1	Legal Application
2	ONTARIO ENERGY BOARD
3	IN THE MATTER OF the Ontario Energy Board Act, 1998,
4	S.O.1998, c.15 (Sched. B)
5	AND IN THE MATTER OF an application by Hydro 2000
6	for an Order or Orders pursuant to section 78 of the
7	Ontario Energy Board Act, 1998 for 2010 distribution rates
8	and related matters.
9	1) The Applicant is Hydro 2000 ("Hydro 2000"). Hydro 2000 is a licensed electricity
10	distributor operating pursuant to license ED-2002-0542. The urban communities
11	served by Hydro 2000 are limited to the Cities of Alfred and Plantagenet. Hydro 2000
12	has no special conditions in its license. Hydro 2000 is an embedded distributor;
13	adjacent distributors are Hydro One Inc., Hydro Hawkesbury, Hydro Ottawa and
14	Hydro Quebec

2) Hydro 2000 hereby applies to the Ontario Energy Board (the "Board") for an order or 15 16 orders made pursuant to Section 78 of the Ontario Energy Board Act, 1998, as 17 amended, (the "OEB Act") approving just and reasonable rates for the distribution of 18 electricity based on a 2011 test year.

19 3) Specifically, Hydro 2000 hereby applies for an order or orders granting approval of:

- 20 a) its forecasted 2012 base distribution revenue requirement of \$563,134;
- 21 b) distribution rates that allow Hydro 2000 to recover its forecasted 2012 22 distribution revenue requirement, effective May 1, 2012;

23 c) other regulated income of \$20,303;

- d) the disposition of Regulatory Asset, deferral and variance accounts totalling a
 credit of \$263,073;
- e) Hydro 2000's current distribution rates being deemed interim commencing May
 1, 2012 until its proposed distribution rates are implemented; and
- 5 f) other approvals as set out in Exhibit 1, Tab 1, Schedule 3.

4) As indicated a), the utility's proposed 2012 revenue requirement is in the amount of
\$563,134., At the projected load forecast, Hydro 2000 projects a revenue deficiency
of \$173,933 for 2012 if it were to maintain its current rates.

5) The 2012 rates proposed by Hydro 2000 will result in overall monthly bill impacts as follows: a) a Residential customer using 800 kWh's in the summer - a 7.2% increase;
b) a General Service customer less than 50 kW using 2,000 kWh's - a 3.9% increase; c) a General Service customer 50 to 4,999 kW with a demand of 190 kW and energy of 68,500 kWh's – a 5.8% increase; d) Unmetered Scattered Load using 387 kWh's – a 27% increase; and f) Street Lighting with a demand of 80 kW's and energy of 30000 kWh's – an 3.9% increase.

16 6) This Application is made in accordance with the Board's Chapter 2 of the Board's
17 Filing Requirements for Transmission and Distribution Applications dated June 22,
18 2011.

This Application is supported by written evidence. The written evidence will be prefiled and may be amended from time to time, prior to the Board's final decision on
this Application.

8) The Applicant requests that, pursuant to Section 34.01 of the Board's Rules of
Practice and Procedure, this proceeding be conducted by way of written hearing.

9) The Applicant requests that a copy of all documents filed with the Board in this
 proceeding be served on the Applicant and the Applicant's advisor, as follows:

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 1 Tab 1 Schedule 2 Page 3 of 3

1	Procedural Orders Motions & Correspondence
2	No procedural orders have been issued to the utility.
3	
4	A decision was issued on October 6 th in response to a combined request from Hydro
5	2000, Renfrew Hydro, Hydro Embrun and Ottawa River Power Corporation seeking an
6	extension in implementing TOU rates.
7	
8	The four utilities each filed for an extension to their October 2011 mandated TOU
9	pricing date and requested a new TOU pricing date of January 2012
10	
11	The Board accepted the utilities reasons for delay, namely that applicants' system
12	upgrade and testing issues has represented operational and technical barriers to
13	implementing TOU pricing. In its October 6 th decision ¹ the Board granted the four
14	utilities and extension until January 31, 2012.
15	

16 A copy of the decision is shown at Attachment 1 of this schedule.

Ontario Energy Board Commission de l'énergie de l'Ontario

EB-2011-0093 EB-2011-0255 EB-2011-0258 EB-2011-0259

IN THE MATTER OF the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15, Schedule B;

AND IN THE MATTER OF an application pursuant to section 74 of the *Ontario Energy Board Act, 1998* by Renfrew Hydro Inc., Ottawa River Power Corporation, Hydro 2000 Inc., and Cooperative Hydro Embrun Inc., seeking extensions to their mandated time-of-use pricing dates.

By delegation, before: Theodore Antonopoulos

DECISION AND ORDER

Renfrew Hydro Inc. ("Renfrew") filed an application dated April 1, 2011. Ottawa River Power Corporation ("Ottawa River") filed an application dated July 5, 2011 and Hydro 2000 Inc. ("Hydro 2000") and Cooperative Hydro Embrun Inc. ("Cooperative Embrun") filed separate applications dated July 7, 2011 (collectively "the applicants") with the Ontario Energy Board under section 74 of the *Ontario Energy Board Act, 1998* (the "Act") for licence amendments granting extensions in relation to the mandated date for the implementation of time-of-use ("TOU") pricing rates for Regulated Price Plan ("RPP") consumers. Renfrew's application was assigned file number EB-2011-0093, Ottawa River's application was assigned file number EB-2011-0255, Hydro 2000's application was assigned file number EB-2011-0258. Due to the similar nature of the applications the Board has combined the applications into one proceeding pursuant to section 21(5) of the Act. This decision combines findings for all four of the subject applications.

BACKGROUND

Under cover of a letter to all Ontario electricity distributors dated August 4, 2010, the Ontario Energy Board provided its determination of mandatory dates by which each distributor must bill its RPP customers that have eligible TOU meters using TOU pricing. The Board's determination was made pursuant to sections 3.4 and 3.5 of the Standard Supply Service Code for Electricity Distributors, which requires TOU pricing for RPP consumers with eligible TOU meters, as of the mandatory date. Compliance with this Code is a condition of licence for nearly all licensed electricity distributors in Ontario.

THE APPLICATION

In its original application, Renfrew applied for an extension to its June 2011 TOU pricing date and requested a new date of October 2011. Renfrew stated the extension was necessary as a result of delays experienced implementing testing requirements for Advanced Metering Infrastructure ("AMI") integration with the customer information system. Renfrew also stated that it requested the extension to gain efficiencies by aligning with the October 2011 TOU pricing dates of Ottawa River, Hydro 2000 and Cooperative Embrun.

Following Renfrew's application, Ottawa River, Hydro 2000, and Cooperative Embrun each filed for an extension to their October 2011 mandated TOU pricing date and requested a new TOU pricing date of January 2012. The applicants each stated the extension is necessary to prepare a customer transition to TOU rates, as well as jointly upgrade their AMI system and complete testing with the Independent Electricity System Operator ("IESO") once the IESO completes its system upgrade expected in November 2011. On July 28, 2011 Renfrew filed an amendment to its application to align its requested TOU pricing date with that of the other applicants due to its existing partnership with the applicants during MDM/R integration.

The Board issued a Notice of Application for Renfrew's original application on April 13, 2011 and interrogatories and submissions on the application were invited. Board staff filed a submission on the application stating it had no issues with the request for extension. Renfrew did not reply to the submission.

On July 27, 2011, the Board issued a collective Notice of Application and Written Hearing for the Ottawa River, Hydro 2000 and Cooperative Embrun applications and

interrogatories and submissions on the applications were invited. The applicants responded to interrogatories filed by Board staff, providing more information about the delay and progress to date in implementing TOU pricing. Board staff filed a joint submission on all the applications stating it had no issues with the request for an extension. The applicants did not reply to the submission. No other parties filed interrogatories or submissions on the applications.

In the applications the distributors stated that significant customer distress is expected when customers are faced with larger bills resulting in part from a lack of experience in managing electricity consumption in a TOU environment. The applicants stated that a number of billing cycles was necessary to enable them to work with customers to adapt to the new billing reality. The applicants stated Ottawa River supplies Renfrew, Hydro 2000 and Cooperative Embrun with AMI services to collect customer's data and deliver it to the IESO for processing. The applicants stated that Ottawa River must upgrade its AMI system to version 7.5 to meet the requirements of Measurement Canada. This upgrade is to be coordinated in conjunction with Renfrew, Hydro 2000 and Cooperative Embrun complete testing, the conversion of the AMI system could take place. In addition, the applicants stated that they would have to complete SIT and QT testing after the IESO completes their system upgrade to version 7.2 of their MDM/R system which is expected in November 2011.

In response to Board staff interrogatories, the applicants stated that the period of customer transition would be planned in conjunction with the AMI upgrade and the IESO retesting and if this customer transition period was not implemented it would not affect the requested TOU extension date. The applicants stated that due to having limited resources they would be unable to cut over to different versions of the AMI within a short period of time. The applicants also stated that the collaboration between the utilities began during the smart meter project and that the utilities share consultants, software and computer hardware.

BOARD FINDINGS

I find the applications should be granted as requested. The applicants' system upgrade and testing issues represent operational and technical barriers to implementing TOU pricing. I find that the difficulties and delays encountered to be extraordinary and unanticipated circumstances sufficient to justify an extension to the applicants' mandated TOU pricing dates. The applicants will be exempted from the requirement to apply TOU pricing under the Standard Supply Service Code until January 31, 2012.

However, this finding should not be construed as acceptance that additional time is required to address customer transition to TOU rates. Extraordinary or unanticipated circumstances generally relate to operational or technical issues.

I expect the applicants to work diligently to implement TOU for its customers and provide the Board with timely information regarding the implementation of TOU pricing.

IT IS THEREFORE ORDERED THAT:

- Renfrew Hydro Inc.'s distribution licence ED-2002-0577, specifically Schedule 3, List of Code Exemptions, is amended to include an exemption from the requirement to apply time-of-use pricing by a mandatory date under the Standard Supply Service Code for Electricity Distributors. This exemption will expire on January 31, 2012.
- Ottawa River Power Corporation's distribution licence ED-2003-0033, specifically Schedule 3, List of Code Exemptions, is amended to include an exemption from the requirement to apply time-of-use pricing by a mandatory date under the Standard Supply Service Code for Electricity Distributors. This exemption will expire on January 31, 2012.
- Hydro 2000 Inc.'s distribution licence ED-2002-0542, specifically Schedule 3, List of Code Exemptions, is amended to include an exemption from the requirement to apply time-of-use pricing by a mandatory date under the Standard Supply Service Code for Electricity Distributors. This exemption will expire on January 31, 2012.
- 4. Cooperative Hydro Embrun Inc.'s distribution licence ED-2002-0493, specifically Schedule 3, List of Code Exemptions, is amended to include an exemption from the requirement to apply time-of-use pricing by a mandatory date under the Standard Supply Service Code for Electricity Distributors. This exemption will expire on January 31, 2012.

DATED at Toronto, October 6, 2011

Utility Operating Environment

1 2

Hydro 2000 is a licensed electricity distribution business operating in the Township ofAlfred and Plantagenet.

5

Alfred and Plantagenet (2010 population 9600) is a township in eastern Ontario,
Canada, in the United Counties of Prescott and Russell at the confluence of the Ottawa
River and the South Nation River half-way between Ottawa and Montreal.

9

The Township of Alfred, the Township of North Plantagenet, merged on 1 Jan 1997. The
township of Alfred and Plantagenet comprises the communities of Alfred, Alfred Station,
Blue Corners, Centrefield, Coin Gratton, Curran, Glenburn, Jessups Falls, Lefaivre,
Pendleton, Plantagenet, Plantagenet Station, Rockdale, Senecal, The Rollway,
Treadwell, Wendover, and Westminster.

