. For a corporation with an indirect interest in a partnership or joint venture, determine the corporation's share according to paragraph 54(5)(c) of the Ontario Act.

| - Part 2 – Calculation of adjusted net income/loss fo                                                                                                                                                                  | r CMT purposes ———                                                                |                                                                             |           |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------|-----------|
| Net income/loss per financial statements *                                                                                                                                                                             |                                                                                   |                                                                             | 14,579    |
| Add (to the extent reflected in income/loss):                                                                                                                                                                          |                                                                                   |                                                                             |           |
| Provision for current income taxes/cost of current income taxes                                                                                                                                                        |                                                                                   | 10,221                                                                      |           |

# Part 2 – Calculation of adjusted net income/loss for CMT purposes (continued).

- Life insurance corporations must report net income/loss as per the report accepted by the federal Superintendent of Financial Institutions or equivalent provincial insurance regulator, before SAT and adjusted so consolidation and equity methods are not used. If the life insurance corporation is resident in Canada and carries on business in and outside of Canada, **multiply** the net income/loss by the ratio of the Canadian reserve liabilities **divided** by the total reserve liability. The reserve liabilities are calculated in accordance with Regulation 2405(3) of the federal Act.
- Other corporations must report net income/loss in accordance with generally accepted accounting principles, except that consolidation and equity methods must not be used. When the equity method has been used for accounting purposes, equity losses and equity income are removed from book income/loss on lines 224 and 324 respectively.
- Corporations, other than insurance corporations, should report net income from line 9999 of the GIFI (Schedule 125) on line 210.
- \*\* The share of the adjusted net income of a partnership or joint venture is calculated as if the partnership or joint venture were a corporation and the tax year of the partnership or joint venture were its fiscal period. For a corporation with an indirect interest in a partnership through one or more partnerships, determine the corporation's share according to clause 54(5)(c) of the Ontario Act.
- \*\*\* A joint election will be considered made under subsection 60(1) of the Ontario Act if there is an entry on line 342, and an election has been made for transfer of property to a corporation under subsection 85(1) of the federal Act.
- \*\*\*\* A joint election will be considered made under subsection 60(2) of the Ontario Act if there is an entry on line 344, and an election has been made under subsection 85(2) or 97(2) of the federal Act.
- \*\*\*\*\* A joint election will be considered made under subsection 61(1) of the Ontario Act if there is an entry on line 346, and an election has been made under subsection 13(4) or 14(6) and/or section 44 of the federal Act.

#### **SCHEDULE 546**

#### CORPORATIONS INFORMATION ACT ANNUAL RETURN FOR ONTARIO CORPORATIONS

| Name of corporation | Business Number   | Tax year-end<br>Year Month Day |
|---------------------|-------------------|--------------------------------|
| HYDRO 2000 INC.     | 86595 5397 RC0001 | 2009-12-31                     |

- This schedule should be completed by a corporation that is incorporated, continued, or amalgamated in Ontario and subject to the Ontario Business Corporations Act (BCA) or Ontario Corporations Act (CA), except for registered charities under the federal Income Tax Act. This completed schedule serves as a Corporations Information Act Annual Return under the Ontario Corporations Information Act.
- Complete parts 1 to 4. Complete parts 5 to 7 only to report change(s) in the information recorded on the Ontario Ministry of Government Services (MGS) public record.
- This schedule must set out the required information for the corporation as of the date of delivery of this schedule.
- A completed Ontario Corporations Information Act Annual Return must be delivered within six months after the end of the corporation's tax year-end. The MGS considers this return to be delivered on the date that it is filed with the Canada Revenue Agency (CRA) together with the corporation's income tax return
- It is the corporation's responsibility to ensure that the information shown on the MGS public record is accurate and up-to-date. To review the information shown for the corporation on the public record maintained by the MGS, obtain a Corporation Profile Report. Visit www.ServiceOntario.ca for more information.
- This schedule contains non-tax information collected under the authority of the Ontario Corporations Information Act. This information will be sent to the MGS for the purposes of recording the information on the public record maintained by the MGS.

\* For taxation years ending before January 1, 2009, this includes the corporate minimum tax and the premium tax. For taxation years ending after December 31, 2008, this includes the corporate minimum tax, the Crown royalties' additional tax, the transitional tax debit, the recaptured research and development tax credit and the special additional tax debit on life insurance corporations.

\*\* For taxation years ending after December 31, 2008, the Balance due/Refund is included in the federal Balance due/refund.

# **Federal Tax Instalments**

## Federal tax instalments

For the taxation year ended 2011-12-31

The following is a list of federal instalments payable for the current taxation year. The last column indicates the instalments payable to Revenue Canada. The instalments are due no later than on the dates indicated, otherwise non-deductible interest will be charged. A cheque or money order should be made payable to the Receiver General. Payment may be made by cheque or money order payable to the Receiver General either to an authorized financial institution or filed with **the appropriate remittance voucher to the following address**:

#### Canada Revenue Agency 875 Heron Road Ottawa ON K1A 1B1

Note that you may also be able to pay by telephone or Internet banking. For more information, consult the Corporation Instalment Guide.

#### INFORMATION RETURN FOR CORPORATIONS FILING ELECTRONICALLY

- You have to complete this return to allow your transmitter to electronically file your corporation income tax return to us at the Canada Revenue Agency. You have to complete this return for each tax year.
- By completing part B and signing part C, you acknowledge that, under the *Income Tax Act*, you have to keep all records used to prepare your corporation income tax return, and provide this information to us on request.
- Part D must be completed by either you or the electronic transmitter of your corporation income tax return.
- Give the signed original of this return to the transmitter and keep a copy for yourself. Under the Act, you have to keep your copy for six years.
- We are responsible for ensuring the confidentiality of your electronically filed tax information only after we have accepted it.

#### This return is for your records. Do not send it to us unless we ask for it.

#### Part A – Identification

| Name of corporation |          |               |             |
|---------------------|----------|---------------|-------------|
| HYDRO 2000 INC.     |          |               |             |
| Business Number     | Tax year | From<br>Y M D | To<br>Y M D |
| 86595 5397 RC0001   | •        | 2010-01-01    | 2010-12-31  |

#### Part B – Declaration

# **T2 CORPORATION INCOME TAX RETURN**

This form serves as a federal, provincial, and territorial corporation income tax return, unless the corporation is located in Quebec or Alberta. If the corporation is located in one of these provinces, you have to file a separate provincial corporation return.

Parts, sections, subsections, paragraphs, and subparagraphs mentioned on this return refer to the federal *Income Tax Act*. This return may contain changes that had not yet become law at the time of printing.

Send one completed copy of this return, including schedules and the *General Index of Financial Information* (GIFI), to your tax centre or tax services office. You have to file the return within six months after the end of the corporation's tax year.

For more information see **www.cra.gc.ca** or Guide T4012, *T2 Corporation – Income Tax Guide*.

\* "Permanent establishment" is defined in Regulation 400(2).

\*\* Starting in 2009, if the corporation has income or loss from an international banking centre; the taxable income is the amount on line 360 or line Z of the T2 return **plus** the total amount not required to be included, or **minus** the total amount not allowed to be deducted, in calculating the corporation's income under section 33.1 of the federal *Income Tax Act*. **Notes:** 

 After determining the allocation of taxable income, you have to calculate the corporation's provincial or territorial tax payable. For more information on how to calculate the tax for each province or territory, see the instructions for Schedule 5 in the T2 Corporation – Income Tax Guide.

2. If the corporation has provincial or territorial tax payable, complete Part 2.

T2 SCH 5 E (10)

Note: Class numbers followed by a letter indicate the basic rate of the class taking into account the additional deduction allowed. Class 1a: 4% + 6% = 10% (class 1 to 10%), class 1b: 4% + 2% = 6% (class 1 to 6%).

\* Include any property acquired in previous years that has now become available for use. This property would have been previously excluded from column 3. List separately any acquisitions that are not subject to the 50% rule, see Regulation 1100(2) and (2.2).

\*\* Include amounts transferred under section 85, or on amalgamation and winding-up of a subsidiary. See the *T2 Corporation Income Tax Guide* for other examples of adjustments to include in column 4.

\*\*\* The net cost of acquisitions is the cost of acquisitions (column 3) plus or minus certain adjustments from column 4. For exceptions to the 50% rule, see Interpretation Bulletin IT-285, *Capital Cost Allowance – General Comments*.

\*\*\*\* If the tax year is shorter than 365 days, prorate the CCA claim. Some classes of property do not have to be prorated. See the *T2 Corporation Income Tax Guide* for more information.

| - Part 4 – Calculation | of surtax re Or | ntario small bus | siness deduction · |
|------------------------|-----------------|------------------|--------------------|

Complete this part if the corporation is claiming the OSBD and its adjusted taxable income, **plus** the adjusted taxable income of each corporation with which the corporation was associated during its tax year, is greater than \$500,000. If the corporation is a member of an associated group, complete Schedule 501, *Ontario Adjusted Taxable Income of Associated Corporations to Determine Surtax re Ontario Small Business Deduction*.

Note: For days in the tax year after June 30, 2010, the small business surtax rate is 0%. You do not have to complete this part if the corporation's tax year begins after June 30, 2010.

# SCHEDULE 510

# **ONTARIO CORPORATE MINIMUM TAX**

| Name of corporation | Business Number   | Tax year-end<br>Year Month Day |
|---------------------|-------------------|--------------------------------|
| HYDRO 2000 INC.     | 86595 5397 RC0001 | 2010-12-31                     |

File this schedule if the corporation is subject to Ontario corporate minimum tax (CMT). CMT is levied under section 55 of the Taxation Act, 2007 (Ontario), referred to as the "Ontario Act".

- Complete Part 1 to determine if the corporation is subject to CMT for the tax year.
- A corporation not subject to CMT in the tax year is still required to file this schedule if it is deducting a CMT credit, has a CMT credit carryforward, or has a CMT loss carryforward or a current year CMT loss.
- A corporation that has Ontario special additional tax on life insurance corporations (SAT) payable in the tax year must complete Part 4 of this schedule even if it is not subject to CMT for the tax year.
- A corporation is exempt from CMT if, throughout the tax year, it was one of the following:
  - 1) a corporation exempt from income tax under section 149 of the federal Income Tax Act;
  - 2) a mortgage investment corporation under subsection 130.1(6) of the federal Act;
  - 3) a deposit insurance corporation under subsection 137.1(5) of the federal Act;
  - 4) a congregation or business agency to which section 143 of the federal Act applies;
  - 5) an investment corporation as referred to in subsection 130(3) of the federal Act; or
  - 6) a mutual fund corporation under subsection 131(8) of the federal Act.
- File this schedule with the T2 Corporation Income Tax Return.

#### Part 1 – Determination of CMT applicability

| Total assets of the corporation at the end of the tax year *                    | 1,415,858 |
|---------------------------------------------------------------------------------|-----------|
| Share of total assets from partnership(s) and joint venture(s) *                |           |
| Total assets of associated corporations (amount from line 450 on Schedule 511)  |           |
| Total assets (total of lines 112 to 116)                                        | 1,415,858 |
| Total revenue of the corporation for the tax year **                            | 1,968,638 |
| Share of total revenue from partnership(s) and joint venture(s) **              |           |
| Total revenue of associated corporations (amount from line 550 on Schedule 511) |           |
| Total revenue (total of lines 142 to 146)                                       | 1,968,638 |

The corporation is subject to CMT if:

- for tax years ending before July 1, 2010, the total assets at the end of the year of the corporation or the associated group of corporations are more than \$5,000,000, or the total revenue for the year of the corporation or the associated group of corporations is more than \$10,000,000.
- for tax years ending after June 30, 2010, the total assets at the end of the year of the corporation or the associated group of corporations are equal to or more than \$50,000,000, and the total revenue for the year of the corporation or the associated group of corporations is equal to or more than \$100,000,000.
   If the corporation is not subject to CMT, do not complete the remaining parts unless the corporation is deducting a CMT credit, or has a CMT credit carryforward, a CMT loss carryforward, a current year CMT loss, or SAT payable in the year.