15

Hydro 2000 has 22 kilometers of lines comprised of 18 kilometers of overhead lines and 3 kilometer of underground lines. The lines are made up of 10 kilometers of 3-phase wire, 2 kilometer of 2-phase wire, and 9 kilometers of single-phase wire. Hydro 2000 leases two distribution stations at 4.8KV each. These are supplied by the 44KV in Longueil TS. The first of the 4.8KV distribution station is located approximately 1 km outside of Alfred and the other is located in Plantagenet. Maps are presented at Exhbit 1, Tab 1, Schedule 6. Hydro 2000 is fully embedded to Hydro One

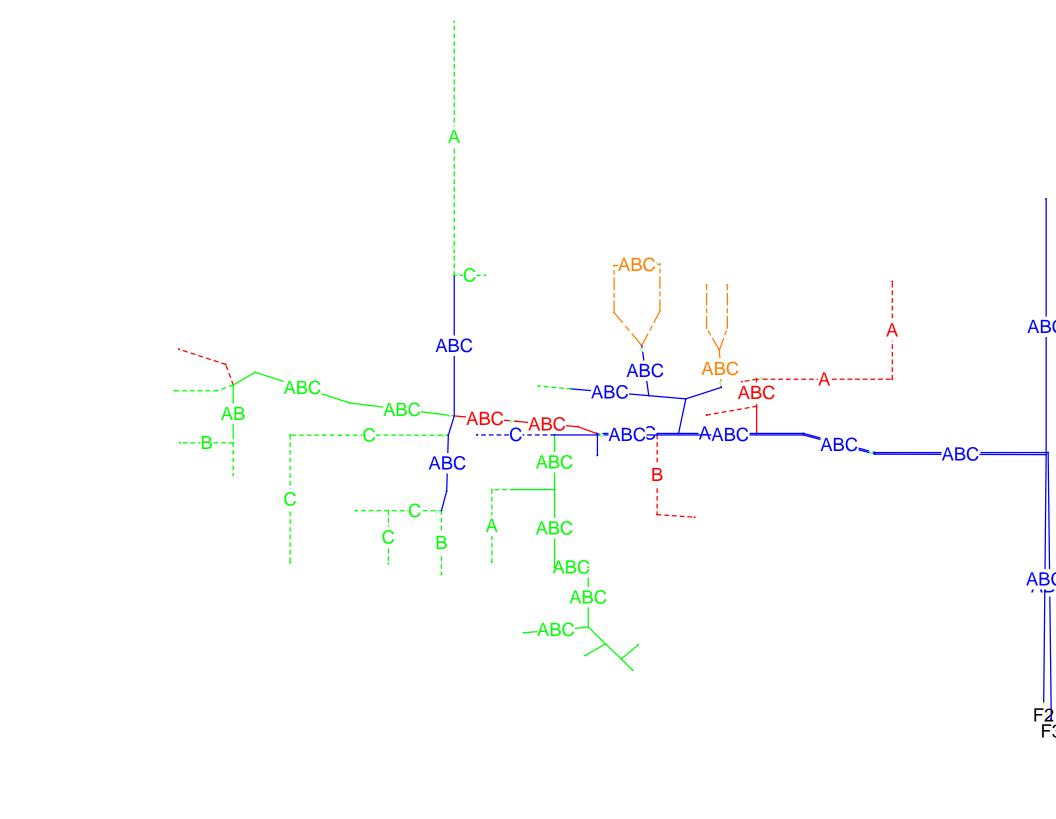

23

Hydro 2000 does not have any affiliates and therefore does not have, nor require a
Service Level Agreements nor does it publish an annual report to its shareholder.

26

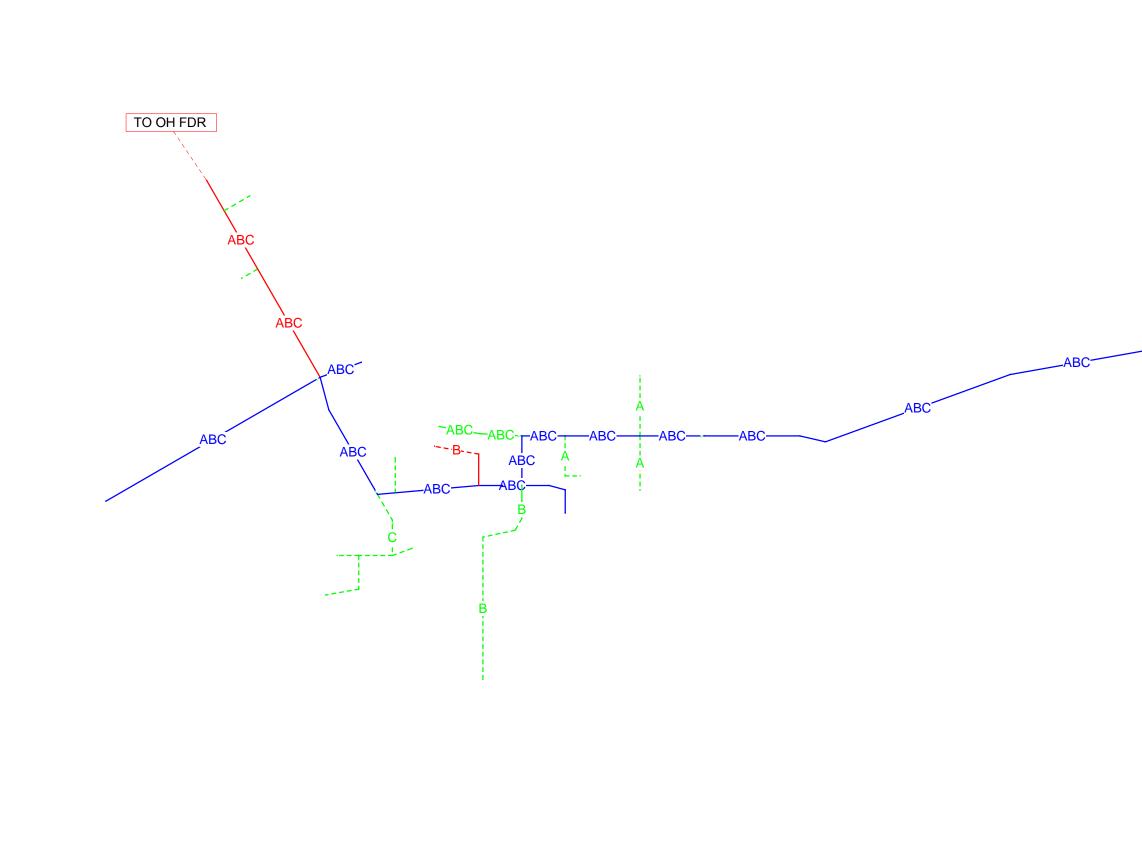

The parent municipalities, The City of Alfred and the City of are the sole shareholders of Hydro 2000. Hydro's board of directors consisting of four members from the City of Alfred/Plantagenet. Two members are from Plantagenet and two are from Alfred.

Summary of Application and Approvals Requested

2

Hydro 2000 is submitting this application for rates that are just and reasonable. The
current rates will result in actual a Return on Equity in 2012 below the level currently
approved by the OEB. The increase in rates is required to:

Maintain current capital investment levels in infrastructure to ensure a safe, reliable
 distribution system.

8 2) Manage human and financial resources, at a levels which will ensure regulatory
9 compliance, ESA compliance, promote conservation programs, implementation of
10 smart meters, prepare for the Green Energy and Green Economy Act requirements,
11 and implement changes required from the adoption of International Financial
12 Reporting Standards and filing its cost of service application.

13 3) Provide a reasonable rate of return to shareholders.

Hydro 2000 has consistently met or exceeded the OEB's Service Quality Indicators, and
continues to review and monitor its progress to ensure these targets are met or
exceeded on a regular basis in 2012.

17

18 In this proceeding, Hydro 2000 is seeking the following approvals:

- Approval to charge rates effective May 1, 2012 to recover a revenue requirement
 of \$563,134, as set out in Exhibit 6, Tab 1, Schedule 2
- Approval of proposed rates as set out in Exhibit 8, Tab 4, Schedule 2,
 Attachment 1.

Approval of the proposed capital structure, with a deemed common equity
 component of 40% and a deemed debt component of 60%, as set out in Exhibit
 5, Tab 1, Schedule 1, Attachment 1 consistent with the Report of the Board on

- Cost of Capital and 2nd Generation Incentive Regulation for Ontario's Electricity
 Distributors dated December 20, 2006.
- Approval of the proposed loss factor as set out in Exhibit 8, Tab 3, Schedule 5,
 Attachment 1.
- Approval to continue to charge Rural Rate Protection Charges approved in the
 OEB Decision and Order in the matter of Hydro 2000's 2010 Distribution Rates
 (EB-2007-0704).
- Approval of the proposed change to the Wholesale Market Service rate as set
 out in Exhibit 8, Tab 4, Schedule 2, Attachment 1.
- Approval of the Retail Transmission Network Service and Retail Transmission
 Connection rates, in accordance with the Guideline for Electricity Distribution
 Retail Transmission Service (G-2008-0001), Revision 1.0 issued July 22, 2009
 and models issued July 7,2011.
- Approval to dispose of Deferral and Variance Account balances as at December
 31, 2010 with interest to April 30, 2011, over a two-year period using the method
 of recovery described in Exhibit 9, Tab 2, Schedule 2, Attachment 2.
- Approval to dispose of the 1588-RSVA/Power variance account, sub-account
 Global Adjustment, by way of a distinct rate rider charged to customers not
 subject to the Regulated Price Plan, as calculated in Exhibit 9, Tab 2, Schedule
 2, Attachment 1.
- Approval to use the Board Approved 1595 account Disposition and Recovery of
 Regulatory Balances and sub-accounts to record the disposition and recoveries
 of Deferral and Variance account balances.
- Approval to use the Board Approved accounts to collect costs in connection with
 the Green Energy and Green Economy Act (GEGEA) described as:

1 While Hydro 2000 requests that this Application be disposed of by way of a written 2 hearing, the following preliminary list of potential witnesses is provided in the event that 3 an oral hearing is convened. The *curricula vitae* for the witnesses will be provided in the 4 event of an oral hearing.

- Rene Beaulne, President, General Manager, Hydro 2000, responsible for the overall
 management of the corporation, including regulatory affairs.
- Manuela Ris-Schofield, Senior Consultant, Elenchus Research Associates Inc., has
 extensive experience with a major utility in Ontario where she played key roles in
 filing cost of service applications. Manuela has worked closely with Hydro 2000 tois
 qualified to answer questions regarding the various models used for this application.
- Stephen Motluk, Senior Consultant, Elenchus Research Associates– Stephen
 prepared Hydro 2000's load forecast is qualified to answer questions regarding
 selection of statistical methods and their application to the Load Forecast.
- Andrew Frank & Mike Roger, Consultant, Elenchus Research Associates– Andrew
 and Mike prepared Hydro 2000' s 2012 Cost Allocation and are both qualified to
 answer questions related to the 2012 results.

Budget Overview, Directives and Assumptions

2

1

Hydro 2000 compiles budget information for three major components of the budgeting
process: revenue forecasts, operation, maintenance and administration forecasts and
capital forecast. Budget information was prepared for both the Bridge and Test Years.
Bridge forecasts were updated based on actual 2009 results, and the 2010 Test Year

7 projections were also reviewed in light of 2009 results.

8 **REVENUE FORECAST**

9 The revenue budget includes three components: energy revenue, distribution revenue10 and other revenue.

11

12 The energy revenue for 2012 was forecast using the weather normalized load forecast

13 prepared by Elenchus Research Associates ("ERA") as presented in Exhibit 3, Tab 1,

14 Schedule 2, Attachment 1. Rates for energy pass-through charges are described in

15 Exhibit 3, Tab 1, Schedule 3.

16

17 Distribution revenue was forecast using the weather normalized volumes multiplied by

18 both current approved distribution rates and by proposed rates in order to project

19 revenue for the 2012 test year. Other revenues were reviewed on an item by item basis

20 with each account projection being determined based on the most reliable historical

21 indicator.

22

23 **OPERATIONS, MAINTENANCE AND EXPENSE FORECAST**

24 The OM&A expense for the Bridge and Test Years were forecast using work plans,

capital budgets and prior years historical costs. The expenditures were submitted to the

26 Board of Directors for approval.

27

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 1 Tab 2 Schedule 2 Attachment do Page 2 of 2

1 CAPITAL BUDGET

- 2 The capital budget is formulated on a project by project basis. Hydro 2000 completes
- 3 inspections throughout the year while performing maintenance on the distribution system
- 4 and other infrastructure. From these inspections capital projects are identified and
- 5 prioritized for the upcoming year's budget.
- 6
- 7 Capital spending is attributed primarily to the replacement of existing aging infrastructure
- 8 in order to maintain safe and reliable delivery of electricity to Hydro 2000's customers.
- 9
- 10 Additional information on Hydro 2000's approach to investment planning is included in
- 11 Exhibit 2, Tab 4, Schedule 2.
- 12

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 1 Tab 2 Schedule 3 Page 1 of 1

Changes in Methodology

- 1
- 2

3 The pro-forma projections for the 2012 test year were prepared in accordance with 4 Hydro 2000's usual process, including the directions and assumptions described in the 5 preceding attachment.

6 Note that Hydro 2000's application is being filed on the basis of CGAAP.

7 At page 13 of the minimum filing requirements, the Board makes reference to a letter 8 issued on March 15, 2011 expressing the Board's belief that distributors whose rates are 9 being rebased for 2012 should make all reasonable efforts to file test year forecasts for 10 their cost of service applications using modified IFRS. The Board noted that, since 11 utilities must transition to IFRS in 2012 for financial reporting purposes, the filing of a 12 cost of service application using the same accounting system as is required to be used 13 in a distributor's financial statements is expected to minimize future complexities and 14 associated costs.

The Board's letter further stated that a distributor, for whom preparing a modified IFRS
based application would impose an unreasonable burden, might file under CGAAP but
must provide an explanation of this choice as part of its rate application filing.

18

Justification for Hydro 2000's decision to file its application under CGAAP is discussed atExhibit 4, Tab 2, Schedule 2.

Auditors' Report

To the Directors of Hydro 2000 Inc.

We have audited the balance sheet of Hydro 2000 Inc. as at December 31, 2008 and the statements of earnings and retained earnings and cash flows for the year then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at December 31, 2008 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles

Rapport des vérificateurs

Aux administrateurs de Hydro 2000 Inc.

Nous avons vérifié le bilan de Hydro 2000 Inc. au 31 décembre 2008 et les états des résultats et bénéfices non répartis et des flux de trésorerie de l'exercice terminé à cette date. La responsabilité de ces états financiers incombe à la direction de la Société. Notre responsabilité consiste à exprimer une opinion sur ces états financiers en nous fondant sur notre vérification.

Notre vérification a été effectuée conformément aux normes de vérification généralement reconnues du Canada. Ces normes exigent que la vérification soit planifiée et exécutée de manière à fournir l'assurance raisonnable que les états financiers sont exempts d'inexactitudes importantes. La vérification comprend le contrôle par sondages des éléments probants à l'appui des montants et des autres éléments d'information fournis dans les états financiers. Elle comprend également l'évaluation des principes comptables suivis et des estimations importantes faites par la direction, ainsi qu'une appréciation de la présentation d'ensemble des états financiers.

À notre avis, ces états financiers donnent, à tous les égards importants, une image fidèle de la situation financière de la Société au 31 décembre 2008 ainsi que des résultats de son exploitation et de ses flux de trésorerie pour l'exercice terminé à cette date selon les principes comptables généralement reconnus du Canada.

Additional information is presented in note 11.

Des renseignements complémentaires sont présentés à la note 11.

The Corporation is incorporated under the Ontario Business Corporations Act and is engaged in the distribution of electricity.

2. Changes in accounting policies

Inventories

The company adopted the recommendations of CICA Handbook Section 3031 on inventories which provides guidance on the determination of cost of inventories and its subsequent recognition as an expense, and includes additional disclosure requirements. The new Section also requires to account for the reversal of write-downs previously recognized when there is a subsequent increase in the value of inventories. This accounting policy, which was adopted as of January 1, 2008, was applied retroactively and the comparative financial statements have been restated to reflect this change. The adoption of this section had no impact on the financial statements.

3. Accounting policies

The financial statements have been prepared in accordance with Canadian generally accepted accounting principles with rate regulation specifications described under the other assets heading for electricity distributors as required by the Ontario Energy Board and set forth in the Accounting Procedures Handbook:

Financial instruments

Financial assets and financial liabilities are initially recognized at fair value and their subsequent measurement is dependent on their classification as described below. Their classification depends on the purpose, for which the financial instruments were acquired or issued, their characteristics and the Corporation's designation of such instruments. Settlement date accounting is used.

Classification

Cash/Held for trading Accounts receivable/Loans and receivables Unbilled revenue/Loans and receivables Accounts payable/Other liabilities Other current liabilities/Other liabilities

Held for trading

Held for trading financial assets are financial assets typically acquired for resale prior to maturity or that are designated as held for trading. They are measured at fair value at the balance sheet date. Fair value fluctuations including interest earned, interest accrued, gains and losses realized on disposal and unrealized gains and losses are included in other income.

1. Description de l'entreprise

La Société est constituée en vertu de la Loi sur les sociétés par actions de l'Ontario et se spécialise dans la distribution de l'électricité.

2. Modifications de conventions comptables

Stocks

La Société a adopté les recommandations du chapitre 3031 du Manuel de l'ICCA qui fournit davantage de directives concernant la détermination du coût des stocks et sa comptabilisation ultérieure en charges en plus d'exiger des informations connexes supplémentaires. La nouvelle norme exige également la reprise de toute perte de valeur comptabilisée antérieurement lorsque survient une augmentation subséquente de la valeur des stocks. Cette convention comptable, qui a été adoptée à compter du 1er janvier 2008, a été appliquée rétrospectivement et les états financiers des exercices antérieurs ont été retraités pour tenir compte de cette modification. L'adoption de ce chapitre n'a eu aucune incidence sur les états financiers.

3. Conventions comptables

Les états financiers ont été préparés conformément aux principes comptables généralement reconnus du Canada et tiennent compte des particularités énumérées sous la rubrique des autres actifs pour les distributeurs d'électricité tel que requis par la Commission de l'Énergie de l'Ontario et établis dans le "Accounting Procedures Handbook" :

Instruments financiers

Les actifs financiers et les passifs financiers sont constatés initialement à la juste valeur et leur évaluation ultérieure dépend de leur classement, comme il est décrit ci-après. Leur classement dépend de l'objet visé lorsque les instruments financiers ont été acquis ou émis, de leurs caractéristiques et de leur désignation par la Société. La comptabilisation à la date de règlement est utilisée.

Classification

Encaisse/Détenus à des fins de transaction Débiteurs/Prêts et créances Revenus non facturés/Prêts et créances Créditeurs/Autres passifs Autres frais courus/Autres passifs

Détenus à des fins de transaction

Les actifs financiers détenus à des fins de transaction sont des actifs financiers qui sont généralement acquis en vue d'être revendus avant leur échéance ou qui ont été désignés comme étant détenus à des fins de transaction. Ils sont mesurés à la juste valeur à la date de clôture. Les fluctuations de la juste valeur qui incluent les intérêts gagnés, les intérêts courus, les gains et pertes réalisés sur cession et les gains et pertes non réalisés sont inclus dans les autres produits.

3. Accounting policies (continued)

Financial instruments (continued)

Loans and receivables

Loans and receivables are accounted for at amortized cost using the effective interest method.

Other liabilities

Other liabilities are recorded at amortized cost using the effective interest method and include all financial liabilities, other than derivative instruments.

Transaction costs

Transaction costs related to held for trading financial assets are expensed as incurred. Transaction costs related to available-for-sale financial assets, held-to-maturity financial assets, other liabilities and loans and receivables are netted against the carrying value of the asset or liability and are then recognized over the expected life of the instrument using the effective interest method.

Inventories

Inventories are valued at the lower of average cost and net realizable value.

Capital assets and amortization

Capital assets are recorded at cost. Amortization is calculated on the basis of the straight-line method with reference to estimated useful lives of the assets in accordance with Ontario Energy Board policy at the following terms:

	<u>Years</u>
Distribution equipment	25
Office equipment	10
Computer equipment	5

Acquisitions made during the year are amortized at half the normal rate.

Incorporation fees

Incorporation fees are accounted at cost and amortized using the straight-line method over a ten year period.

Customers' deposits

Deposits are taken to guarantee the payment of power bills or contract performance.

3. Conventions comptables (suite)

Instruments financiers (suite)

Prêts et créances

Les prêts et créances sont comptabilisés au coût après amortissement selon la méthode du taux d'intérêt effectif.

Autres passifs

Les autres passifs sont comptabilisés au coût après amortissement selon la méthode du taux d'intérêt effectif et comprennent tous les passifs financiers autres que les instruments dérivés.

Coûts de transaction

Les coûts de transaction liés aux actifs financiers détenus à des fins de transaction sont passés en charge au moment où ils sont engagés. Les coûts de transaction liés aux actifs financiers disponibles à la vente, aux actifs financiers détenus jusqu'à leur échéance, aux autres passifs et aux prêts et créances sont comptabilisés en diminution de la valeur comptable de l'actif ou du passif et sont ensuite constatés sur la durée de vie prévue de l'instrument selon la méthode du taux d'intérêt effectif.

Stocks

Les stocks sont évalués au moins élevé du coût moyen de la valeur nette de réalisation.

Immobilisations corporelles et amortissement

Les immobilisations corporelles sont comptabilisées au coût. L'amortissement est calculé selon la méthode de l'amortissement linéaire répartie sur la durée estimative de vie utile de l'immobilisation selon les politiques de la Commission de l'énergie de l'Ontario aux termes suivants:

Équipement de distribution	25
Équipement de bureau	10
Équipement informatique	5

Années

Les acquisitions de l'année sont amorties à la moitié du taux normal.

Frais d'incorporation

Les frais d'incorporation sont comptabilisés au coût et amortis linéairement sur une période de dix ans.

Dépôts de clients à long terme

Des dépôts sont pris en garantie de paiement de la facturation ou de contrat.

、 /

3. Accounting policies (continued)

Impairment of long-lived assets

Long-lived assets are tested for recoverability whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. An impairment loss is recognized when their carrying value exceeds the total undiscounted cash flows expected from their use and eventual disposition. The amount of the impairment loss is determined as the excess of the carrying value of the asset over its fair value.

Other assets

Purchased power costs are included in allowed rates on a forecast basis. For rate-setting purposes, differences between forecast and actual purchased power costs in the rate year are held until the following year, when their final disposition is decided. Hydro 2000 Inc. recognizes purchased power cost variances as a regulatory asset or liability, based on the expectation that amounts held from one year to the next for rate-setting purposes will be approved for collection from, or refund to, customers. In the absence of rate regulation, generally accepted accounting principles would require that actual purchased power costs be recognized as an expense when incurred.

The assets, other than variances, are recorded at cost in accordance with accounting principles as required by the Ontario Energy Board.

For certain of the regulatory items identified above, the expected recovery or settlement period, or likelihood of recovery or settlement, is affected by risks and uncertainties relating to the ultimate authority of the regulator in determining the item's treatment for rate-setting purposes. Any disallowed costs will be expensed in the year that they are disallowed.

Recoveries for these assets are presented in a separate account until the Ontario Energy Board approves the recoveries. At that time, recoveries will be applied against the regulated assets.

The financial statements effects of rate regulation are presented in note 13.

Revenue recognition

The Corporation recognizes revenue when persuasive evidence of an arrangement exists, delivery has occurred, the price to the buyer is fixed or determinable and collection is reasonably assured.