#### \* Rules for total assets

- Report total assets according to generally accepted accounting principles, adjusted so that consolidation and equity methods are not used.
- Do not include unrealized gains and losses on assets and foreign currency gains and losses on assets that are included in net income for accounting purposes but not in income for corporate income tax purposes.
- The amount on line 114 is determined at the end of the last fiscal period of the partnership or joint venture that ends in the tax year of the corporation. Add the proportionate share of the assets of the partnership(s) and joint venture(s), and deduct the recorded asset(s) for the investment in partnerships and joint ventures.
- A corporation's share in a partnership or joint venture is determined under paragraph 54(5)(b) of the Ontario Act and, if the partnership or joint venture had no income or loss, is calculated as if the partnership's or joint venture's income were \$1 million. For a corporation with an indirect interest in a partnership or joint venture, determine the corporation's share according to paragraph 54(5)(c) of the Ontario Act.

#### \*\* Rules for total revenue

- Report total revenue in accordance with generally accepted accounting principles, adjusted so that consolidation and equity methods are not used.
- If the tax year is less than 51 weeks, multiply the total revenue of the corporation or the partnership, whichever applies, by 365 and divide by the number of days in the tax year.
- The amount on line 144 is determined for the partnership or joint venture fiscal period that ends in the tax year of the corporation. If the partnership or joint venture has 2 or more fiscal periods ending in the filing corporation's tax year, **multiply** the sum of the total revenue for each of the fiscal periods by 365 and **divide** by the total number of days in all the fiscal periods.
- A corporation's share in a partnership or joint venture is determined under paragraph 54(5)(b) of the Ontario Act and, if the partnership or joint venture had no income or loss, is calculated as if the partnership's or joint venture's income were \$1 million. For a corporation with an indirect interest in a partnership or joint venture, determine the corporation's share according to paragraph 54(5)(c) of the Ontario Act.

| - Part 2 – Calculation of adjusted net income/loss for CMT purposes                                                                                                                                                                                                                                                                                                                                                        |                             |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------|

#### Part 2 – Calculation of adjusted net income/loss for CMT purposes (continued)

- Life insurance corporations must report net income/loss as per the report accepted by the federal Superintendent of Financial Institutions or equivalent provincial insurance regulator, before SAT and adjusted so consolidation and equity methods are not used. If the life insurance corporation is resident in Canada and carries on business in and outside of Canada, **multiply** the net income/loss by the ratio of the Canadian reserve liabilities **divided** by the total reserve liability. The reserve liabilities are calculated in accordance with Regulation 2405(3) of the federal Act.
- Other corporations must report net income/loss in accordance with generally accepted accounting principles, except that consolidation and equity methods must not be used. When the equity method has been used for accounting purposes, equity losses and equity income are removed from book income/loss on lines 224 and 324 respectively.
- Corporations, other than insurance corporations, should report net income from line 9999 of the GIFI (Schedule 125) on line 210.
- \*\* The share of the adjusted net income of a partnership or joint venture is calculated as if the partnership or joint venture were a corporation and the tax year of the partnership or joint venture were its fiscal period. For a corporation with an indirect interest in a partnership through one or more partnerships, determine the corporation's share according to clause 54(5)(c) of the Ontario Act.
- \*\*\* A joint election will be considered made under subsection 60(1) of the Ontario Act if there is an entry on line 342, and an election has been made for transfer of property to a corporation under subsection 85(1) of the federal Act.
- \*\*\*\* A joint election will be considered made under subsection 60(2) of the Ontario Act if there is an entry on line 344, and an election has been made under subsection 85(2) or 97(2) of the federal Act.
- \*\*\*\*\* A joint election will be considered made under subsection 61(1) of the Ontario Act if there is an entry on line 346, and an election has been made under subsection 13(4) or 14(6) and/or section 44 of the federal Act.

For more information on how to complete this part, see the T2 Corporation - Income Tax Guide.

#### Part 3 – Calculation of CMT payable

| Adjusted net income for CMT purposes (line 490 in Part 2, if positive)                                                                                                                                                                                                                                                                                 |                   |

#### **SCHEDULE 546**

# CORPORATIONS INFORMATION ACT ANNUAL RETURN FOR ONTARIO CORPORATIONS

| Name of corporation | Business Number   | Tax year-end<br>Year Month Day |
|---------------------|-------------------|--------------------------------|
| HYDRO 2000 INC.     | 86595 5397 RC0001 | 2010-12-31                     |

- This schedule should be completed by a corporation that is incorporated, continued, or amalgamated in Ontario and subject to the Ontario Business Corporations Act (BCA) or Ontario Corporations Act (CA), except for registered charities under the federal Income Tax Act. This completed schedule serves as a Corporations Information Act Annual Return under the Ontario Corporations Information Act.
- Complete parts 1 to 4. Complete parts 5 to 7 only to report change(s) in the information recorded on the Ontario Ministry of Government Services (MGS) public record.
- This schedule must set out the required information for the corporation as of the date of delivery of this schedule.
- A completed Ontario Corporations Information Act Annual Return must be delivered within six months after the end of the corporation's tax year-end. The MGS considers this return to be delivered on the date that it is filed with the Canada Revenue Agency (CRA) together with the corporation's income tax return
- It is the corporation's responsibility to ensure that the information shown on the MGS public record is accurate and up-to-date. To review the information shown for the corporation on the public record maintained by the MGS, obtain a Corporation Profile Report. Visit www.ServiceOntario.ca for more information.
- This schedule contains non-tax information collected under the authority of the Ontario Corporations Information Act. This information will be sent to the MGS for the purposes of recording the information on the public record maintained by the MGS.

# - Part 2 - Head or registered office address (P.O. box not acceptable as stand-alone address) -

<sup>\*</sup> For taxation years ending before January 1, 2009, this includes the corporate minimum tax and the premium tax. For taxation years ending after December 31, 2008, this includes the corporate minimum tax, the Crown royalties' additional tax, the transitional tax debit, the recaptured research and development tax credit and the special additional tax debit on life insurance corporations.

\*\* For taxation years ending after December 31, 2008, the Balance due/Refund is included in the federal Balance due/refund.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 4 Tab 8 Schedule 3 Page 1 of 1

## Allowance for PILs

2 3 4

1

Attachment 1 shows the OEB's PILs model used to calculate the PILs amount 2012 at proposed rates.

5

The proposed Allowance for PILs for the 2012 test year is based on the proposed Return
on Equity (ROE) amount – see Exhibit 5, Tab 1, Schedule 1. The resulting income taxes
payable amount is grossed-up based on the applicable income tax rate, so the revenue

9 requirement will generate the proposed ROE amount on an after-tax basis.

10

11 Taxable income is based on pre-tax (accounting) income, plus depreciation expense,

12 less deductions for Capital Cost Allowance and Cumulative Eligible Capital.

13

14 The utility's Taxable Capital is less than the exempt amount for the Ontario Capital Tax;

15 accordingly no capital tax is payable.

16

17 Hydro 2000's proposed PILs for 2012 test year is in the amount of; \$5328

Hydro 2000 Inc.

#### Data Input Sheet - Applicant's Rate Base

| Rate Base<br>Return on Rate Base     |        |    | \$<br>963,468 |                   |
|--------------------------------------|--------|----|---------------|-------------------|
| Deemed ShortTerm Debt %              | 4.00%  | т  | \$<br>38,539  | W = S * T         |
| Deemed Long Term Debt %              | 56.00% | U  | \$<br>539,542 | X = S * U         |
| Deemed Equity %                      | 40.00% | V  | \$<br>385,387 | Y = S * V         |
| Short Term Interest Rate             | 2.46%  | z  | \$<br>948     | AC = W * Z        |
| Long Term Interest                   | 5.32%  | AA | \$<br>28,704  | AD = X * AA       |
| Return on Equity (Regulatory Income) | 9.58%  | AB | \$<br>36,920  | AE = Y * AB       |
| Return on Rate Base                  |        |    | \$<br>66,572  | AF = AC + AD + AE |

#### Questions that must be answered

1. Does the applicant have any Investment Tax Credits (ITC)?

- 2. Does the applicant have any SRED Expenditures?
- 3. Does the applicant have any Capital Gains or Losses for tax purposes?
- 4. Does the applicant have any Capital Leases?
- 5. Does the applicant have any Loss Carry-Forwards (non-capital or net capital)?
- 6. Since 1999, has the applicant acquired another regulated applicant's assets?
- 7. Did the applicant pay dividends? If Yes, please describe what was the tax treatment in the manager's summary.
- 8. Did the applicant elect to capitalize interest incurred on CWIP for tax purposes?

| Historic | Bridge | Test Year |
|----------|--------|-----------|

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 5 Tab 1 Schedule 1 Attachment 1 Page 1 of 2

#### **Capital Structure**

- 2 The purpose of this evidence is to summarize the method and cost of financing Hydro
- 3 2000's capital requirements for the 2012 test year.
- 4

1

- 5 Hydro 2000 has a deemed capital structure of 60% debt and 40% equity, as approved
- 6 by the OEB in its 2008 cost of service application and a return on equity of 8.68% as
- also approved by the OEB in the 2008 Cost of Service file (EB-2007-0704).
- 8
- 9 Hydro 2000 is seeking approval to maintain its capital structure of 60% debt and 40%
- 10 equity, including a return on equity of 9.58% as indicated in the Report of the Board on
- 11 Cost of Capital Parameters<sup>1</sup>. The table below show the proposed 2012 structure in
- 12 comparison to the utility's last cost of service
- 13
- 14
- 15

<sup>&</sup>lt;sup>1</sup> Cost of Capital Parameter Updates for 2011 Cost of Service Applications for Rates Effective May 1, 2011, issued March 3, 2011

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 5 Tab 1 Schedule 1 Attachment 1 Page 2 of 2

- 1 The proposed capital structure for 2012 also reflects a short-term debt component of 4%
- 2 directed by the Board.

3

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 5 Tab 1 Schedule 2 Page 1 of 1

#### Cost of Capital

The proposed cost rates for cost of capital in 2012 are presented on the last page of
Exhibit 5, Tab 1, Schedule 2, Attachment 1. The rates shown for short-term debt and
return on equity are those set out in the Board's letter of March 3, 2011, *Cost of Capital Parameter Updates for 2011 Cost of Service Application.* The parameters are
reproduced in the table below.

#### Cost of Capital parameters for rates effective May 1, 2011

Based on the methodologies set out in the Report and January 2011 data from the Bank of Canada, *Consensus Forecasts* and Bloomberg LLP, the Board has determined that the updated Cost of Capital parameters for 2011 cost of service rate applications for rates effective May 1, 2011 are:

| Cost of Capital Parameter | Value for 2011 Cost of Service Applications for<br>May 1, 2011 rate changes |
|---------------------------|-----------------------------------------------------------------------------|
| ROE                       | 9.58%                                                                       |
| Deemed LT Debt rate       | 5.32%                                                                       |
| Deemed ST Debt rate       | 2.46%                                                                       |

8

1

9

10 The calculation of the proposed rate for long-term debt is set out in Attachment 1 to this 11 schedule, based on the weighted average cost of debt in 2012. There is a single debt 12 instruments outstanding in the year, comprised of a Promissory Note (the "Note") 13 payable to the utility's shareholders.