3. Conventions comptables (suite)

Dépréciation d'actifs à long terme

Les actifs à long terme sont soumis à un test de recouvrabilité lorsque des événements ou des changements de situation indiquent que leur valeur comptable pourrait ne pas être recouvrable. Une perte de valeur est constatée lorsque leur valeur comptable excède les flux de trésorerie non actualisés découlant de leur utilisation et de leur sortie éventuelle. La perte de valeur constatée est mesurée comme étant l'excédent de la valeur comptable de l'actif sur sa juste valeur.

Autres actifs

Les coûts associés à l'énergie achetée sont pris en compte dans les tarifs autorisés, sur une base prévisionnelle. Aux fins de l'établissement des tarifs, les écarts entre les coûts prévus et les coûts réels associés à l'énergie achetée au cours de l'année de tarification sont laissés en suspens jusqu'à l'année suivante, au cours de laguelle leur traitement définitif est déterminé. Hydro 2000 Inc. comptabilise les écarts de coûts associés à l'énergie achetée à titre d'actif ou de passif réglementaire, parce que la Société s'attend à obtenir l'autorisation de recouvrer auprès des clients futurs les montants laissés en suspens d'une année à l'autre aux fins de l'établissement des tarifs, ou à devoir rembourser les montants à ces clients. Si les tarifs n'étaient pas réglementés, les coûts réels associés à l'énergie achetée devraient être passés en charges au moment où ils sont engagés, selon les principes comptables généralement reconnus.

Les actifs autres que les écarts de prix ont aussi été établis selon les règles de la Commission de l'Énergie. Ils ont été comptabilisés au coût.

Dans le cas de certains des éléments réglementaires mentionnés ci-dessus, les risques et incertitudes découlant du pouvoir ultime de l'autorité de réglementation de déterminer le traitement de l'élément aux fins de la tarification influent sur la période prévue de recouvrement ou de règlement, ou sur la probabilité de recouvrement ou de règlement. Les montants refusés seront imputés aux résultats dans l'année où ils seront refusés.

Les recouvrements pour tous ces frais sont identifiés dans un compte distinct et seront appliqués contre les actifs suite à l'approbation par la Commission de l'Énergie.

Les effets de la règlementation des tarifs sont décris à la note 13.

Constatation des produits

La Société constate ses produits lorsqu'il existe des preuves convaincantes de l'existence d'un accord, que les marchandises sont expédiées aux clients, que le prix est déterminé ou déterminable et que l'encaissement est raisonnablement assuré.

3. Accounting policies (continued)

Use of estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates.

4. Accounts receivable

HYDRO 2000 INC.

3. Convention comptables (suite)

Utilisations d'estimations

Dábitoure

6. Immobilisations corporelles

Dans le cadre de la préparation des états financiers, la direction doit établir des estimations et des hypothèses qui ont une incidence sur les montants des actifs et des passifs présentés et sur la présentation des actifs et des passifs éventuels à la date des états financiers, ainsi que sur les montants des produits d'exploitation et des charges constatés au cours de la période visée par les états financiers. Les résultats réels pourraient varier par rapport à ces estimations.

Auditors' Report

To the Directors of Hydro 2000 Inc.

We have audited the balance sheet of Hydro 2000 Inc. as at December 31, 2009 and the statements of earnings, retained earnings and cash flows for the year then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at December 31, 2009 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles

Rapport des vérificateurs

Aux administrateurs de Hydro 2000 Inc.

Nous avons vérifié le bilan de Hydro 2000 Inc. au 31 décembre 2009 et les états des résultats, des bénéfices non répartis et des flux de trésorerie de l'exercice terminé à cette date. La responsabilité de ces états financiers incombe à la direction de la Société. Notre responsabilité consiste à exprimer une opinion sur ces états financiers en nous fondant sur notre vérification.

Notre vérification a été effectuée conformément aux normes de vérification généralement reconnues du Canada. Ces normes exigent que la vérification soit planifiée et exécutée de manière à fournir l'assurance raisonnable que les états financiers sont exempts d'inexactitudes importantes. La vérification comprend le contrôle par sondages des éléments probants à l'appui des montants et des autres éléments d'information fournis dans les états financiers. Elle comprend également l'évaluation des principes comptables suivis et des estimations importantes faites par la direction, ainsi qu'une appréciation de la présentation d'ensemble des états financiers.

À notre avis, ces états financiers donnent, à tous les égards importants, une image fidèle de la situation financière de la Société au 31 décembre 2009 ainsi que des résultats de son exploitation et de ses flux de trésorerie pour l'exercice terminé à cette date selon les principes comptables généralement reconnus du Canada.

1. Description of business

The Corporation is incorporated under the Ontario Business Corporations Act and is engaged in the distribution of electricity.

2. Changes in accounting policies

Energy

For the year ended December 31, 2009, the Corporation was given the choice of two methods to account for its energy revenues and expenses and distribution revenues. The purpose was to improve distributors' conformity to the Ontario Energy Board's procedures and guidance and to present comparable results on a quarterly basis.

The Corporation decided to account for its energy and distribution revenues when billed to customers. The energy expenses are accounted for when the invoices are received. The impact of this change was an increase in earnings before income taxes of \$21 643. This change was applied retrospectively.

Capital disclosures

The Corporation adopted the recommendations of CICA Handbook Section 1535, Capital Disclosures. This Section requires the disclosure of information about externally imposed capital requirements. The required disclosures are included in Note 7.

Financial instruments

In January 2009, the Corporation adopted EIC-173, Credit risk and the fair value of financial assets and financial liabilities issued by the Emerging Issues Committee. This abstract requires that an entity's own credit risk for financial liabilities and the credit risk of the counterparty for financial assets should be taken into account in determining the fair value of financial assets and financial liabilities.

The Corporation also adopted the changes made by CICA to Section 3862, *Financial instruments – Disclosures* whereby an entity shall classify and disclose fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy shall have the following levels:

Level 1 - valuation based on unadjusted prices for identical assets or liabilities;

1. Description de l'entreprise

La Société est constituée en vertu de la Loi sur les sociétés par actions de l'Ontario et se spécialise dans la distribution de l'électricité.

2. Modifications de conventions comptables

Énergie

Pour l'exercice terminé le 31 décembre 2009, la Société devait choisir entre deux méthodes pour comptabiliser ses revenus et dépenses d'énergie ainsi que ses revenus de distribution. Le but était d'améliorer le respect par les distributions des procédures et directives émises par la Commission de l'Énergie de l'Ontario ainsi que la présentation de résultats comparables sur une base trimestrielle.

La Société a choisi de présenter ses revenus d'énergie et de distribution lorsqu'ils sont facturés. Les dépenses d'énergie sont inscrites lorsque les factures sont reçues. L'impact de ce changement a été une augmentation du bénéfice avant impôts sur les bénéfices de \$ 21 643. Ce changement a été appliqué de façon rétroactive.

Informations à fournir concernant le capital

La Société a adopté les recommandations du chapitre 1535 du Manuel de l'ICCA intitulé "Informations à fournir concernant le capital". Ce chapitre exige la présentation d'informations sur les exigences concernant le capital en vertu de règles extérieures. Les informations exigées sont fournies dans la note 7.

Instruments financiers

En janvier 2009, la Société a adopté l'abrégé des délibérations du Comité sur les problèmes nouveaux CPN-173 intitulé « Risque de crédit et juste valeur des actifs financiers et des passifs financiers », selon lequel la juste valeur des instruments financiers doit tenir compte du risque de crédit de la contrepartie en ce qui concerne les actifs et du risque de crédit de la Société en ce qui concerne les passifs.

La Société a également adopté les modifications apportées par l'ICCA au chapitre 3862 intitulé « Instruments financiers – informations à fournir ». Ces modifications exigent de présenter dans les états financiers la répartition des évaluations à la juste valeur des instruments financiers selon une hiérarchie qui reflète l'importance des données utilisées pour réaliser ces évaluations. La hiérarchie des évaluations à la juste valeur se compose des niveaux suivants :

Niveau 1 - évaluation fondée sur les prix non rajustés pour des actifs ou passifs identiques;

Notes complémentaires 31 décembre 2009

2. Changes in accounting policies (continued)

Financial instruments (continued)

Level 2 - valuation techniques based on inputs other than prices included in Level 1 that are observable for the asset or liability, either directly or indirectly;

Level 3 - valuation techniques using inputs for the asset or liability that are not based on observable market data.

The fair value hierarchy requires the use of observable market inputs whenever such inputs exist. A financial instrument is classified to the lowest level of the hierarchy for which a significant input has been considered in measuring fair value.

The required disclosures are included in Note 15.

Future accounting changes

New accounting framework

As required by the Canadian Accounting Standards Board, Canadian Generally Accepted Accounting Principles for publicly accountable enterprises will transition to International Financial Reporting Standards ("IFRS"), effective January 1, 2011. The impact of this transition has not yet been determined.

3. Accounting policies

The financial statements have been prepared in accordance with Canadian generally accepted accounting principles with rate regulation specifications described under the other assets heading for electricity distributors as required by the Ontario Energy Board and set forth in the Accounting Procedures Handbook:

Financial instruments

Financial assets and financial liabilities are initially recognized at fair value and their subsequent measurement is dependent on their classification as described below. Their classification depends on the purpose, for which the financial instruments were acquired or issued, their characteristics and the Corporation's designation of such instruments. Settlement date accounting is used.

Classification

Cash/Held for trading Accounts receivable/Loans and receivables Accounts payable/Other liabilities Other current liabilities/Other liabilities

2. Modifications de conventions comptables (suite)

Instruments financiers (suite)

Niveau 2 - techniques d'évaluation fondées sur des données autres que les prix visés au niveau 1, qui sont observables pour l'actif ou le passif, directement ou indirectement.;

Niveau 3 - techniques d'évaluation fondées sur une part importante de données relatives à l'actif ou au passif qui ne sont pas fondées sur des données de marché observables.

La hiérarchie qui s'applique dans le cadre de la détermination de la juste valeur exige l'utilisation de données observables sur le marché chaque fois que de telles données existent. Un instrument financier est classé au niveau le plus bas de la hiérarchie pour lequel une donnée importante a été prise en compte dans l'évaluation de la juste valeur.

Les informations exigées sont fournies dans la note 15.

Modifications comptables futures

Nouveau référentiel comptable

Tel que requis par le Conseil des normes comptables canadiennes, les principes comptables généralement reconnus du Canada seront remplacés par les Normes internationales d'information financière (IFRS) à compter du 1er janvier 2011. Les incidences de ce changement n'ont pas encore été évaluées.

3. Conventions comptables

Les états financiers ont été préparés conformément aux principes comptables généralement reconnus du Canada et tiennent compte des particularités énumérées sous la rubrique des autres actifs pour les distributeurs d'électricité tel que requis par la Commission de l'Énergie de l'Ontario et établis dans le "Accounting Procedures Handbook" :

Instruments financiers

Les actifs financiers et les passifs financiers sont constatés initialement à la juste valeur et leur évaluation ultérieure dépend de leur classement, comme il est décrit ci-après. Leur classement dépend de l'objet visé lorsque les instruments financiers ont été acquis ou émis, de leurs caractéristiques et de leur désignation par la Société. La comptabilisation à la date de règlement est utilisée.

Classification

Encaisse/Détenus à des fins de transaction Débiteurs/Prêts et créances Créditeurs/Autres passifs Autres frais courus/Autres passifs

Notes complémentaires 31 décembre 2009

3. Accounting policies (continued)

Financial instruments (continued)

Held for trading

Held for trading financial assets are financial assets typically acquired for resale prior to maturity or that are designated as held for trading. They are measured at fair value at the balance sheet date. Fair value fluctuations including interest earned, interest accrued, gains and losses realized on disposal and unrealized gains and losses are included in other income.

Loans and receivables

Loans and receivables are accounted for at amortized cost using the effective interest method.