14

The terms of the Note is embedded in an agreement between Hydro 2000 and its shareholders (the "Agreement"), which appears in Attachment 2 to this schedule. Since market opening in May 2002, Hydro 2000 has paid interest on the Notes at a fixed rate of 5.50%. The actual 5.50% interest rate is slightly higher than the Board's deemed debt rate. As such, the deemed interest rate has been used for rate-setting purposes, in accordance with the Board's policy.

21

The Weighted Average Cost of Debt and the Promissory Note is presented at the nexttwo attachment.

# THE TOWNSHIP OF ALFRED AND PLANTAGENET

# BY-LAW NUMBER 2003-11

# BEING A BY-LAW TO AFFIRM THE STATUS OF HYDRO 2000 INC.

WHEREAS the former Township of Alfred, the Township of North Plantagenet, the Village of Alfred and the Village of Plantagenet were amalgamated on January 1st, 1997 and is now part of the Corporation of the Township of Alfred and Plantagenet; the Hydro Commissions of the Village of Alfred (Ward 3) and the Village of Plantagenet (Ward 4) were dissolved and formed a new hydro commission called the Hydro-Electric Commission of The Corporation of the Township of Alfred and Plantagenet as of January 1st, 1997; AND WHEREAS

Hydro 2000 Inc was incorporated on the 29th day of September 2000 for the purposes of distribution of electricity in Ward 3 and 4 of the Corporation of the Township of Alfred and Plantagenet, and is a corporation licenced to distribute electricity pursuant to the Ontario Energy AND WHEREAS Board Act; AND WHEREAS the Corporation of the Township of Alfred and Plantagenet has an interest, as the sole shareholder in Hydro 2000 Inc. in holding the 100% shares in the said company;

AND WHEREAS Hydro 2000 Inc. owes the Corporation of the Township of Alfred and Plantagenet the sum of \$ 431,805 secured by a Promissory Note from the Corporation of the Township; AND WHEREAS the Ontario Legislature has passed Bill 210 requiring municipalities who have shares in electric utilities to pass a resolution within ninety (90) days of the passing of the Bill, under section 159.1, affirming that the Corporation should continue to be incorporated as provided for pursunant to subsection 142 (1) of the Electricity Act thereby confirming their status as "for profit" corporations;

AND WHEREAS the said legislation was passed on the 9th day of December 2002;

AND WHEREAS section 159.1 of the Electricity Act provides that if the Minister of Energy does not receive a certificate certifying the passing of the resolution to continue to be incorporated that the consequences will be as laid out in subsections 159.1(5), (6) and (7) of the Electricity Act;

status" with no return on equity to the Township and only a reteurn of interest on the debt portion AND WHEREAS in the event the municipality fails to pass such resolution within ninety (90) days , 2002, the Corporation status of Hydro 2000 Inc. will be converted to a "non-profit of the monies owed by Hydro 2000 Inc. to the Township, of December 9<sup>th</sup>,

is 6.59 % and the return on interest on the Promissory Note is 5.5%, providing a return of equity and AND WHEREAS at the present time the maximum return available on equity for the municipality debt that is available in the amount of 5.98% per annum using a weighted average; AND WHEREAS in the event an affirming By-Law is not passed affirming the corporation status of and the Hydro 2000 Inc. was effectively converted to "non-profit status", then this would not allow for the said Hydro 2000 Inc. to manage its finances so as to continue to provide reliable service and in particular, provide a rate of return sufficient to finance maintenance and upgrading of infrastructure; AND WHEREAS the Province of Ontario has decided to maintain Hydro One and their utilities as "for profit" companies and to affirm its current status; NOW THEREFORE the Corporation of the Township of Alfred and Plantagenet enacts as follows:

- That the Corporation of the Township of Alfred and Plantagenet hereby affirms that Hydro 2000 Inc. shall continue to be incorporated, as provided for in subsection 142 (1) of the Electricity Act, 1998, as a "for profit corporation" pursuant to its initially intended purpose and that a certificate, as prescribed, certifying the passing of this by-law be sent to the Minister of Energy. Ϊ.
- That this by-law shall come into force after its third reading and final adoption. 3

READ A FIRST, SECOND AND THIRD TIME and finally passed this 17<sup>th</sup> day of February 2002.

\* In 2012: difference between amounts on sheet E4 for 2012 at existing rates vs. 2012 at new revenue requirement;

in 2011: Net Sufficiency / (Deficiency) multiplied by grossed-up effective tax rate on Utility Income.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 6 Tab 2 Schedule 1 Attachment 1 Page 1 of 2

#### Calculation of Revenue Deficiency or Surplus

2 Table 6.2.1 presents the calculation of the revenue deficiency for the 2012 test year.

3

1

4 Utility Income represents Total Net Revenues, less expenses for OM&A, Depreciation &

5 Amortization, and PILs. Total Net Revenues is comprised of projected distribution

6 revenues at existing rates (see Exhibit 3, Tab 2, Schedule 1) and revenue offsets. The

7 following table indicates the references within the application for these amounts:

8

9

#### Table 1: Utility Income References

| Total Net Revenues:         |                                            |
|-----------------------------|--------------------------------------------|
| Distribution Revenues       | Exhibit 3, Tab 2, Schedule 1, Attachment 1 |
| Revenue Offsets             | Exhibit 3, Tab 3, Schedule 3               |
| Expenses:                   |                                            |
| OM&A                        | Exhibit 4, Tab 1, Schedule 2               |
| Depreciation & Amortization | Exhibit 4, Tab 7, Schedule 1               |
| PILs                        | Exhibit 4, Tab 8, Schedule 3, Attachment 1 |

10 11

12 The Indicated Rate of Return is equal to Utility Income divided by the Rate Base amount.

13 Attachment 2 presents the statement of rate base, consistent with the information in

14 Schedule 2, Tab 1. The Requested / Approved Rate of Return for 2012 appears on the

15 last page of Exhibit 5, Tab 1, Schedule 1, Attachment 1. The Indicated Rate of Return is

16 less than the Requested / Approved Rate of Return, therefore there is a Deficiency in

17 Return. The Net Revenue Deficiency is the Deficiency in Return, multiplied by the Rate

18 Base amount.

19

20 The Provision for PILs/Taxes is the difference between the PILs amount appearing in the

calculation of Utility Income, and the proposed Allowance for PILs as shown in Exhibit 6,

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 6 Tab 2 Schedule 1 Attachment 1 Page 2 of 2

1 Tab 1, Schedule 2, Attachment 1. The sum of the Net Revenue Deficiency and the

2 Provision for PIL/Taxes yields the Gross Revenue Deficiency.

3

4 The Deemed Overall Debt Rate and Deemed Cost of Debt appear on the last page of

5 Exhibit 5, Tab 1, Schedule 1, Attachment 1. The Return on Deemed Equity is derived by

6 taking Utility Income, less the Deemed Cost of Debt, divided by the equity capitalization

amount (which also appears on the last page of Exhibit 5, Tab 1, Schedule 1,

8 Attachment 1).

9

10

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 6 Tab 2 Schedule 1 Attachment 2 Page 1 of 1

#### **Causes of Revenue Deficiency or Surplus**

Hydro 2000's existing rates are based on the Board-approved rates in 2008 following a cost of service rate application, and adjustments to its base distribution rates in 2009-2011 under the Board's Incentive Regulation Mechanism ("IRM"). Price cap adjustments of 1.38%, 1.3% and 1.3% were applied in 2009, 2010 and 2011, respectively, in the IRM rate applications approved by the Board. As a result, current base distribution rates reflect an aggregate price cap of adjustment of 4.08% relative to the 2008 Board-approved rates.

As shown in Attachment 1 to the previous schedule, the Net Revenue Deficiency (excluding PILs) for 2012 is \$243,504.

The deficiency is due primarily to increased expenses for Operations, Maintenance and Administration (OM&A). Projected OM&A for 2012 is \$172,183K higher than the 2008 Board-approved amount, an increase of 66%. The cost drivers underlying this increase are presented in Exhibit 4, Tab 2, Schedule 1, Attachment 3.

The increase in the rate base is another cause of the revenue deficiency. The proposed rate base for 2012 is \$228K higher than the 2008 Board-approved amount, an increase of 31%. The factors contributing to the change in the rate base are discussed in Exhibit 2, Tab 1, Schedule 2.

#### **Overview of Cost Allocation**

1 2

Hydro 2000 engaged Elenchus Research Associates ("Elenchus") to complete its cost allocation models for this application. The proposed 2012 test year data was prepared in accordance with the latest Board Directions, Instructions, and section 2.8 of the Board's Filing Requirements for Distribution and Transmission Applications. The Elenchus report is included as Attachment 1 to this schedule, and the model files referenced therein have been submitted to the Board in electronic form. This report addresses Cost Allocation based on previously approved rates.

10

Hydro 2000's proposed revenue allocation and the resulting Revenue-to-Cost ratios arediscussed in Schedule 2 of this Exhibit/Tab.

# 1 1 INTRODUCTION

Hydro 2000 Inc. ("Hydro 2000") has prepared its 2012 EDR Application as a cost of
service rate application based on a forward test year. The relevant filing requirements
for this Application are set out in Chapter 2 of the June 22, 2011 update to the
document entitled *Ontario Energy Board, Filing Requirements for Transmission and Distribution Applications* ("Filing Requirements").

7 Section 2.10 of the Filing Requirements sets out the expectations of the Board with
8 respect to Exhibit 7: Cost Allocation. The Filing Requirements state:

9 A completed cost allocation study using the Board approved methodology must be 10 filed. This filing must reflect future loads and costs and be supported by appropriate 11 explanations and live Excel spreadsheets. If available when this Exhibit is being 12 prepared, the 2011 update of the model issued by the board may be used.

Hydro 2000 asked Elenchus Research Associated (Elenchus)<sup>1</sup> to assist it by preparing
an appropriate cost allocation study for its 2012 cost of service rate application. In
addressing this issue, Elenchus was guided by the Filing Requirements and the
November 28, 2007 *Report of the Board, Application of Cost Allocation for Electricity Distributors* (EB-2007-0667) ("CA Application Report") which "sets out the Board's
policies in relation to specific cost allocation matters for electricity distributors".<sup>2</sup>
The CA Application Report observes at page 2 that:

20 The Board is cognizant of factors that currently limit or otherwise affect the ability or

21 desirability of moving immediately to a cost allocation framework that might, from a

22 theoretical perspective, be considered the ideal. These influencing factors include

data quality issues and limited modelling experience, and are discussed in greater
 detail in section 2.3 of this Report.

25 The "influencing factors" discussed in section 2.3 of the report are:

<sup>&</sup>lt;sup>1</sup> John Todd, President of Elenchus Research Associates, was the lead consultant for the development and implementation of the methodology used by Hydro 2000 and documented in this report. John Todd's curriculum vitae is available at <u>www.elenchus.ca</u>.

<sup>&</sup>lt;sup>2</sup> Ontario Energy Board, *Report of the Board, Application of Cost Allocation for Electricity Distributors* (EB-2007-0667), November 28, 2007, page 2.

2

- Quality of the data: The Board notes "that accounting and load data can be improved." (p. 5)
- Limited modelling experience: The Board observed that "the cost allocation
   model is complex, and the data required for the model was not always readily
   available for modelling." (p. 6)
- Status of current rate classes: The Board points out that "Any changes in customer classification or load data could have a significant impact on future cost allocation studies" (p. 6).

• Managing the movement of rates closer to allocated costs: The Board notes:

10The Board considers it appropriate to avoid premature movement of rates in11circumstances where subsequent applications of the model or changes in12circumstances could lead to a directionally different movement. Rate13instability of this nature is confusing to consumers, frustrates their energy cost14planning and undermines their confidence in the rate making process. (p. 6)

In utilizing the Board's cost allocation model for Hydro 2000's 2012 cost allocation
study, Elenchus has been cognizant of these "influencing factors" as they apply to
Hydro 2000.