Other liabilities

Other liabilities are recorded at amortized cost using the effective interest method and include all financial liabilities, other than derivative instruments.

Transaction costs

Transaction costs related to held for trading financial assets are expensed as incurred. Transaction costs related to available-for-sale financial assets, held-to-maturity financial assets, other liabilities and loans and receivables are netted against the carrying value of the asset or liability and are then recognized over the expected life of the instrument using the effective interest method.

Capital assets and amortization

Capital assets are recorded at cost. Amortization is calculated on the basis of the straight-line method with reference to estimated useful lives of the assets in accordance with Ontario Energy Board policy at the following terms:

	Years
Distribution equipment Office equipment	25 10
Computer equipment	5

Acquisitions made during the year are amortized at half the normal rate.

3. Conventions comptables (suite)

Instruments financiers (suite)

Détenus à des fins de transaction

Les actifs financiers détenus à des fins de transaction sont des actifs financiers qui sont généralement acquis en vue d'être revendus avant leur échéance ou qui ont été désignés comme étant détenus à des fins de transaction. Ils sont mesurés à la juste valeur à la date de clôture. Les fluctuations de la juste valeur qui incluent les intérêts gagnés, les intérêts courus, les gains et pertes réalisés sur cession et les gains et pertes non réalisés sont inclus dans les autres produits.

Prêts et créances

Les prêts et créances sont comptabilisés au coût après amortissement selon la méthode du taux d'intérêt effectif.

Autres passifs

Les autres passifs sont comptabilisés au coût après amortissement selon la méthode du taux d'intérêt effectif et comprennent tous les passifs financiers autres que les instruments dérivés.

Coûts de transaction

Les coûts de transaction liés aux actifs financiers détenus à des fins de transaction sont passés en charge au moment où ils sont engagés. Les coûts de transaction liés aux actifs financiers disponibles à la vente, aux actifs financiers détenus jusqu'à leur échéance, aux autres passifs et aux prêts et créances sont comptabilisés en diminution de la valeur comptable de l'actif ou du passif et sont ensuite constatés sur la durée de vie prévue de l'instrument selon la méthode du taux d'intérêt effectif.

Immobilisations corporelles et amortissement

Les immobilisations corporelles sont comptabilisées au coût. L'amortissement est calculé selon la méthode de l'amortissement linéaire répartit sur la durée estimative de vie utile de l'immobilisation selon les politiques de la Commission de l'énergie de l'Ontario aux termes suivants:

	<u>Années</u>
Équipement de distribution Équipement de bureau Équipement informatique	25 10 5

Les acquisitions de l'année sont amorties à la moitié du taux normal.

3. Accounting policies (continued)

Customers' deposits

Deposits are taken to guarantee the payment of power bills or contract performance.

Impairment of long-lived assets

Long-lived assets are tested for recoverability whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. An impairment loss is recognized when their carrying value exceeds the total undiscounted cash flows expected from their use and eventual disposition. The amount of the impairment loss is determined as the excess of the carrying value of the asset over its fair value.

Other assets

Purchased power costs are included in allowed rates on a forecast basis. For rate-setting purposes, differences between forecast and actual purchased power costs in the rate year are held until the following year, when their final disposition is decided. Hydro 2000 Inc. recognizes purchased power cost variances as a regulatory asset or liability, based on the expectation that amounts held from one year to the next for rate-setting purposes will be approved for collection from, or refund to customers. In the absence of rate regulation, generally accepted accounting principles would require that actual purchased power costs be recognized as an expense when incurred.

The assets, other than variances, are recorded at cost in accordance with accounting principles as required by the Ontario Energy Board.

For certain of the regulatory items identified above, the expected recovery or settlement period, or likelihood of recovery or settlement, is affected by risks and uncertainties relating to the ultimate authority of the regulator in determining the item's treatment for rate-setting purposes. Any disallowed costs will be expensed in the year that they are disallowed.

Recoveries for these assets are presented in a separate account until the Ontario Energy Board approves the recoveries. At that time, recoveries will be applied against the regulated assets.

The financial statements effects of rate regulation are presented in Note 13.

3. Conventions comptables (suite)

Dépôts de clients à long terme

Des dépôts sont pris en garantie de paiement de la facturation ou de contrat.

Dépréciation d'actifs à long terme

Les actifs à long terme sont soumis à un test de recouvrabilité lorsque des événements ou des changements de situation indiquent que leur valeur comptable pourrait ne pas être recouvrable. Une perte de valeur est constatée lorsque leur valeur comptable excède les flux de trésorerie non actualisés découlant de leur utilisation et de leur sortie éventuelle. La perte de valeur constatée est mesurée comme étant l'excédent de la valeur comptable de l'actif sur sa juste valeur.

Autres actifs

Les coûts associés à l'énergie achetée sont pris en compte dans les tarifs autorisés, sur une base prévisionnelle. Aux fins de l'établissement des tarifs, les écarts entre les coûts prévus et les coûts réels associés à l'énergie achetée au cours de l'année de tarification sont laissés en suspens jusqu'à l'année suivante, au cours de laguelle leur traitement définitif est déterminé. Hydro 2000 Inc. comptabilise les écarts de coûts associés à l'énergie achetée à titre d'actif ou de passif réglementaire, parce que la Société s'attend à obtenir l'autorisation de recouvrer auprès des clients futurs les montants laissés en suspens d'une année à l'autre aux fins de l'établissement des tarifs, ou à devoir rembourser les montants à ces clients. Si les tarifs n'étaient pas réglementés, les coûts réels associés à l'énergie achetée devraient être passés en charge au moment où ils sont engagés, selon les principes comptables généralement reconnus.

Les actifs autres que les écarts de prix ont aussi été établis selon les règles de la Commission de l'Énergie. Ils ont été comptabilisés au coût.

Dans le cas de certains des éléments réglementaires mentionnés ci-dessus, les risques et incertitudes découlant du pouvoir ultime de l'autorité de réglementation de déterminer le traitement de l'élément aux fins de la tarification influent sur la période prévue de recouvrement ou de règlement, ou sur la probabilité de recouvrement ou de règlement. Les montants refusés seront imputés aux résultats dans l'année où ils seront refusés.

Les recouvrements pour tous ces frais sont identifiés dans un compte distinct et seront appliqués contre les actifs suite à l'approbation par la Commission de l'Énergie.

Les effets de la règlementation des tarifs sont décris à la note 13.

Accounting policies (continued) 3.

Revenue recognition

The Corporation recognizes energy and distribution revenues when billed to cutomers. Other revenues are recognized persuasive evidence of when an arrangement exists, delivery has occurred, the price to the buyer is fixed or determinable and collection is reasonably assured.

Use of estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates.

----

#### 14. Commitment

The Corporation leases office space from the Township of Alfred-Plantagenet under an operating lease which expires December 31, 2011. The amount payable in 2010 will be \$ 8 483. For 2011, it will increase by the cost of living, with a minimum of 1%.

## 15. Financial instruments and risk management

The Corporation, through its financial assets and liabilities, has exposure to the following risks from its use of financial instruments: credit risk, market risk, and liquidity risk. The following analysis provides a measurement of risk as at December 31, 2009.

#### Credit risk

The Corporation's principal financial assets are cash and accounts receivable, which are subject to credit risk. The carrying amounts of financial assets on the balance sheet represents the Corporation's maximum credit exposure at the balance sheet date.

#### Hydro 2000 Inc.

Notes complémentaires 31 décembre 2009

## 13. Effets de la réglementation des tarifs sur les états financiers

Bénéfice (perte) avant impôts sur les bénéfices conformément aux principes comptables pour les distributeurs d'électricité tels que requis par la Commission de l'Énergie de l'Ontario

Dépenses/variances incluses dans les autres actifs/passifs

Frais d'intérêts sur les autres actifs/passifs

Amortissement des immobilisations corporelles inclus dans les autres actifs

#### Recouvrements

Ajustements des revenus d'énergie et de distribution et des coûts de l'énergie Début de l'exercice Fin de l'exercice

Bénéfice avant impôts sur les bénéfices et avant l'effet de la réglementation sur les états financiers

#### 14. Engagement

La Société loue des bureaux au Canton d'Alfred-Plantagenet en vertu d'un contrat de location-exploitation qui vient à échéance le 31 décembre 2011. Le loyer à payer pour 2010 est de \$ 8 483. Pour 2011, il y aura une augmentation selon le coût de la vie, avec un minimum de 1%.

## 15. Instruments financiers et gestion des risques

En raison de ses actifs et de ses passifs financiers, la Société est exposée aux risques suivants relatifs à l'utilisation d'instruments financiers: le risque de crédit, le risque de marché et le risque de liquidité. L'analyse suivante permet d'évaluer les risques au 31 décembre 2009.

#### Risque de crédit

Les principaux actifs financiers de la Société comprennent l'encaisse et les débiteurs, lesquels sont assujettis au risque de crédit. La valeur comptable des actifs financiers au bilan représente le risque de crédit maximal à la date du bilan.

# 15. Financial instruments and risk management (continued)

#### Credit risk (continued)

The Corporation's credit risk is primarily attributable to its accounts receivable. The amounts disclosed in the balance sheet are net of allowance for doubtful accounts, estimated by the management of the Corporation based on previous experience and its assessment of the current economic environment. In order to reduce its risk, management has adopted credit policies that include regular review of credit limits. The Corporation does not have significant exposure to any individual customer and has not incurred any significant bad debts during the year. The credit risk on cash is limited because the counterparties are chartered banks with high credit-ratings assigned by national credit-rating agencies.

As at December 31, 2009, the aging of accounts receivable was:

|                                                    | 2009       | 2008       |
|----------------------------------------------------|------------|------------|
| Trade<br>Current                                   | \$ 200 701 | \$ 143 957 |
|                                                    | • • • •    | +          |
| Aged between 31 – 90 days                          | 6 244      | 14 385     |
| Aged greater than 90 days                          | 26 982     | 16 327     |
|                                                    | 233 927    | 174 669    |
| Allowance for doubtful accounts:                   | 6 910      | 8 669      |
|                                                    | \$ 227 017 | \$ 166 000 |
| Reconciliation of allowance for doubtful accounts: |            |            |
|                                                    | 2009       | 2008       |
| Balance, beginning of year                         | \$ 8 669   | \$ 9728    |
| Increase during the year                           | 6 480      | 8 391      |
| Bad debts written off during the year              | (8 239)    | (9 450)    |
| Balance, end of year                               | \$ 6 910   | \$ 8 669   |
|                                                    |            |            |

#### Interest rate risk

The note payable bears interest at fixed rates. Consequently, the cash flow exposure is not significant. However, the fair value of loans having fixed rates of interest, could fluctuate because of changes in market interest rates.

# 15. Instruments financiers et gestion des risques (suite)

#### Risque de crédit (suite)

Le risque de crédit de la Société est principalement imputable à ses créances clients. Les montants sont présentés dans le bilan déduction faite de la provision pour créances douteuses, laquelle a fait l'objet d'une estimation par la direction de la Société en fonction de l'expérience antérieure et de son évaluation de la conjoncture économique actuelle. Afin de réduire le risque, la direction a adopté des politiques de crédit qui comprennent une révision régulière des limites de crédit. La Société n'est exposée à aucun risque important à l'égard d'un client particulier et n'a eu aucune créance irrécouvrable importante au cours de l'exercice. Le risque de crédit lié à l'encaisse est limité puisque les contreparties sont des banques à charte jouissant de cotes de solvabilité élevées attribuées par des agences de notation nationales.

Au 31 décembre 2009, le classement par échéance des débiteurs était le suivant :

Clients Courant Entre 31 et 90 jours Plus de 90 jours

#### Provision pour créances douteuses

Rapprochement de la provision pour créances douteuses :

Solde au début Augmentation au cours de l'exercice Créances douteuses radiées au cours de l'exercice Solde à la fin

#### Risque de taux d'intérêt

Le billet à payer porte des taux d'intérêt fixes. Par conséquent, les risques de trésorerie sont minimes. Toutefois, la juste valeur des emprunts dont le taux d'intérêt est fixe pourrait fluctuer en fonction des variations des taux d'intérêt du marché.