#### 18 1.1 PURPOSE OF THE COST ALLOCATION STUDY

In the context of a cost of service rate application based on a 2012 forward test year, the primary purpose of the cost allocation study ("CA Study") is to determine the proportions of a distributor's total revenue requirement that are the "responsibility" of each rate class.

In addition, cost allocation studies provide revenue to cost ratios for each customer class that can be examined to ensure that they generally fall within the Board-specified ranges (or move toward those ranges where appropriate to mitigate rate impacts) and generally are not moving away from 100%.

- 27 Conceptually, the desired results can be achieved in either of two ways.
- Prospective Year CA Study: A cost allocation study for the 2012 test year can
   be based on an allocation of the 2012 test year costs (i.e., the 2012 forecast

revenue requirement) to the various customer classes using allocators that are
based on the forecast class loads (kW and kWh) by class, customer counts, etc.
By definition, this approach will result in a total revenue to cost ratio at proposed
rates of 100%. Assuming there is a revenue deficiency for the test year, the total
revenue to cost ratio at current rates will be somewhat below 100%.

6 **Historic Year CA Study:** As an alternative, an historic year cost allocation study 7 can be prepared that determines the proportion of costs allocated to each class 8 for the most recent historic year. In this case, the CA Study will rely on actual 9 costs, weather adjusted loads, customer counts, etc. that are not affected by 10 forecast errors. Assuming the costs and loads are relatively stable so that the 11 proportionate cost responsibility of each rate class in the historic year is a 12 reasonable proxy for the 2012 test year cost responsibility, the resulting 13 proportionate cost responsibilities can be used to allocate the 2012 revenue 14 requirement to the various classes.

15 The Hydro 2000 CA Study uses the first of these methods in order to ensure 16 compliance with the Board's direction in the Filing Requirements that the CA Study 17 should "reflect future loads and cost". Relying on a Prospective Year CA Study is also 18 appropriate at this time since the Ontario economy has suffered over the past three 19 years and, as a result, many distributors have experienced significant changes in the 20 load profiles of their customer classes. These changes could have a significant impact 21 on the allocation of costs to the classes and the resulting revenue to cost ratios. This 22 approach implicitly assumes that the economic recovery will be slow and, as a result, 23 the relative loads of customer classes are more likely to reflect 2012 loads than 2010 24 loads during the next IRM cycle.

#### 25 1.2 Hydro 2000's 2008 Cost Allocation Information Filing

Hydro 2000 has not filed a prior cost allocation, and asked Elenchus to prepare its 2012
cost allocation from scratch. This model was performed in accordance with the internal
documentation in the v 2.1 Cost Allocation Model (CA Model). Hydro 2000's 2008
Cost Allocation Information Filing ("CAIF") relied on the Board's 2006 Cost Allocation

Model ("CA Model") and was prepared in accordance with the September 29, 2006 Board report entitled *Cost Allocation: Board Directions on Cost Allocation Methodology* for *Electricity Distributors* ("the Directions"), the subsequent (November 15, 2006) *Cost Allocation Informational Filing Guidelines for Electricity Distributors* ("the Guidelines"), and the *Cost Allocation Review: User Instruction for the Cost Allocation Model for Electricity Distributors* ("the Instructions").

#### 7 1.3 STRUCTURE OF THE REPORT

The remainder of this report is divided into three additional sections. Section 2 provides an overview of the Hydro 2000 CA Study, explaining the model run (or version of the CA model) included in the study, as well as the load and cost information used. Section section explains the methodology used to develop the 2012 Hydro 2000 model by documenting each step taken in completing the model. Section 4 summarizes the results of the Hydro 2000 CA Study, showing the class revenue requirements and revenue to cost ratios generated by the CA model.

# 1 2 OVERVIEW OF THE HYDRO 2000 2012 CA STUDY

#### 2 2.1 MODELS RUNS INCLUDED IN THE HYDRO 2000 COST ALLOCATION STUDY

3 Section 2.10.3 of the updated Filing Requirements specifies that the following4 information should be provided :

- "The previously-approved ratios most recently implemented by the distributor";
- "The ratios that would result from the most recent approved distribution rates and the distributor's forecast of billing quantities in the test year, prorated upwards or downwards (as applicable) to match the revenue requirement, together with the updated cost allocation model; and "The ratios that are proposed for the Test Year, which are the proposed class revenues, together with the updated cost allocation model" which is the appropriate 2012 model.
- Hence, the cost allocation study prepared for purposes of all 2012 cost of service
   filings has been designated: H2000-2012: Hydro 2000 2012 Model: The version
   2.1 CA Model with 2012 loads, costs, and revenues.

#### 15 2.2 LOAD AND CUSTOMER INFORMATION

The updated Filing Requirements specify that "If updated load profiles are not available, the load profiles of the classes may be the same as those provided by Hydro One for use in the Informational Filing, scaled to match the load forecast as it relates to the respective rate classes (see section 2.6.2 above). In particular, if a rate class has experienced a decline in customers or disappeared, or will disappear in the Test Year, the model must be consistent with the updated load forecast, and include an explanation of the changed load forecast of the rate class." (Section 2.10.1, pp. 37-38)

The Hydro 2000 2012 model has been prepared using the following load and loadprofile information:

Annual Loads (kW and kWh, as appropriate) and customer counts: The
 2012 load forecast and customer counts by class being used by Hydro 2000 in its

application were also used for the 2012 CA model. Hydro 2000's load forecast
 was prepared by Elenchus.

3

4

• **Hourly load profile:** The hourly load profiles prepared by Hydro One for the 2006 CAIF was used for all classes.

5 The hourly load profiles provided by Hydro One for all of the classes for the 2006 model 6 were considered to be appropriate for use in the 2012 model for the following reasons.

7 1. Elenchus explored alternatives for updating the hourly load profiles by rate class 8 comparable to the estimated load profiles that Hydro One prepared for the LDCs for 9 their 2006 CA Models. Hydro One advised that they no longer have the capacity to 10 produce a significant number of LDC-specific hourly load profiles. As far as Elenchus 11 is aware, no other entity has the necessary information and models to produce 12 comparable quality hourly load profiles for Ontario LDCs. It therefore was not 13 practical for distributors to update their hourly load profiles by class except in 14 exceptional circumstances.

There would be little point in investing in updated load profiles without also investing
 in updated saturation surveys for the residential class in each service area. These
 are expensive and time consuming to undertake as they involve a survey of a
 statistically significant sample of customers.

With the widespread rollout of smart meters and the collection of smart meter data,
 Ontario distributors will have better hourly load profile by class data than the Hydro
 One estimates. Unless there is evidence of a significant change in circumstances,
 investing in new hourly load profile by class estimates would be a questionable use
 of ratepayer funds when superior hourly load profile information will be available in
 the next few years at minimal incremental cost.

4. Both time-of-use commodity pricing and changes to the design of distribution ratescan be expected to alter the hourly load profiles of the affected classes.

5. The 2006 hourly load profiles were based on 2004 actual loads and updated hourly
load profiles would be based on 2010 actual loads. An update of the hourly load
profiles after 6 years (2004 to 2010) can be expected to produce changes in cost

responsibility that are small relative to the tolerances that are necessary given the
imprecision of the allocated costs based on the 2006 CA Model methodology. (The
revenue-to-cost ratio bands set out in the CA Application Report appear to recognize
the lack of precision in cost allocation studies at this time.)

5 6. There are no remaining Intermediate or Large User customers in the Hydro 20006 service area.

#### 7 2.3 Cost Information

As noted earlier, Elenchus' preferred methodology for preparing 2012 cost allocation models is to use the prospective 2012 test year as the basis for the CA Study, assuming appropriate expense and asset information is available for the 2012 test year. In the case of Hydro 2000, the financial information for the forecast year has been prepared at the USoA level consistent with the level of detail embedded in the OEB's cost allocation model.<sup>3</sup>

<sup>&</sup>lt;sup>3</sup> Some information (i.e., meter counts and some amortization detail) that is used in the Board's CA Model is not explicitly forecasted for the test year. These values were estimated using scaling factors based on prior year ratios. For example, the ratio of meters to customers was assumed to be constant. The portion of the total costs accounted for in this manner was too small for any plausible estimation errors to have a significant impact on the test year revenue to cost ratios.

### 1 3 HYDRO 2000 COST ALLOCATION STUDY METHODOLOGY

2 This section documents Elenchus' methodology for the Hydro 2000 Cost Allocation3 Study, the 2012 CA Model.

#### 4 3.1 2012 HYDRO 2000 CA MODEL

5 3.1.1 HOURLY LOAD PROFILE (HONI FILE)

For the Hydro 2000 CAIF, HONI provided data files with three worksheets that were tobe used as input to the 2008 CAIF:

Data Summary: actual and weather normalized monthly kWh by class,
 disaggregated by weather sensitive and non-weather sensitive load for relevant
 classes.

• Hourly Load Shape by Class: GWh by class for each hour in 2004.

Input to Cost Allocation Model: The 1CP, 4CP, 12CP, 1NCP, 4NCP, 12NCP
 allocators are derived from the hourly load profiles.

The Hydro 2000 hourly load shapes derived by Hydro One for the 2006 CAIF were not updated. However, the demand allocators derived by Hydro One for the 2006 CAIF were revised to reflect changes in the relative loads for the classes from 2004 to 2012. This was done by scaling the hourly load profiles of each class on the Hourly Load Shape by Class worksheet of the HONI file to levels consistent with the 2012 load forecast while maintaining the hourly load shapes.

#### 20 3.1.2 DEMAND ALLOCATORS (HONI FILE)

The demand allocators used in the H2000-2012 CA model were derived using the same methodology as Hydro One used for the 2006 file; however, they were re-determined using the forecast 2012 hourly load profiles resulting from the preceding step. Using the 2012 hourly load profiles by class, the 12 monthly coincident and non-coincident peaks for the rate classes were determined on the Hourly Load Shape by Rate Class worksheet. The allocators were then derived as follows.

- The 1, 4 and 12 NCP values for each class were calculated by selecting the peak
   in the year (1 NCP), summing the four highest monthly peaks (4 NCP) and
   summing the 12 monthly peaks for each class (12 NCP), respectively.
- The total 1, 4 and 12 NCP values are the totals of the corresponding class NCP
  values.
- The 1, 4 and 12 CP values for each class were derived by identifying the hour in
  each month when the coincident peak occurred and then selecting the peak in
  the year (1 CP), adding the demands during the four highest coincident peak
  hours (4 CP) and summing the demand for each class during the 12 monthly
  coincident peak hours (12 CP), respectively.
- The total 1, 4 and 12 CP values are the totals of the corresponding class CP
   values, which are the values used to identify the relevant coincident peak hours.
- 13 3.1.3 2012 DEMAND DATA (H2000-2012 MODEL)

The demand allocators derived in the updated Hydro One file as described in the preceding section were input at the appropriate cells at sheet I8 Demand Data of the 2012 Hydro 2000 CA Model. . The Line Transformer and Secondary 1NCP, 4NCP and 12NCP values were determined from the full load data NCP values using the ratio of values in the 2006 CA Model.

#### 19 3.1.4 2012 CUSTOMER DATA (H2000-2012 MODEL)

- The 30 year weather normalized kWh by rate class which was an input from the Hydro One file at Sheet I6 Customer Data row 27 in the 2006 CA model was replaced with the 2012 load forecast in the 2012 CA Model.
- In addition, the demand data (kW and kWh) in rows 25, 26, 29, and 50 of Sheet I6.1
  Revenue were replaced with the forecasted values.
- 25 The 2012 Distribution Revenue in row 39 was derived using the forecast demand (kW
- and kWh) and customer counts by rate class and the existing 2011 rates.