# 15. Financial instruments and risk management (continued)

#### Liquidity risk

The Corporation's objective is to have sufficient liquidity to meet its liabilities when due. The Corporation monitors its cash balances and cash flows generated from operations to meet its requirements. The Corporation has the following financial liabilities as at December 31, 2009:

|                                                                                              | Net book<br>value/Valeur<br>comptable<br>nette | 2010                                     | 2011                         | 2012 and<br>after/<br>2012 et<br>après |
|----------------------------------------------------------------------------------------------|------------------------------------------------|------------------------------------------|------------------------------|----------------------------------------|
| Accounts payable<br>Other current liabilities<br>Note payable<br>Other long-term liabilities | \$ 75 402<br>180 302<br>215 466<br>235 745     | \$ 75 402<br>180 302<br>31 222<br>43 039 | \$-<br>-<br>32 962<br>12 660 | \$-<br>-<br>151 282<br>180 046         |
|                                                                                              | \$ 706 915                                     | \$ 329 965                               | \$ 45 622                    | \$ 331 328                             |

Fair value

#### Establishing fair value

The fair value of cash, accounts receivable, accounts payable and other current liabilities approximates their carrying values due to their short-term maturity.

The fair value of note payable approximates its carrying value as it has financing conditions similar to those currently available to the Corporation.

#### Fair value hierarchy

Financial instruments recorded at fair value on the Balance sheet are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - valuation based on unadjusted prices for identical assets or liabilities;

Notes complémentaires 31 décembre 2009

# 15. Instruments financiers et gestion des risques (suite)

#### Risque de liquidité

Le risque de liquidité est le risque que la Société ne soit pas en mesure de remplir ses obligations financières à leur échéance. La Société surveille le solde de son encaisse et ses flux de trésorerie qui découlent de son exploitation pour être en mesure de respecter ses engagements. Au 31 décembre 2009, les passifs financiers de la Société étaient les suivants :

Créditeurs Autres frais courus Billet à payer Autres passifs à long terme

#### Juste valeur

#### Détermination de la juste valeur

Les justes valeurs de l'encaisse, des débiteurs, des créditeurs et autres frais courus correspondent approximativement à leur valeur comptable en raison de leur échéance à court terme.

La juste valeur du billet à payer correspond approximativement à sa valeur comptable étant donné que la dette comporte des conditions de financement que la Société pourrait obtenir actuellement.

#### Hiérarchie des évaluations à la juste valeur

Les instruments financiers comptabilisés à la juste valeur au bilan sont classés selon une hiérarchie qui reflète l'importance des données utilisées pour effectuer les évaluations. La hiérarchie des évaluations à la juste valeur se compose des niveaux suivants :

Niveau 1 - évaluation fondée sur les prix non rajustés pour des actifs ou passifs identiques;

## 15. Financial instruments and risk management (continued)

#### Fair value hierarchy (continued)

Level 2 - valuation techniques based on inputs other than prices included in Level 1 that are observable for the asset or liability, either directly or indirectly;

Level 3 - valuation techniques using inputs for the asset or liability that are not based on observable market data.

The fair value hierarchy requires the use of observable market inputs whenever such inputs exist. A financial instrument is classified to the lowest level of the hierarchy for which a significant input has been considered in measuring fair value.

The following table presents the financial instruments recorded at fair value in the Balance sheet, classified using the fair value hierarchy described above:

## Hydro 2000 Inc.

Notes complémentaires 31 décembre 2009

## 15. Instruments financiers et gestion des risques (suite)

#### <u>Hiérarchie des évaluations à la juste valeur</u> (suite)

Niveau 2 - techniques d'évaluation fondées sur des données autres que les prix visés au niveau 1, qui sont observables pour l'actif ou le passif, directement ou indirectement;

Niveau 3 - techniques d'évaluation fondées sur une part importante de données relatives à l'actif ou au passif qui ne sont pas fondées sur des données de marché observables.

La hiérarchie qui s'applique dans le cadre de la détermination de la juste valeur exige l'utilisation de données observables sur le marché chaque fois que de telles données existent. Un instrument financier est classé au niveau le plus bas de la hiérarchie pour lequel une donnée importante a été prise en compte dans l'évaluation de la juste valeur.

Le tableau suivant présente les instruments financiers comptabilisés à la juste valeur au bilan classés selon la hiérarchie d'évaluation décrite ci-dessus :

| Financial assets<br>Cash | \$ 314 786           | \$-                  | \$-                  | \$ 314 786                                                                                                                              | Actifs financiers<br>Encaisse |
|--------------------------|----------------------|----------------------|----------------------|-----------------------------------------------------------------------------------------------------------------------------------------|-------------------------------|
|                          | Level 1/<br>Niveau 1 | Level 2/<br>Niveau 2 | Level 3/<br>Niveau 3 | assets and<br>financial<br>liabilities at<br>fair value/<br>Total des<br>actifs et des<br>passifs<br>financiers à<br>la juste<br>valeur |                               |

During the year, there has been no significant transfer of amounts between Level 1 and Level 2.

Au cours de l'exercice, il n'y a eu aucun transfert important de montants entre les niveaux 1 et 2.

## **Independent Auditor's Report**

To the Directors of Hydro 2000 Inc.

We have audited the accompanying financial statements of Hydro 2000 Inc., which comprise the balance sheet as at December 31, 2010, and the statements of loss and retained earnings and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian generally accepted accounting principles and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Hydro 2000 Inc. as at December 31, 2010, and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

## Rapport de l'auditeur indépendant

#### Aux administrateurs de Hydro 2000 Inc.

Nous avons effectué l'audit des états financiers ci-joints de Hydro 2000 Inc. qui comprennent le bilan au 31 décembre 2010, les états des résultats et bénéfices non répartis et des flux de trésorerie pour l'exercice clos à cette date, ainsi qu'un résumé des principales méthodes comptables et d'autres informations explicatives.

#### Responsabilité de la direction pour les états financiers

La direction est responsable de la préparation et de la présentation fidèle de ces états financiers conformément aux principes comptables généralement reconnus du Canada, ainsi que du contrôle interne qu'elle considère comme nécessaire pour permettre la préparation d'états financiers exempts d'anomalies significatives, que celles-ci résultent de fraudes ou d'erreurs.

#### Responsabilité de l'auditeur

Notre responsabilité consiste à exprimer une opinion sur les états financiers, sur la base de notre audit. Nous avons effectué notre audit selon les normes d'audit généralement reconnues du Canada. Ces normes requièrent que nous nous conformions aux règles de déontologie et que nous planifiions et réalisions l'audit de façon à obtenir l'assurance raisonnable que les états financiers ne comportent pas d'anomalies significatives.

Un audit implique la mise en œuvre de procédures en vue de recueillir des éléments probants concernant les montants et les informations fournis dans les états financiers. Le choix des procédures relève du jugement de l'auditeur, et notamment de son évaluation des risques que les états financiers comportent des anomalies significatives, que celles-ci résultent de fraudes ou d'erreurs. Dans l'évaluation de ces risques, l'auditeur prend en considération le contrôle interne de l'entité portant sur la préparation et la présentation fidèle des états financiers afin de concevoir des procédures d'audit appropriées aux circonstances, et non dans le but d'exprimer une opinion sur l'efficacité du contrôle interne de l'entité. Un audit comporte également l'appréciation du caractère approprié des méthodes comptables retenues et du caractère raisonnable des estimations comptables faites par la direction, de même que l'appréciation de la présentation d'ensemble des états financiers.

Nous estimons que les éléments probants que nous avons obtenus sont suffisants et appropriés pour fonder notre opinion d'audit.

#### Opinion

À notre avis, les états financiers donnent, dans tous leurs aspects significatifs, une image fidèle de la situation financière de Hydro 2000 Inc. au 31 décembre 2010, ainsi que de ces résultats d'exploitation et de ses flux de trésorerie pour l'exercice clos à cette date, conformément aux principes comptables généralement reconnus du Canada.

Additional information is presented in Note 11.

Des renseignements complémentaires sont présentés à la note 11.

Notes to the financial statements December 31, 2010

#### 1. Description of business

The Corporation, incorporated under the Ontario Business Corporations Act, is engaged in the distribution of electricity.

#### 2. Future accounting changes

#### New accounting framework

The Corporation, a qualifying entity with rate-regulated activities, selected the option proposed by the Canadian Accounting Standards Board to defer its adoption of International Financial Reporting Standards for the first time until its period beginning on January 1, 2012. The impact of this transition has not yet been determined.

#### 3. Accounting policies

The financial statements have been prepared in accordance with Canadian generally accepted accounting principles with rate regulation specifications described under the other assets heading for electricity distributors as required by the Ontario Energy Board and set forth in the Accounting Procedures Handbook:

#### **Financial instruments**

Financial assets and financial liabilities are initially recognized at fair value and their subsequent measurement is dependent on their classification as described below. Their classification depends on the purpose, for which the financial instruments were acquired or issued, their characteristics and the Corporation's designation of such instruments. Settlement date accounting is used.

#### **Classification**

Cash/Held for trading Accounts receivable/Loans and receivables Others assets/Loans and receivables Accounts payable/Other liabilities Other current liabilities/Other liabilities Note payable/Other liabilities Other long-term liabilities/Other liabilities

#### Held for trading

Held for trading financial assets are financial assets typically acquired for resale prior to maturity or that are designated as held for trading. They are measured at fair value at the balance sheet date. Fair value fluctuations including interest earned, interest accrued, gains and losses realized on disposal and unrealized gains and losses are included in other income.

## Hydro 2000 Inc.

Notes complémentaires 31 décembre 2010

#### 1. Description de l'entreprise

La Société, constituée en vertu de la Loi sur les sociétés par actions de l'Ontario, se spécialise dans la distribution de l'électricité.

#### 2. Modifications futures comptables

#### Nouveau référentiel comptable

La Société, une entité admissible exerçant des activités à tarifs réglementés, a choisi l'option offerte par le Conseil des normes comptables du Canada de reporter la première application des normes internationales d'information financières jusqu'à son exercice ouvert à compter du 1<sup>er</sup> janvier 2012. Les incidences de ce changement n'ont pas encore été évaluées.

#### 3. Conventions comptables

Les états financiers ont été préparés conformément aux principes comptables généralement reconnus du Canada et tiennent compte des particularités énumérées sous la rubrique des autres actifs pour les distributeurs d'électricité tel que requis par la Commission de l'énergie de l'Ontario et établis dans le "Accounting Procedures Handbook" :

#### Instruments financiers

Les actifs financiers et les passifs financiers sont constatés initialement à la juste valeur et leur évaluation ultérieure dépend de leur classement, comme il est décrit ci-après. Leur classement dépend de l'objet visé lorsque les instruments financiers ont été acquis ou émis, de leurs caractéristiques et de leur désignation par la Société. La comptabilisation à la date de règlement est utilisée.

#### **Classification**

Encaisse/Détenus à des fins de transaction Débiteurs/Prêts et créances Autres actifs/Prêts et créances Créditeurs/Autres passifs Autres passifs à court terme/Autres passifs Billet à payer/Autres passifs Autres passifs à long terme/Autres passifs

#### Détenus à des fins de transaction

Les actifs financiers détenus à des fins de transaction sont des actifs financiers qui sont généralement acquis en vue d'être revendus avant leur échéance ou qui ont été désignés comme étant détenus à des fins de transaction. Ils sont mesurés à la juste valeur à la date de clôture. Les fluctuations de la juste valeur qui incluent les intérêts gagnés, les intérêts courus, les gains et pertes réalisés sur cession et les gains et pertes non réalisés sont inclus dans les autres produits.

Notes to the financial statements December 31, 2010

## Hydro 2000 Inc.

Notes complémentaires 31 décembre 2010

#### 3. Accounting policies (continued)

Financial instruments (continued)

#### Loans and receivables

Loans and receivables are accounted for at amortized cost using the effective interest rate method.

#### Other liabilities

Other liabilities are recorded at amortized cost using the effective interest rate method and include all financial liabilities, other than derivative instruments.

#### Transaction costs

Transaction costs related to held for trading financial assets are expensed as incurred. Transaction costs related to other liabilities and loans and receivables are netted against the carrying value of the asset or liability and are then recognized over the expected life of the instrument using the effective interest rate method.

#### Capital assets and amortization

Capital assets are recorded at cost. Amortization is calculated on the basis of the straight-line method with reference to estimated useful lives of the assets in accordance with Ontario Energy Board policy at the following terms:

|                        | Years |
|------------------------|-------|
| Distribution equipment | 25    |
| Office equipment       | 10    |
| Computer equipment     | 5     |
| Capital contribution   | 25    |

• •

Acquisitions made during the year are amortized at half the normal rate.

Capital contribution is the portion assumed by the owners or the developers for capital assets owned by the Corporation.

#### Customers' deposits

Deposits are taken to guarantee the payment of power bills or contract performance.

#### 3. Conventions comptables (suite)

Instruments financiers (suite)

#### Prêts et créances

Les prêts et créances sont comptabilisés au coût après amortissement selon la méthode du taux d'intérêt effectif.

#### Autres passifs

Les autres passifs sont comptabilisés au coût après amortissement selon la méthode du taux d'intérêt effectif et comprennent tous les passifs financiers autres que les instruments dérivés.

#### Coûts de transaction

Les coûts de transaction liés aux actifs financiers détenus à des fins de transaction sont passés en charge au moment où ils sont engagés. Les coûts de transaction liés aux autres passifs et aux prêts et créances sont comptabilisés en diminution de la valeur comptable de l'actif ou du passif et sont ensuite constatés sur la durée de vie prévue de l'instrument selon la méthode du taux d'intérêt effectif.

#### Immobilisations corporelles et amortissement

Les immobilisations corporelles sont comptabilisées au coût. L'amortissement est calculé selon la méthode de l'amortissement linéaire répartit sur la durée estimative de vie utile de l'immobilisation selon les politiques de la Commission de l'énergie de l'Ontario aux termes suivants:

| Équipement de distribution | 25 |
|----------------------------|----|
| Équipement de bureau       | 10 |
| Équipement informatique    | 5  |
| Apports en immobilisations | 25 |

Les acquisitions de l'année sont amorties à la moitié du taux normal.

Les apports en immobilisations sont la portion qui est assumée par les propriétaires ou les développeurs sur les immobilisations appartenant à la Société.

#### Dépôts de clients à long terme

Des dépôts sont pris en garantie de paiement de la facturation ou de contrat.

Années

Notes to the financial statements December 31, 2010

#### 3. Accounting policies (continued)

#### Impairment of long-lived assets

Long-lived assets are tested for recoverability whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. An impairment loss is recognized when their carrying value exceeds the total undiscounted cash flows expected from their use and eventual disposition. The amount of the impairment loss is determined as the excess of the carrying value of the asset over its fair value.

#### Other assets

Purchased power costs are included in allowed rates on a forecast basis. For rate-setting purposes, differences between forecast and actual purchased power costs in the rate year are held until the following year, when their final disposition is decided. The Corporation recognizes purchased power cost variances as a regulatory asset or liability, based on the expectation that amounts held from one year to the next for rate-setting purposes will be approved for collection from, or refund to customers. In the absence of rate regulation, generally accepted accounting principles would require that actual purchased power costs be recognized as an expense when incurred.

The assets, other than variances, are recorded at cost in accordance with accounting principles as required by the Ontario Energy Board.

For certain of the regulatory items identified above, the expected recovery or settlement period, or likelihood of recovery or settlement, is affected by risks and uncertainties relating to the ultimate authority of the regulator in determining the item's treatment for rate-setting purposes. Any disallowed costs will be expensed in the year that they are disallowed.

Recoveries for these assets are presented in a separate account until the Ontario Energy Board approves the recoveries. At that time, recoveries will be applied against the regulated assets.

The financial statements effects of rate regulation are presented in Note 13.

Hydro 2000 Inc. Notes complémentaires 31 décembre 2010

#### 3. Conventions comptables (suite)

#### Dépréciation d'actifs à long terme

Les actifs à long terme sont soumis à un test de recouvrabilité lorsque des événements ou des changements de situation indiquent que leur valeur comptable pourrait ne pas être recouvrable. Une perte de valeur est constatée lorsque leur valeur comptable excède les flux de trésorerie non actualisés découlant de leur utilisation et de leur sortie éventuelle. La perte de valeur constatée est mesurée comme étant l'excédent de la valeur comptable de l'actif sur sa juste valeur.

#### Autres actifs

Les coûts associés à l'énergie achetée sont pris en compte dans les tarifs autorisés, sur une base prévisionnelle. Aux fins de l'établissement des tarifs, les écarts entre les coûts prévus et les coûts réels associés à l'énergie achetée au cours de l'année de tarification sont laissés en suspens jusqu'à l'année suivante, au cours de laquelle leur traitement définitif est déterminé. La Société comptabilise les écarts de coûts associés à l'énergie achetée à titre d'actif ou de passif réglementaire, parce que la Société s'attend à obtenir l'autorisation de recouvrer auprès des clients futurs les montants laissés en suspens d'une année à l'autre aux fins de l'établissement des tarifs, ou à devoir rembourser les montants à ces clients. Si les tarifs n'étaient pas réglementés, les coûts réels associés à l'énergie achetée devraient être passés en charge au moment où ils sont engagés, selon les principes comptables généralement reconnus.

Les actifs autres que les écarts de prix ont été comptabilisés au coût selon les règles comptables de la Commission de l'énergie de l'Ontario.

Dans le cas de certains des éléments réglementaires mentionnés ci-dessus, les risques et incertitudes découlant du pouvoir ultime de l'autorité de réglementation de déterminer le traitement de l'élément aux fins de la tarification influent sur la période prévue de recouvrement ou de règlement, ou sur la probabilité de recouvrement ou de règlement. Les montants refusés seront imputés aux résultats dans l'année où ils seront refusés.

Les recouvrements pour tous ces frais sont identifiés dans un compte distinct et seront appliqués contre les actifs suite à l'approbation par la Commission de l'énergie de l'Ontario.

Les effets de la règlementation des tarifs sont décris à la note 13.

Notes to the financial statements December 31, 2010

#### 3. Accounting policies (continued)

#### Revenue recognition

The Corporation recognizes energy and distribution revenues when billed to customers. Other revenues are recognized when persuasive evidence of an arrangement exists, delivery has occurred, the price to the buyer is fixed or determinable and collection is reasonably assured.

#### Use of estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

## Hydro 2000 Inc.

Notes complémentaires 31 décembre 2010

#### 3. Conventions comptables (suite)

#### Constatation des produits

La Société constate ses revenus d'énergie et de distribution lorsqu'ils sont facturés aux clients alors que les autres revenus sont constatés lorsqu'il existe des preuves convaincantes de l'existence d'un accord, que les marchandises sont expédiées aux clients, que le prix est déterminé ou déterminable et que l'encaissement est raisonnablement assuré.

#### Utilisations d'estimations

Dans le cadre de la préparation des états financiers, la direction doit établir des estimations et des hypothèses qui ont une incidence sur les montants des actifs et des passifs présentés et sur la présentation des actifs et des passifs éventuels à la date des états financiers, ainsi que sur les montants des produits d'exploitation et des charges constatés au cours de la période visée par les états financiers. Les résultats réels pourraient varier par rapport à ces estimations.

Notes to the financial statements December 31, 2010

#### 14. Commitment

The Corporation leases office space under an operating lease which expires on March 31, 2016. Future lease payments aggregate \$ 55,400 and include the following amounts payable over the next six years:

## Hydro 2000 Inc.

Notes complémentaires 31 décembre 2010

#### 14. Engagement

La Société loue des bureaux en vertu d'un contrat de location-exploitation qui vient à échéance le 31 mars 2016. Les loyers futurs s'élèveront à 55 400 \$ et comprennent les paiements suivants pour les six prochains exercices:

\$

| 2011 | 9,234  |
|------|--------|
| 2012 | 11,080 |
| 2013 | 11,080 |
| 2014 | 11,080 |
| 2015 | 11,080 |
| 2016 | 1,846  |

# 15. Financial instruments and risk management

The Corporation, through its financial assets and liabilities, has exposure to the following risks from its use of financial instruments: credit risk, market risk, and liquidity risk. The following analysis provides a measurement of risk as at December 31, 2010.

#### Credit risk

The Corporation's principal financial assets are cash and accounts receivable, which are subject to credit risk. The carrying amounts of financial assets on the balance sheet represents the Corporation's maximum credit exposure at the balance sheet date.

The Corporation's credit risk is primarily attributable to its accounts receivable. The amounts disclosed in the balance sheet are net of allowance for doubtful accounts, estimated by the management of the Corporation based on previous experience and its assessment of the current economic environment. In order to reduce its risk, management has adopted credit policies that include regular review of credit limits. The Corporation does not have significant exposure to any individual customer and has not incurred any significant bad debts during the year. The credit risk on cash is limited because the counterparties are chartered banks with high credit-ratings assigned by national credit-rating agencies.

#### 15. Instruments financiers et gestion des risques

En raison de ses actifs et de ses passifs financiers, la Société est exposée aux risques suivants relatifs à l'utilisation d'instruments financiers: le risque de crédit, le risque de marché et le risque de liquidité. L'analyse suivante permet d'évaluer les risques au 31 décembre 2010.

#### Risque de crédit

Les principaux actifs financiers de la Société comprennent l'encaisse et les débiteurs, lesquels sont assujettis au risque de crédit. La valeur comptable des actifs financiers au bilan représente le risque de crédit maximal à la date du bilan.

Le risque de crédit de la Société est principalement imputable à ses créances clients. Les montants sont présentés dans le bilan déduction faite de la provision pour créances douteuses, laquelle a fait l'objet d'une estimation par la direction de la Société en fonction de l'expérience antérieure et de son évaluation de la conjoncture économique actuelle. Afin de réduire le risque, la direction a adopté des politiques de crédit qui comprennent une révision régulière des limites de crédit. La Société n'est exposée à aucun risque important à l'égard d'un client particulier et n'a eu aucune créance irrécouvrable importante au cours de l'exercice. Le risque de crédit lié à l'encaisse est limité puisque les contreparties sont des banques à charte jouissant de cotes de solvabilité élevées attribuées par des agences de notation nationales.

|                                                    | \$      | \$      |                                                         |  |  |  |
| Balance, beginning of year                         | 6,910   | 8,669   | Solde au début                                          |  |  |  |
| Increase during the year                           | 6,630   | 6,480   | Augmentation au cours de l'exercice                     |  |  |  |
| Bad debts written off during the year              | (4,410) | (8,239) | Créances douteuses radiées au cours de l'exercice       |  |  |  |
| Balance, end of year                               | 9,130   | 6,910   | Solde à la fin                                          |  |  |  |
|                                                    |         |         |                                                         |  |  |  |

#### Interest rate risk

The note payable bears interest at a fixed rate. Consequently, the cash flow exposure is not significant. However, the fair value of loans having fixed rates of interest, could fluctuate because of changes in market interest rates.

#### Liquidity risk

The Corporation's objective is to have sufficient liquidity to meet its liabilities when due. The Corporation monitors its cash balances and cash flows generated from operations to meet its requirements. The Corporation has the following financial liabilities as at December 31, 2010:

#### Risque de taux d'intérêt

Le billet à payer porte intérêt à taux fixe. Par conséquent, les risques de trésorerie sont minimes. Toutefois, la juste valeur des emprunts dont le taux d'intérêt est fixe pourrait fluctuer en fonction des variations des taux d'intérêt du marché.