#### 1 **3.1.5 2012 REVENUE TO COST RATIOS**

Since Hydro 2000 is proposing to set rates that recover its full revenue requirement, the total revenue to cost ratio at proposed rates will be 100% in 2012. The 2012 total revenue to cost ratio at current rates is less than 100% by the amount of the required rate increase. The revenue to cost ratios of the classes reflect the costs allocated to the classes based on the OEB CA Model methodology and the revenues that would be generated at current rates given the forecast demand (kW and kWh) and customer counts by rate class for 2012.

# 1 4 SUMMARY OF REVENUE TO COST RATIOS

- 2 The class revenue-to-cost ratios as determined in the Hydro 2000 cost allocation
- 3 models are shown in Table 7, below.

#### 4 <u>Table 7: Revenue to Cost Ratios</u>

|                 |            | H2000-2012       |                    |
|-----------------|------------|------------------|--------------------|
| Customer Class  | H2000-2008 | Status Quo Rates | Board Target Range |
| Residential     | 104.2      | 79.55            | 85-115             |
| GS < 50 kW      | 100.0      | 189.11           | 80-120             |
| GS > 50 kW      | 100.0      | 192.12           | 80-120             |
| Street Lighting | 71.8       | 101.21           | 70-120             |
| USL             | 27.9       | 103.11           | 80-120             |
| Total           | 100.00     | 100.00           |                    |

5

6 The H2000-2012 ratios (at current rates) reflect the impact of changes in throughput by

7 class as well as changes in costs from 2006 through the 2012 forecast test year.

8 Table 8 presents the revenue responsibility (i.e., allocation of the total revenue9 requirement to the rate classes) in each of the models. This revenue responsibility is

10 presented in both dollar and percentage terms.

#### Table 8: Revenue Responsibility by Rate Class

|                 | H2000-2006 |        | H2000-2012 |        |
|-----------------|------------|--------|------------|--------|
| Customer Class  | \$         | %      | \$         | %      |
| Residential     | 303,952    | 60.70  | 462,687    | 79.30  |
| GS < 50 kW      | 115,577    | 23.08  | 77,266     | 13.24  |
| GS > 50 kW      | 48,518     | 9.59   | 27,704     | 4.75   |
| Street Lighting | 24,902     | 4.97   | 13,941     | 2.39   |
| USL             | 7,779      | 1.55   | 1,839      | 0.32   |
| Total           | 500,727    | 100.00 | 583,437    | 100.00 |

2

1

## 1 5 FIXED CHARGE RATES

- 2 The H2000-2012 cost allocation model produced the following customer unit cost per
- 3 month values:

#### 4 Table 9: 2012 Customer Unit Cost per Month

| Customer Class  | Avoided Cost | Directly Related | Minimum System with PLCC <sup>4</sup><br>Adjustment |
|-----------------|--------------|------------------|-----------------------------------------------------|
| Residential     | 9.44         | 25.03            | 30.39                                               |
| GS < 50 kW      | 11.26        | 29.20            | 33.29                                               |
| GS > 50 kW      | 22.70        | 53.23            | 56.19                                               |
| Street Lighting | 0.02         | 0.07             | 3.14                                                |
| USL             | 8.30         | 22.50            | 25.51                                               |

- 5 In accordance with Board policy,<sup>5</sup> the following boundary values would apply for the
- 6 fixed monthly service charge:

#### 7 Table 10: 2012 Fixed Charge Boundary Values

|                 | Cost Allocation |       |               | Boundary Values |         |
|-----------------|-----------------|-------|---------------|-----------------|---------|
| Customer Class  | Low             | High  | Existing Rate | Minimum         | Maximum |
| Residential     | 9.44            | 30.39 | 8.53          | 8.53            | 30.39   |
| GS < 50 kW      | 11.26           | 33.29 | 24.61         | 11.26           | 33.29   |
| GS > 50 kW      | 22.70           | 56.19 | 120.73        | 22.70           | 120.73  |
| Street Lighting | 0.02            | 3.14  | 0.05          | 0.02            | 3.14    |
| USL             | 8.30            | 25.51 | 12.31         | 8.30            | 25.51   |

<sup>&</sup>lt;sup>4</sup> PLCC: 'Peak Load Carrying Capacity'

<sup>&</sup>lt;sup>5</sup> Ontario Energy Board, *Report of the Board, Application of Cost Allocation for Electricity Distributors* (EB-2007-0667), November 28, 2007, pages 12-13

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 7 Tab 2

Exhibit 7: Cost Allocation

## Tab 2 (of 2): Revenue Allocation and Revenue-to-Cost Ratios

- **Overview of Revenue Allocation and Revenue to Cost** 1 **Ratios** 2
- 3

4 The following table shows the Revenue to Cost ratios by rate class from the 2008 Cost 5 of Service Cost Allocation model, Hydro 2000's proposed target ratios and the Board-6 prescribed ranges and associated bill impacts for these ratios:

- 7
- 8

|               | 2008 EDR<br>(at current rates) | Proposed<br>Ratios | Prescribed Range | Bill impact |
|---------------|--------------------------------|--------------------|------------------|-------------|
| Residential   | 0.80                           | 0.85               | 0.85-1.20        | 7.00%       |
| GS<50kW       | 1.89                           | 1.6                | 0.80-1.20        | 3.80%       |
| GS>50-4999kW  | 1.92                           | 1.8                | 0.80-1.20        | 5.60%       |
| USL           | 1.03                           | 1.03               | 0.80-1.20        | 26.20%      |
| Street Lights | 1.01                           | 1.1                | 0.70-1.20        | 3.80%       |

9

10 Hydro 2000 proposes to move the Revenue to Cost ratio for the Residential class from 11 the existing 0.80 to the prescribed floor of 0.85. The resulting ratio of 0.85 complies with

- 12 all OEB requirements:
- 13 ratio moves towards 1.00 •
- 14 ratio does not cross unity

• ratio is within the prescribed range

15 16

17 2008 Revenue to Cost ratios at current rates indicate that both General Service classes 18 results greater than the applicable prescribed range. Hydro 2000 proposes to move 19 these ratios to the applicable boundary over a period of four years to achieve the target 20 range ceiling of 1.20 in 2015. The changes would be phased in over the Incentive 21 Regulation periods as proposed in the table below:

22

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 7 Tab 2 Schedule 1 Page 2 of 2

1

2

### Table 2: Proposed Changes to Revenue to Cost Ratios

|              | 2008 | 2012 | 2013 | 2014 | 2015 |
|--------------|------|------|------|------|------|
| GS<50kW      | 1.89 | 1.60 | 1.40 | 1.30 | 1.20 |
| GS>50-4999kW | 1.92 | 1.80 | 1.60 | 1.40 | 1.20 |

3

Revenue to Cost ratios for Unmetered Scattered Load (USL) and Street Lighting were
within the applicable prescribed range and therefore Hydro 2000 proposes to leave their

6 ratios at their existing levels of 1.03 (USL) and 1.01 (Street Lights)

7

8 The following table demonstrates the effect of this proposed approach and the resulting

9 total bill impacts in the test year if Hydro 2000 was to move all classes to the applicable

- 10 prescribed ranges over a single year.
- 11

|               | 2008 EDR<br>(at current rates) | Prescribed<br>Target | Prescribed Range | Bill impact |
|---------------|--------------------------------|----------------------|------------------|-------------|
| Residential   | 0.8                            | 0.85                 | 0.85-1.20        | 9.60%       |
| GS<50kW       | 1.89                           | 1.20                 | 0.80-1.20        | -1.20%      |
| GS>50-4999kW  | 1.92                           | 1.20                 | 0.80-1.20        | 2.30%       |
| USL           | 1.03                           | 1.03                 | 0.80-1.20        | 26.20%      |
| Street Lights | 1.01                           | 1.1                  | 0.70-1.20        | 3.80%       |

### **RESIDENTIAL SERVICE CLASSIFICATION**

This classification refers to an account taking electricity at 750 volts or less where the electricity is used exclusively by residential customers residing in detached, semi-detached or townhouse dwelling units. Further servicing details are available in the distributor's Conditions of Service.

#### **APPLICATION**

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, charges for Ministry of Energy Conservation and Renewable Energy Program, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

### **GENERAL SERVICE LESS THAN 50 kW SERVICE CLASSIFICATION**

This classification refers to a non residential account taking electricity at 750 volts or less whose average monthly average peak demand is less than, or is forecast to be less than, 50 kW. This section shall include small apartment buildings, stacked townhouses, and smaller commercial, industrial and institutional developments. Further servicing details are available in the distributor's Conditions of Service.

#### APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, charges for Ministry of Energy Conservation and Renewable Energy Program, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

### microFIT GENERATOR SERVICE CLASSIFICATION

This classification applies to an electricity generation facility contracted under the Ontario Power Authority's microFIT program and connected to the distributor's distribution system. Further servicing details are available in the distributor's Conditions of Service.

#### **APPLICATION**

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, charges for Ministry of Energy Conservation and Renewable Energy Program, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

EB-2010-0089

### **RETAIL SERVICE CHARGES (if applicable)**

#### APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, charges for Ministry of Energy Conservation and Renewable Energy Program, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

Retail Service Charges refer to services provided by a distributor to retailers or customers related to the supply of competitive electricity

| One-time charge, per retailer, to establish the service agreement between the distributor and the retailer<br>Monthly Fixed Charge, per retailer | \$<br>\$ | 100.00<br>20.00 |
|--------------------------------------------------------------------------------------------------------------------------------------------------|----------|-----------------|
| Monthly Variable Charge, per customer, per retailer                                                                                              | \$/cust. | 0.50            |
| Distributor-consolidated billing charge, per customer, per retailer                                                                              | \$/cust. | 0.30            |
| Retailer-consolidated billing credit, per customer, per retailer                                                                                 | \$/cust. | (0.30)          |
| Service Transaction Requests (STR)                                                                                                               |          |                 |
| Request fee, per request, applied to the requesting party                                                                                        | \$       | 0.25            |
| Processing fee, per request, applied to the requesting party                                                                                     | \$       | 0.50            |
| Request for customer information as outlined in Section 10.6.3 and Chapter 11 of the Retail                                                      |          |                 |
| Settlement Code directly to retailers and customers, if not delivered electronically through the                                                 |          |                 |
| Electronic Business Transaction (EBT) system, applied to the requesting party                                                                    |          |                 |
| Up to twice a year                                                                                                                               |          | no charge       |
| More than twice a year, per request (plus incremental delivery costs)                                                                            | \$       | 2.00            |
|                                                                                                                                                  |          |                 |

### LOSS FACTORS

If the distributor is not capable of prorating changed loss factors jointly with distribution rates, the revised loss factors will be implemented upon the first subsequent billing for each billing cycle.

| Total Loss Factor – Secondary Metered Customer < 5,000 kW | 1.0660 |
|-----------------------------------------------------------|--------|
| Total Loss Factor – Secondary Metered Customer > 5,000 kW | N/A    |
| Total Loss Factor – Primary Metered Customer < 5,000 kW   | 1.0553 |
| Total Loss Factor – Primary Metered Customer > 5,000 KW   | N/A    |

### FIXED / VARIABLE REVENUE SPLITS

|----|--------------------------------------------------------------------------------------------|
| 3  | came into effect May 1. 2011                                                               |
| 4  |                                                                                            |
| 5  | The existing rates for Specific Service Charges, Retail Services Charges and Loss          |
| 6  | Factors were approved by the Board in 2008 as part of the utility's cost of service        |
| 7  | application.                                                                               |
| 8  |                                                                                            |
| 9  | The class-specific rates for the monthly service charge and distribution volumetric result |
| 10 | from the cost of service approval in 2008 and annual adjustments in 2009, 2010 and         |
| 11 | 2011 under the Board's 3rd Generation Incentive Regulation Mechanism ("3GIRM").            |
| 12 | These adjustments included factors for the price cap factor and the transition towards a   |
| 13 | 40% deemed equity component in the utility's capital structure, The monthly service        |
| 14 | charge levels for metered classes include a \$1.69 funding adder for Smart Meters.         |
| 15 |                                                                                            |
| 16 | Table 2 below shows the list of approved rate riders.                                      |
| 17 |                                                                                            |

### **Street Lights**

The fixed to variable split for Street Lights was set to re-balanced the disproportion in the existing split. 96% of revenues from this particular class are currently being recovered

from the variable rate. Instead, Hydro 2000 proposes a more equitable split of 40% fixed

to 60% variable.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 8 Tab 2 Schedule 1 Attachment 1 Page 2 of 3

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 8 Tab 2 Schedule 1 Attachment 1 Page 3 of 3

#### **Residential**

1 2

3 Hydro 2000 feels that maintaining the existing fixed/variable split for the Residential

4 class would result in an MSC higher than the clients in this particular class can assume.

5 Lowering the fixed component will allow the customers to have some control over their

6 monthly bills as well as encourage clients to reduce their consumption thereby reducing

- 7 their total bill.
- 8

|             | Existing F | ixed to Vari | able Split | Proposed Fixed to Variable Split |        |        |  |  |  |

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 8 Tab 3 Schedule 3 Attachment 1 Page 1 of 2

### **Overview of RTSR**

| 1  | Overview of RISR                                                                                     |
|----|------------------------------------------------------------------------------------------------------|
| 2  |                                                                                                      |
| 3  | Board policy states that distributors should file the following material in a cost of service        |
| 4  | rate application in support of a change to RTSRs:                                                    |
| 5  | • A variance analysis using 2 years of actual data examining what, if any, trend is                  |
| 6  | apparent in the monthly balances in the RTSR deferral accounts                                       |
| 7  | • A calculation of the proposed RTSR rates that includes the adjustment of the UTRs                  |
| 8  | effective January 11,2011 and an adjustment to eliminate ongoing trends in the                       |
| 9  | balances in the RTSR deferral accounts <sup>1</sup>                                                  |
| 10 | Table 8.3.1 shows the utility's proposed 2012 RTSR. Table 8.3.2 shows the trend for the              |
| 11 | past two years of transmission revenues and costs, adjusted for consistency with both                |
| 12 | retail and supply rates that were in effect in August 2011. The trend indicates that these           |
| 13 | rates were resulting in over-collection of transmission charges for both Network Service             |
| 14 | and Connection Service. This conclusion is consistent with the accumulation of credit                |
| 15 | balances in variance accounts 1584-RSVA/NW and 1586-RSVA/CN during this two-year                     |
| 16 | period. <sup>2</sup> Hydro 2000 therefore proposes to adjust its RTSRs to offset the over-collection |
| 17 | bias in its existing retail rates.                                                                   |
| 18 |                                                                                                      |
| 19 | As an embedded distributor, Hydro 2000 pays Hydro One Networks Inc. ("HONI") retail                  |

- 20 transmission service rates for the supply of transmission services, rather than the
- Uniform Transmission Rates ("UTRs") paid by market participants. The supply rate 21
- changes at the bottom of Attachment 1 reflect the changes in the effective blended rate 22

<sup>&</sup>lt;sup>1</sup> <u>Guideline G-2008-0001: Electricity Distribution Retail Transmission Rates</u>, Revision 1.0 (July 22, 2009), pages 4-5 <sup>2</sup> see Exhibit 9, Tab 1, Schedule 2, Attachment 1

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 8 Tab 3 Schedule 3 Attachment 1 Page 2 of 2

- 1 for the two sources of supply for Network Service, and the changes to HONI's rate for
- 2 Connection Service.
- 3
- 4 Hydro 2000 also proposes to apply an adjustment for changes in the applicable HONI
- 5 rates which came into effect May 1, 2011.
- 6
- 7 Table 8.3.3 shows the effect of the adjustments to Hydro 2000's RTSRs. As a result,
- 8 Hydro 2000 proposes to decrease both its RTSRs for Network Service as well as its
- 9 Connection Service. These proposed rate changes are reflected in Hydro 2000's
- 10 projected power supply expense for 2012, shown in Exhibit 3, Tab 1, Schedule 3,
- 11 Attachment 1.
- 12
- 13

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 8 Tab 3 Schedule 5 Attachment 1 Page 1 of 1

### **Derviation of Loss Factor**

Table 8.3.5 shows the calculation of Hydro 2000's proposed Total Loss Factor, based on
the historical average of the last five years.

4

5 Hydro 2000 proposes a Total Loss Factor ("TLF") 1.0772, using the historical average of

6 the last five years as presented at Table 8.3.5. The proposed TLF represents an

7 increase from Hydro 2000's currently approved TLF of 1.0660.

#### 8 Distribution System

9 Hydro 2000 is an embedded distributor with Hydro One Networks Inc. ("HONI") as its 10 host distributor. Hydro 2000's main service area, Alfred and Plantagenet are non-11 contiguous. Both Plantagenet and Alfred are fed from the 44kV HONI owned Utility Substation located outside of the boundaries of Hydro 2000's service area. In the case 12 13 of Alfred, the substation is located approximately one kilometer south of the town of 14 Alfred. From this 44kV substation, three outgoing feeder lines run along St-Joseph Street and to power both Hydro One rural and Hydro 2000. Feeder 1 supports 15 exclusively Hydro One customers, while Feeder 2 is shared between Hydro One rural 16 and Hydro 2000, as indicated in the table 1 below. Loading for feeder 1 and Hydro 17 One's portion of feeder 2 extends north of Alfred's service area on County Rd. #15. 18 19 20 Wholesale consumption delivered to Hydro 2000 is measured at the 44kV station which 21 includes shared feeders running along 1 km of shared HONI lines. Hydro 2000

- 22 maintains, as it did in its 2008 cost of service application, that the main driver
- contributing to the increase in line loss stems from HONI's distribution system.

## **Rate Changes and Bill Impacts**

1 2

3 Attachment 1 presented at the next schedule are the proposed rates to appear on the

4 draft rate order. For each customer class, the following rates appear:

5

#### **Table 1: Customer Class Rates**

| Service Charge                      | Includes the fixed monthly service charge in base revenue |
|-------------------------------------|-----------------------------------------------------------|
|                                     | (Exhibit 8, Tab 2, Schedule 1)                            |
| <b>Distribution Volumetric Rate</b> | The variable charge rate (Exhibit 8, Tab 2, Schedule 1)   |
| Low Voltage Service Rate            | see Exhibit 8, Tab 3, Schedule 4, Attachment 1            |
| Deferral Account Rate Rider         | see Exhibit 9, Tab 2, Schedule 2, Attachment 2            |
| Global Adjustment Rate              | see Exhibit 9, Tab 2, Schedule 2, Attachment 1            |
| Rider                               |                                                           |
| Stranded Smart Meter                | see Exhibit 2, Tab 3, Schedule 5                          |
| LRAM                                | see Exhibit 9, Tab 3, Schedule 3, Attachment 2            |
| <b>Transmission- Connection</b>     | see Exhibit 8, Tab 3, Schedule 3, Attachment 1            |
| Transmission- Network               | see Exhibit 8, Tab 3, Schedule 3, Attachment 1            |
| Wholesale Market Service            | no change proposed                                        |
| Rural Rate Protection               | no change proposed                                        |
| Charge                              |                                                           |
| Standard Supply Service             | no change proposed                                        |

6

7

8 In addition to the existing customer classes, a new class has been added for microFIT

9 Generator Service, in accordance with the Board's related rate order.<sup>1</sup>

10

11 Hydro 2000 proposes to retain the same Specific Service Charges, with no rate 12 changes.

13

14 The Total Loss Factors are presented in Exhibit 8, Tab 3, Schedule 5, Attachment 1.

15

16 Attachment 2 presents detailed sample bill impacts, comparing monthly customer bills

17 under the existing (2011) rates to the proposed (2012) rates. The first page summarizes

18 the bill impacts, while the following pages show the line item details for each sample bill.

<sup>&</sup>lt;sup>1</sup> <u>Rate Order: Distribution Rate for Embedded Generators having a nameplate capacity of 10 kW</u> <u>or less</u> (EB-2009-0326), March 17, 2010

1

2 The same charge rates shown in Table 1 above also appear in each sample bill, with the3 following provisos:

- The Global Adjustment Rate Rider, apply solely to non-RPP, non-MUSH customers,<sup>2</sup>
  is only reflected in the GS>50-4999 class.
- An uplift factor for line losses applies to commodity and certain delivery charges,
  where the billing determinant is consumption (kWh's).
- 8 The following additional line items appear in the sample bills:

A commodity charge, which is based on the approved rates for RPP customers,<sup>3</sup> or using the weighted average forecast electricity price for other customers.<sup>4</sup> To isolate the impact of delivery rate changes, the same commodity charge levels are used in comparing sample bills under existing and proposed rates.

Total bill impacts vary by customer class, ranging from a increase of 27% for Unmetered Scattered Load, to a slight increase of 3.9% for GS<50 and Street Lighting. While base distribution rates would generally increase to address the revenue deficiency, these increases would be offset by credit rate riders to dispose of the significant balances owed to ratepayers that have accumulated in certain variance accounts. Decreases in rates for retail transmission service, also contribute to offset the increase in base distribution rates.

20

Under these proposed rates, the only customer class that would face a total bill increasein excess of 10% is the Unmetered Scattered Load.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 8 Tab 4 Schedule 2 Page 3 of 3

Revenues for the USL class account for 0.33% of the utility's revenues. Total Revenues from the USL are increasing from \$1,036 to \$1,855 to be recovered from a total of 6 customers/connections. For this reason, the bill impact may appear exaggerated. In these circumstances, Hydro 2000 does not feel it necessary to propose any further measures to mitigate customer bill impacts.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 8 Tab 4 Schedule 3 Page 1 of 1

## **1 PROPOSED CHANGES TO CONDITIONS OF SERVCE**

Hydro 2000 has joined a Conditions of Service ("CoS") ad hoc working group facilitated by Elenchus, to develop an up-to-date, comprehensive and standardized set of CoS. The proposed approach is intended to reduce the administrative and regulatory effort required on the part of participating LDC's, share costs among the LDCs and ease the "path to comfort" of all interested parties through standardization and the adoption of best practices" for the LDC's Conditions of Service.

8 Within the next month (November 2011) Elenchus will arrange an informal meeting with 9 Board Staff and representatives of the Working Group. The purpose of the meeting will 10 be to brief OEB staff on the CoS and allow them to identify potential issues that may be 11 of concern to them. Amongst the proposed revisions are the following subjects.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 9

<sup>&</sup>lt;sup>1</sup> <u>Report of the Board on Electricity Distributors' Deferral and Variance Account Review Initiative (EDDVAR)</u> (EB-2008-0046), July 31, 2009, pages 6-7

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 9 Tab 1 Schedule 1 Page 2 of 3

As at December 31, 2010, Hydro 2000 has balances in the following Board-approved deferral and variance accounts categorized by the Board as "Group 2", which are subject to a prudence review:<sup>2</sup> Of the account listed below, Hydro 2000 is requesting approval to dispose of account 1508, 1555, 1556 and 1562.

5

#### Table 2: Group 2 Deferral and Variance Accounts

|                                    | 1                                                                |
|------------------------------------|------------------------------------------------------------------|
| 1508-Other Regulatory Assets       | Amounts of regulatory-created assets, not included in other      |
|                                    | accounts, resulting from the ratemaking actions of the Board.    |
| 1555-Smart Meters Capital Variance | The difference between capital costs incurred for the            |
| Account                            | deployment of smart meters, and amounts charged to utility       |
|                                    | customers through its approved smart meter funding adder         |
| 1556-Smart Meters OM&A Variance    | Incremental costs for operations, maintenance, administration    |
| Account                            | and amortization directly associated with smart meters           |
| 1562-Deferred Payments in Lieu of  | The amount resulting from the Board-approved PILs                |
| Taxes                              | methodology for determining the 2001 Deferral Account            |
|                                    | Allowance and the PILs proxy amount determined for 2002 and      |
|                                    | subsequent years                                                 |
| 1592-PILS & Tax Variance for 2006  | The tax impact of any differences after May 1, 2006 arising from |
| and Subsequent years               | changes in the 2006 opening balances, and any regulatory or      |
|                                    | legislative chabges to the tax rates and rules assumed in the    |
|                                    | 2006 OEB Tax Model.                                              |

6

7

Account 1562 is being disposed of in accordance with The Board issuance of a decision
and order in the combined proceeding on Account 1562 deferred PILs, EB-2008-0381,
on June 24, 2011. In this decision and order the Board directed distributors subject to
section 93 of the Electricity Act, 1998 to apply for final disposition of the balance in
account 1562 in its next general rates application (either IRM or cost of service). Further
details are presented at Tab 2, Schedule 3 of this exhibit.

14

In accordance with the Board guidelines on Funding and Cost Recovery Mechanisms<sup>i</sup>
Hydro 2000 has added the net book value and accumulated depreciation of installed
meters, previously recorded to 1555, to the utility's rate base.

Hydro 2000 is requesting approval to dispose of the remaining balances of account 1555
which consist of the revenues from smart meter funding adders. The details of the
remaining balance can be found at Tab 3 of this Exhibit.

4

Hydro 2000's usage of all deferral and variance accounts is consistent with applicable
Board definitions and requirements,<sup>3</sup> including the application of carrying charges using

7 approved rates where authorized.

## Selection of Balances for Disposition

| 2  | Table 9.2.1 presents the list of deferral and variance accounts, with the proposed            |
|----|-----------------------------------------------------------------------------------------------|
| 3  | selection of balances for disposition. All account balances selected for disposition are as   |
| 4  | at December 31, 2010 being the most recent date the balances were subject to audit.           |
| 5  | The exception to this rule is Account 1555 for which the disposition is at April 2012.        |
| 6  |                                                                                               |
| 7  | Additional interest to April 30, 2011 has also been included in the proposed amounts for      |
| 8  | disposition.                                                                                  |
| 9  |                                                                                               |
| 10 | In Table 9.2.1, 'No Recovery' appears for the Global Adjustment sub-account of account        |
| 11 | 1588-RSVA/Power. In fact, Hydro 2000 does propose to dispose of the sub-account               |
| 12 | balance, but through a distinct rate rider as described in Exhibit 9, Tab 2, Schedule 2.      |
| 13 |                                                                                               |
| 14 | Board policy states: at the time of rebasing, all Account balances should be disposed of      |
| 15 | unless otherwise justified by the distributor or as required by a specific Board decision or  |
| 16 | guideline. <sup>1</sup> The following accounts with non-zero balances have been excluded from |
| 17 | Hydro 2000's proposed dispositions:                                                           |
| 18 |                                                                                               |
| 19 | The only account that is being excluded from the proposed disposition is account 1592.        |
| 20 |                                                                                               |

## Calculation of Rate Riders

2

1

Table 9.2.2.1 at the next attachment shows the calculation of the proposed rate rider to
dispose of the balance in account 1588-RSVA/Power, sub-account Global Adjustment. A
distinct rate rider for this disposition would be charged only to non-RPP, non-MUSH<sup>1</sup>
customers, whose energy billings gave rise to the balance. The disposition would take
place over 12 months, the default period established by the Board.<sup>2</sup>

8

9 Table 9.2.2.2 at attachment 2 shows the calculation of the proposed rate riders to 10 dispose of all other deferral and variance accounts selected for disposition, as explained 11 in the previous schedule. The amounts for disposition have been allocated to individual 12 customer classes using the allocators prescribed by the Board.<sup>3</sup>

13

A disposition period of two years is proposed, the primary reason being that with the recent economic downturn, Hydro 2000's customers would benefit from immediate relief as opposed to a four year disposition. A one year disposition would create too much volatility in rates once the disposition expires.

#### Account 1562 Deferred Payment in Lieu of Taxes

2

The Board issued a decision and order in the combined proceeding on Account 1562 deferred PILs, EB-2008-0381, on June 24, 2011. In this decision and order the Board directed distributors subject to section 93 of the Electricity Act, 1998 to apply for final disposition of the balance in account 1562 in its next general rates application (either IRM or cost of service).

Accordingly, Hydro 2000 Inc. ("Hydro 2000") has included the required evidence for the review and disposition of account 1562 in its IRM application. Hydro 2000 confirms the evidence filed is consistent with the level of detail found in the combined proceeding, including the findings in the Board's EB-2008-0381 decision and the settled issues found in the settlement agreement.

Hydro 2000 has provided the rate application filing models in electronic (Excel) format
utilizing the Board's decisions for the 2001 to 2005 for rates and the PILs proxies, which
includes revised SIMPIL models for the taxation years 2001-2005.

Hydro 2000 has provided detailed documentation supporting the rate application. Where possible, Hydro 2000 has provided this information electronically. However, in some cases the historical records available internally to Hydro 2000 may exist only in hardcopy.

20 The following supporting information is provided in a separate document entitled:21 Disposition of PILs Account 1562:

- 22 o PDF's of the associated final rate applications
- 23 PDF's of the associated PILs proxies and SIMPIL models
- PDF's of the signed Board decisions for each year that an application was
   filed requesting PILs to be included in rates

- PDF's of the final tax returns, notices of assessment, reassessment for
   each tax period from 2001-2005
- an electronic (Excel) copy of the PILs 1562 continuity schedule for the
  period from October 1, 2001 to April 30, 2006 is being filed along with this
  application. The model shows:
  - The PILs proxy amounts allowed for the number of months in each tax period.
- The amounts billed to customers during the same tax periods.
   Collections from customers have been defined as the amounts
   billed to customers. Hydro 2000 confirms that amounts which at
   the time would have been included in unbilled revenue accruals
   have now been included in collections.
- 13• The deferral account and true-up variances that are calculated in14the SIMPIL workbook TAXCALC sheet for each tax period.
- Hydro 2000 confirms that it was not subject to the Large
   Corporation Tax (LCT) and therefore not included in 2005 rates
   and no portion relates to the period January 1, 2006 to April 30,
   2006. LCT was repealed with effect from January 1, 2006.
  - Interest carrying charges for each tax period.

20 Hydro 2000 confirms the following:

6

7

19

- Hydro 2000's revised PILs proxy model contains details of final tax data
  and has been balanced to the source documents for each tax period.
- 23 o Items that should not true up to ratepayers under the methodology have
  24 been isolated onto sheet "TAXCALC3" from those items that are included
  25 in the true-up on sheet "TAXCALC" or "TAXCALC2" for each tax period.

- The income tax rate chosen for each tax year are supported by reference
   to tax law and Board precedents.
- 3 o The capital tax rates and thresholds or exemptions chosen are supported
  4 by reference to tax law and Board precedents.
- 5 o Hydro 2000 used data from its final tax returns for the tax years 2001
  6 through 2005 in calculating the final balance in PILs account 1562,
  7 including re-assessments as applicable.
- 8 o Hydro 2000 excluded regulatory assets and liabilities, when they were
  9 created or collected, in the calculation of the final balance in its PILs
  10 account 1562 regardless of the actual tax treatment accorded those
  11 amounts.
- Hydro 2000 was not subject to Ontario Capital Tax (OCT). Hydro 2000 is
   therefore not required to exclude variances associated with in the income
   tax true-up reconciliation. Hydro 2000 understands that under the SIMPIL
   methodology, OCT does not true up for income tax purposes, only for
   OCT purposes in the appropriate section of SIMPIL sheet TAXCALC.
- Hydro 2000 confirms the proposed rate riders to dispose of the account
  balances are appropriate to the best of its knowledge.
- 19 Hydro 2000 further notes the following:

#### 20 Model Revisions

Hydro 2000 believes that is has correctly accounted for the declining income tax rates and other changes in tax rules and legislation during the period 2001- 2005 in its revised SIMPIL model reconciliations. Hydro 2000 believes that it has addressed the errors in the 2001 and 2003 SIMPIL models that were released for reporting to the Board by utilizing

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 9 Tab 2 Schedule 3 Page 4 of 4

the revised model used in the combined proceeding as recommended by
 the Board.

#### **Request for Disposition of 1562 Balance**

| Principal as of April 30, 2012                   | -9,910  |
|--------------------------------------------------|---------|
| Interest as of April 30, 2012                    | -3,143  |
| Amount Requested for Disposition of 1562 Balance | -13,053 |

#### Smart Meter Deployment Plan Status

1 2

Attachment 1 summarizes the number of smart meters installed and amounts recordedto the related variance accounts.

5

6 Hydro 2000 began collection smart meter seed fund in 2006 following the Board's 7 approval to reallocate funds from another program under the Third Tranche funding for Conservation and Demand Management programs.<sup>1</sup> In 2009, Hydro 2000 entered into a 8 9 contract with Elster Metering for the full implementation of smart meters, following 10 participation in the London RFP Procurement Process. By the end of that year, smart 11 meters were 99% installed in Hydro 2000's Alfred and Plantagenet service areas. In total, Hydro 2000 installed 1171 smart meters in 2009 and an additional 18 in early 12 13 2010.

14

15 That same year, Hydro 2000 joined in on a cost sharing contract with other electricity 16 distributors in the region. Under this arrangement Renfrew Hydro, Hydro 2000, Co-17 operative Embrun, Hawksbury Hydro and Ottawa River Power Corporation now share 18 many operational costs.

19

Over the past three months, Hydro 2000 has been working closely with the IESO on the integration of meters and systems with the provincial Meter Data Management Repository ("MDMR"). Hydro 2000 staff attended MDMR briefings and workshops in 2010 and has spent approximately 300hours working on the integration over the past three months.

- 25
- 26 Table 1 below shows Hydro 2000's Smart Meter Deployment Plan.

#### Funding and Cost Recovery Mechanisms

2

#### 3 <u>Smart Meter Related Capital Expenditures</u>

4

5 Hydro 2000 is applying for the transfer of its Smart Meter Related Capital expenditures

6 in the amount of \$223,059 from account 1555 to the capital asset account 1860-Meters.

7 Details are calculated in the Board's 2012 Smart Meter Model, which is being filed in

8 conjunction with the application. Details of the Capital and Operational Costs are

9 presented at the Attachment 1 of this Schedule. The summary cost by category is10 replicated below.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 9 Tab 3 Schedule 2 Page 2 of 2

1

Hydro 2000 is also seeking approval to dispose of the remaining balance in account
1555 which represents revenues collected from the smart meter funding adders from
June 6 2006 to April 12, 2012. Continuity Statement for 1555 is presented at Schedule 3
of this Exhibit.

6

#### 7 Smart Meter Related OM&A Expenditures

8

9 Hydro 2000 is also applying for the transfer of its Smart Meter Related OM&A
10 expenditures in the amount of \$38,386 from account 1556 to OM&A account 5065-Meter
11 Expense. Table 1 above shows the year over year breakdown of the OM&A Costs.

Of the \$38,386, \$22,472 are considered "one-time" costs. Hydro 2000 proposes to recover these costs over a period of 4 years. (\$5,618/ year for 4 years). Yearly on-going costs are expected to be \$11,150. \$16,768 has therefore been added to the utility's OM&A.

#### 16 Prudence Review

17 The Board stated in the minimum filing requirement that distributors would be expected 18 to file for a final prudence review of the costs in the smart meter variance accounts at the 19 earliest possible opportunity following the availability of audited costs, since the 20 deployment of smart meters on a province-wide basis is now nearing completion.

Distributors scheduled to file 2012 cost of service applications would be expected to apply for the disposition of smart meter costs, subsequent inclusion in rate base, and for recovery of stranded costs, in that application.

Hydro will be filing for a prudence review in parallel with this application. The applicationwill be submitted no later than November 30, 2011

|                                                                                                                                                                                                          |                                                                 |                                                |                                             | _              |                           |                      |          |                |                      |

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 9 Tab 3 Schedule 3 Page 1 of 2

1

#### **Clearance of Smart Meter Variance Accounts**

2

Hydro 2000 is requesting disposition of its remaining balance in account 1555. The
balance represents revenues collected from funding adders. At April 30, 2012 revenues
collected will total \$64,826. This amount is consistent with the calculations presented in
the Board's Smart Meter Model.<sup>1</sup>

7

8 The table below explains adjustment made in 2011. The adjustment of \$211,402 in 2011

- 9 representing the transfer of Smart Meter Capital Costs is further broken down in the
- 10 table below.
- 11

| Account 1555                                | Amount     |
|---------------------------------------------|------------|
| Audited Closing Balance at December 3, 2010 | \$190,722  |
| Opening Balance at Jan 1, 2011              | \$190,722  |
| 2011 expenses (MDMR)                        | \$20,679   |
| Removal of Smart Meter Capital Costs:       |            |
| Capital Costs: \$223,059                    | ¢ 011 400  |
| Amortization:\$12,688                       | \$-211,402 |
| Adjustment: \$1031                          |            |
|                                             |            |
| TOTAL                                       | \$1        |

12

\*The utility has made an adjustment to account for the split of capital costs. Meters costs
transferred into 1860-Meters are depreciated over 25 years and software related cost
into account 1525-Software are depreciated over a period of 5 years.

#### Re: 2006 to 2012 LRAM Report

Dear Rene:

Elenchus is pleased to attach the 2006 to 2012 LRAM Report For Hydro 2000 Inc. for inclusion in your 2012 IRM3 Rate Application.

Elenchus concludes that Hydro 2000 Inc.'s electricity rates should be adjusted to reflect an LRAM claim of \$13,512.26

Thank you for allowing Elenchus to be of service. Please contact me should you have any questions about this report.

Yours Truly,

Benen

Martin Benum Senior Consultant

## 2006 to 2012 LRAM REPORT

## 1 Executive Review

2

3 The Ontario Energy Board (OEB) Guidelines for Electricity Distributor Conservation and Demand Management (EB-2008-0037) permit Hydro 2000 Inc. to make application for 4 5 recovery of lost revenue that results from the successful operation of CDM initiatives 6 within its boundaries. A third-party review of that recovery claim is required and is the 7 subject of this report. 8 9 Elenchus Research Associates Inc. (Elenchus) acted as the third party reviewer. Personnel 10 details can be found in Tab 3 Schedule 1. 11 12 The third party review included Hydro 2000 Inc.'s CDM activities from 2006 through 2010. 13 consisting of programs initiated by the Ontario Power Authority (OPA) only. There is no claim for activity related to 2005 to 2009 Third Tranche of Market Adjustment Revenue 14 15 Requirement (MARR) funding or post-Third Tranche funding. 16 The LRAM claim, correspondingly, includes energy and demand savings that result from 17 those 2006 – 2010 programs, some of which continue through to the end of the filing 18 19 period, which is April 30, 2012. 20 21 There has been no previous LRAM application by Hydro 2000 Inc. 22 23 Total net energy savings for which LRAM is being claimed amount to over 1.5 GWh in the 24 residential rate class and 0.1 GWh in the GS < 50 kW rate class. Summer peak demand savings in the GS 50 to 4,999 kW rate class totaled approximately 0.3 MW. 25 26 27 Elenchus concludes that Hydro 2000 Inc.'s electricity rates should be adjusted to reflect an 28 LRAM claim of \$13,512.26 29

# E elenchus

Hydro 2000 Inc. 2006 to 2012 LRAM Report September 28, 2011 Exhibit 1 Tab1 Schedule 3 Page 1 of 2

## Introduction

2

The Lost Revenue Adjustment Mechanism (LRAM) is designed to ensure that Local
Distribution Companies (LDC) "remain whole" despite the lower consumption levels that
are, by design, the result of successful conservation and demand management initiatives.
There should not be a disincentive for LDC's to encourage energy efficiency and energy
conservation efforts. Therefore, an LDC is compensated for these lost revenues.

9 This claim for lost revenue (LRAM) respects the process outlined in the March 28, 2008
10 OEB Guidelines for Electricity Distributor Conservation and Demand Management EB-

11 2008-0037) ("CDM Guidelines") for rate-based applications to recover revenues lost to 12 customer energy conservation.

13

The LRAM calculation is based on the sum of the electricity savings over the period of the
claim, which are then valued at the appropriate distribution rate depending on the timing
(year) of the savings and to which rate class they belonged.

17

The savings themselves are the product of an energy program evaluation process, often
referred to as Evaluation, Measurement and Verification (EM&V). Fortunately, in the case
of this claim, all savings estimates are for OPA programs and are provided by the OPA.

21

These savings estimates include persistence—the installation of energy conservation measures whose savings that last past the initial year that they are installed. A four-year program that installed 10 widgets per year with a savings of 1,000 kWh each would result in the following savings profile if the widgets lasted 4 or more years (which is common):

26 27

Example Savings Profile Showing Effect of Persistence

| Year | In-Year Savings (kWh) | Cumulative Savings (kWh) |
|------|-----------------------|--------------------------|
| 1    | 10,000                | 10,000                   |
| 2    | 20,000                | 30,000                   |
| 3    | 30,000                | 60,000                   |
| 4    | 40,000                | 100,000                  |

28

The OPA designed and delivered some initial programs in 2006 and 2007, but then set-out

30 to build a portfolio of programs to address a broad cross-section of customer types that

# E elenchus

1 would run from 2008 to 2010. This latter time frame corresponds to an Ontario goal of 2 shaving 1,350 MW from the electricity system in the province. Savings from these 3 programs typically follow a pattern similar to the one illustrated in the table above. Energy 4 program evaluations determine the energy and demand savings estimates to a reasonable 5 degree of accuracy and also determine the persistence including patterns, or effective 6 useful life (EUL) of new measures being installed and the remaining useful life (RUL) of 7 measures being replaced. It is assumed that the tables provided to each LDC, Hydro 2000 8 Inc., by the OPA contain accurate interpretations and transcriptions of the results from 9 those evaluations (available on the OPA Website).

10

There are "gross" savings and "net" savings for energy efficiency programs. 11 OPA documentation details the differences between these two, and both are provided to LDC's 12 by the OPA, but for the purposes of this LRAM claim only "net" savings are utilized. Net 13 savings are determined to be those savings that would not have occurred unless the energy 14 They are not natural conservation or savings that 15 efficiency program was running. someone could claim would have occurred anyway. They do not include savings from "free 16 17 riders."

18

Some energy efficiency programs are operated at a province-wide scale. These include some behavioural-based programs and some residential/consumer-orientated initiatives like discount coupons. In certain of these cases, savings are apportioned to LDC's by the OPA rather than an attempt made to track individual transactions (which is sometimes

- 23 impossible).
- 24

The savings claimed by Hydro 2000 Inc. are therefore the net energy and demand savings that can be attributed to the programs and initiatives that operated in Hydro 2000 Inc.

territory during the 2006-2010 period and as apportioned to Hydro 2000 Inc. by the OPA

- 28 according to its established formulae.
- 29

Hydro 2000 Inc. 2006 to 2012 LRAM Report September 28, 2011 Exhibit 1 Tab1 Schedule 4 Page 1 of 1

## Assumptions

| 2      |                                                                                                                             |
|--------|-----------------------------------------------------------------------------------------------------------------------------|
| 3<br>4 | This report for Hydro 2000 Inc. was created with the following assumptions that are often peculiar to the 2006-2010 period: |
| 4<br>5 | peculiar to the 2000-2010 period.                                                                                           |
| 6      | • "Consumer" kWh classified as the Residential rate class                                                                   |
| 7      | • "Business" and/or "Industrial" kWh classified as General Service <50 kW because                                           |
| 8      | larger industrial projects were not yet part of the program mix by the end of 2010                                          |
| 9      | <ul> <li>"Consumer" kW savings were omitted because they are immaterial</li> </ul>                                          |
| 10     | <ul> <li>Designated "business and industrial" kW classified as General Service&gt;50 kW</li> </ul>                          |
| 11     | because it consists primarily of Demand Response initiatives utilized by large                                              |
| 12     | industrial participants                                                                                                     |
| 13     |                                                                                                                             |

## 1 LRAM Recommendations

2

During the period of the LRAM claim, total net energy savings for which LRAM is being
claimed amount to over 1.5 GWh in the residential rate class and 0.1 GWh in the GS < 50</li>
kW rate class. Summer peak demand savings in the GS 50 to 4,999 kW rate class totaled
approximately 0.3 MW.

8 Elenchus has concluded that Hydro 2000 Inc. can justifiably claim \$13,512.26 in LRAM,9 allocated by rate class as shown in the table below.

10 11

7

| 11       | Customer Class                  | Savings | LRAM        |
|----------|---------------------------------|---------|-------------|
| 12<br>13 | Residential                     | 1,5 GWh | \$12,474.91 |
| 14       | General Service Less Than 50 kW | 0.1 GWH | \$407.50    |

## 1 Elenchus Regulatory Solutions Consultants

2

#### 3 John Todd, President (Lead Consultant)

John Todd is President of Elenchus Research Associates Inc. He has specialized in the theory
and practice of regulation and de-regulation for over 25 years and has actively participated in
regulatory hearings and reform initiatives in several sectors of the Canadian economy, including
natural gas, electricity and telecommunications.

John has served as an expert advisor or witness in 200 proceedings before the energy Boards in Ontario, Manitoba, British Columbia, Quebec, and Newfoundland and other tribunals including the Canadian Radio-television and Telecommunications Commission (CRTC) and the Ontario Securities Commission. His clients have included regulated utilities, regulatory agencies, generators and producers, and a variety of customer groups.

#### 13 Martin Benum, Senior Consultant (Rate Applications)

Martin has over twenty years progressive experience in the Ontario electrical industry with regulatory, LDC and Retail electricity exposure. Prior to joining Elenchus, he was an advisor in electricity rate applications with the Ontario Energy Board. He has a strong working knowledge and application experience with OEB handbook rules, regulations, and guidelines.

#### 18 Marc Collins – Director, Elenchus Energy Conservation

Energy Program Evaluation and Conservation and Demand-Side Management (CDM) professional with a very diverse career history. Founding Director of the Evaluation, Measurement and Verification (EM&V) department at the Ontario Power Authority in 2007. Marc led that function for the OPA from inception to maturity, leaving sophisticated evaluation protocols (new for 2011-14), world-class measures and assumptions lists and a portfolio of highquality evaluations to show for the effort.

- 25 Specialties:
- 26 Energy program evaluation (EM&V)
- 27 Planning and management