#### Risque de liquidité

Le risque de liquidité est le risque que la Société ne soit pas en mesure de remplir ses obligations financières à leur échéance. La Société surveille le solde de son encaisse et ses flux de trésorerie qui découlent de son exploitation pour être en mesure de respecter ses engagements. Au 31 décembre 2010, les passifs financiers de la Société étaient les suivants :

#### Fair value

#### Establishing fair value

The fair value of cash, accounts receivable, accounts payable and other current liabilities approximates their carrying values due to their short-term maturity.

The fair value of note payable approximates its carrying value as it has financing conditions similar to those currently available to the Corporation.

#### Fair value hierarchy

Financial instruments recorded at fair value on the balance sheet are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - valuation based on unadjusted prices for identical assets or liabilities;

Level 2 - valuation techniques based on inputs other than prices included in Level 1 that are observable for the asset or liability, either directly or indirectly;

Level 3 - valuation techniques using inputs for the asset or liability that are not based on observable market data.

#### Juste valeur

#### Détermination de la juste valeur

Les justes valeurs de l'encaisse, des débiteurs, des créditeurs et autres passifs à court terme correspondent approximativement à leur valeur comptable en raison de leur échéance à court terme.

La juste valeur du billet à payer correspond approximativement à sa valeur comptable étant donné que la dette comporte des conditions de financement que la Société pourrait obtenir actuellement.

#### Hiérarchie des évaluations à la juste valeur

Les instruments financiers comptabilisés à la juste valeur au bilan sont classés selon une hiérarchie qui reflète l'importance des données utilisées pour effectuer les évaluations. La hiérarchie des évaluations à la juste valeur se compose des niveaux suivants :

Niveau 1 - évaluation fondée sur les prix non rajustés pour des actifs ou passifs identiques;

Niveau 2 - techniques d'évaluation fondées sur des données autres que les prix visés au niveau 1, qui sont observables pour l'actif ou le passif, directement ou indirectement;

Niveau 3 - techniques d'évaluation fondées sur une part importante de données relatives à l'actif ou au passif qui ne sont pas fondées sur des données de marché observables.

Notes to the financial statements December 31, 2010

# 15. Financial instruments and risk management (continued)

Fair value (continued)

#### Fair value hierarchy (continued)

The fair value hierarchy requires the use of observable market inputs whenever such inputs exist. A financial instrument is classified to the lowest level of the hierarchy for which a significant input has been considered in measuring fair value.

The following table presents the financial instruments recorded at fair value in the balance sheet, classified using the fair value hierarchy described above:

## Hydro 2000 Inc.

Notes complémentaires 31 décembre 2010

# 15. Instruments financiers et gestion des risques (suite)

Juste valeur (suite)

#### Hiérarchie des évaluations à la juste valeur (suite)

La hiérarchie qui s'applique dans le cadre de la détermination de la juste valeur exige l'utilisation de données observables sur le marché chaque fois que de telles données existent. Un instrument financier est classé au niveau le plus bas de la hiérarchie pour lequel une donnée importante a été prise en compte dans l'évaluation de la juste valeur.

Le tableau suivant présente les instruments financiers comptabilisés à la juste valeur au bilan classés selon la hiérarchie d'évaluation décrite cidessus :

|                          | Level 1/ | Level 2/ | Level 3/ | Total<br>financial<br>assets at fair<br>value/<br>Total des<br>actifs<br>financiers à |                           |  |

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 1 Schedule 1 Page 1 of 2

## Rate Base Overview

#### 2 Definition of Rate Base

3 Rate base is defined as the net fixed assets at year-end plus a working capital 4 allowance. The working capital allowance included in the rate base is 15% of the sum of 5 the cost of power and controllable expenses. Controllable expenses are defined as the 6 sum of Operations and Maintenance, Billing and Collection, and Administration 7 expenses.

#### 8 Company Specifics

9 Hydro 2000's proposed rate base for 2012 is in the amount of \$963,469

10 The Rate Base trend table presented in the previous schedule (Table 2.1.1) shows the

11 trend in Hydro 2000's rate base, which has increased from \$735,075 in its 2008 Cost of

12 Service to \$963,468 in this application.

Hydro 2000's Rate Base remained relatively steady between 2008 and 2010. In fact, the
Rate Base for 2010 was slightly lower than the 2008 Board Approved.

15 In 2011, the Rate Base increase by 15% or 108K in comparison with 2010's Rate Base.

16 The main reason behind this increase is a rise in the utility's working capital allowance,

17 which is primarily due to the increase in OM&A. Details of the rise in OM&A are

18 presented at Exhibit 4.

19 Details of the utility's Working Capital Allowance is presented at Exhibit 2, Tab 5.

Hydro 2000's Rate Base is projected to increase by another 15% or 122K in 2012. The
primary reason for this increase is the inclusion of Smart Meter Related Capital
Expenditures into 2012's Rate Base. Further details on the topic of Smart Meters are
presented at Exhibit 9 Tab 3.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 1 Schedule 1 Page 2 of 2

- 1 The balance of the change reflects growth in Net Fixed Assets, mainly due to regular
- 2 maintenance to its distribution system. Investments are described at Exhibit 2, Tab 4,
- 3 Schedule 1. Detailed variances of each account are explained in greater detail in Tab 3.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 1 Schedule 2 Page 1 of 2

## Rate Base Variance Table

The Rate Base variance table presented in the previous schedule (Table 2.1.2) shows
year over year variances in Hydro 2000's Rate Base.

5

1

2

6 Variances in Fixed Asset balances are described in Exhibit 2 Tab 3 Schedule 1.
7 Variances in the Working Capital Allowance are described in Exhibit 2 Tab 5 Schedule 1.

#### 8 2012 Test Year vs. 2011 Bridge Year

9 The projected rate base in 2012 of \$963,469 is \$123K higher than in 2011. \$20K of the 10 difference is due to higher Working Capital Allowance which in turn is due to higher 11 OM&A. Details of OM&A can be found at Exhibit 4.The bulk of the increase (102K) is 12 due to the inclusion of Smart Meter Related Assets in the amount of 223,058 into the 13 utility's Rate Base. Details of Smart Meters can be found at Exhibit 9, Tab 5.

#### 14 2011 Bridge Year vs. 2010 Actual

The projected rate base in 2011 of \$840,485 is \$109K higher than in 2010. \$104K of the
difference is due to higher Working Capital Allowance which in due to higher OM&A.
Details of OM&A can be found at Exhibit 4.

#### 18 2010 Test Year vs. 2009 Actual

The rate base in 2010 of \$731,600 was \$48K lower than 2009. The increase of \$17K in Average Fixed Asset was offset by a reduction of 65K in Working Capital Allowance. The investment in capital assets reflects maintenance in poles/towers and computer software while the utility's Working Capital Allowance was reduced due to a decrease in OM&A in that particular year. Details of OM&A can be found at Exhibit 4

24

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 1 Schedule 2 Page 2 of 2

#### 1 2009 Actual Year vs. 2008 Actual

- 2 The rate base in 2009 of \$779,141 was \$8K higher than the 2008 Actual. \$19K of the
- 3 difference arose from a higher Working Capital Allowance. The increase in WCA was
- 4 offset by a decrease of 11K in the utility's Average Net Fixed Assets.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 2 Schedule 1 Page 1 of 1

## **Capitalization Policy**

1 2

Hydro 2000 does not maintain a formal policy on capitalization. Hydro 2000's approach
to capitalization can be summarized as follows:

5

Hydro 2000 capitalizes spending in fixed assets in accordance with the
 applicable criteria defined by Canadian Generally Accepted Accounting
 Principles.

9 Direct labour is capitalized based on an hourly rate which reflects its fully
10 burdened cost.

11 • No additional amounts for indirect overheads are capitalized.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 2 Schedule 2 Page 1 of 1

## Asset Retirement Policy

1 2

Hydro 2000 generally retires capital assets from its balance sheet when these assets are
no longer in service. There is one exception in this rate application, for legacy meters
that will be removed from service with the deployment of smart meters. In accordance
with Board policy, these assets have been removed from rate base. Hydro 2000 seeks
approval of its disposition of Hydro 2000's stranded costs for legacy meters. Details can
be found at Exhibit 9.

9

Hydro 2000's assets are primarily related to overhead/underground poles and its
supporting devices as well as office related equipment. Hydro 2000 does not own
service vehicles. It employs an external contractor to maintain its distribution system.

13

14 Hydro 2000 has no Asset Retirement Obligations at this time.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 2 Schedule 3 Page 1 of 1

## **Depreciation Policy**

- 1
- 2

Hydro 2000 depreciates capital assets based on the estimated average useful lives of its
assets. The estimated average useful lives of various asset categories are consistent

- 5 with Board policy.
- 6

7 For both financial reporting purposes and rate making purposes, Hydro 2000 applies the

8 half-year rule for depreciation. This has been done so since the previous cost of service

9 application.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 2 Schedule 4 Page 1 of 1

## Capital Contribution Policy

1 2

To date, Hydro 2000 has maintained a legacy practice of recovering incremental costs
for system expansions through economic evaluation.

5

The economic evaluation model, developed by the EDA, uses costs provided by Hydro
2000, estimates the revenues based on service charges and calculates developer
contribution. Capital Contributions are collected in accordance with the Distribution
System Code and Hydro 2000's Conditions of Service.

#### Gross Assets Overview Table

3 The Gross Asset variance table presented in the previous schedule (Table 2.3.1) depicts 4 Hydro 2000's trend in Gross Assets, which has increased from \$735,075.00 in the 2008 5 Cost of Service to \$1,082,126 in this application. Without Smart Meter Capital related 6 Assets which were transferred out of 1555-Smart meters Capital Variance Account, this 7 represents an average increase per year of 45K. The increase from its 2008 Cost of 8 Service arose mainly from an obligation to replace aging poles and devices on a yearly 9 basis. The entire overhead distribution system is subject to ESA inspection every year 10 while the entire underground distribution system is inspected every 3 years. Hydro 2000 11 normally budgets for approximately 5 pole replacements per year as well as 1 12 transformer. Results of the inspection aid the utility in forecasting system 13 maintenance/betterment for a 5 year span.

14

1

2

Hydro 2000 invested in new office equipment when it moved to its new location. Hydro 2000's previous offices were approximately 400square feet. With the increasing regulatory demands of CDM, Smart Meter training and IESO compliance, Hydro 2000 needed extra office space to accommodate its new part-time employee. A multi-use conference room was also required to accommodate external consultants, webinars and Board of Director meetings. The new office is approximately 1200 square feet.

21

In addition, Hydro 2000 upgraded its computer software and hardware when it was
forced to convert from Advanced CIS to Harris Northstar CIS and billing system.

24

25 Year over year variances are explained in greater detail in Schedule 2.

26

27 Details of the increase of 223,058 in 2012 due to the transfer of Smart Meter related

28 Capital Assets from account 1555 are discussed in detail at Exhibit 9, Tab 3.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 3 Schedule 2 Page 1 of 2

## Gross Assets Variance Table

1 2

3 The previous table (2.3.2) shows the annual variances in the balances for gross capital

4 assets. The investments leading to increases in specific account balances are described

5 in Exhibit 2, Tab 4: Schedule 3.

## 6 2012 Test Year vs. 2011 Bridge Year:

7 The total projected ending balance in 2012 of \$1,182,126 is \$279K greater than 2011. 8 The increase is primarily due to the inclusion of Smart Meter related Assets into the 9 utility's Rate Base while the balance is due to material increases in *poles and fixtures* 10 and associated *overhead conductor and devices*. As a norm, Hydro 2000 budgets for the 11 replacement of 5 poles per year. Hydro 2000 is also looking to replace a defective 12 transformer at the cost of 5K.

## 13 2011 Bridge Year vs. 2010 Actual:

14 The total ending balance of \$903K in 2011 was \$27K greater than in 2010. Similarly to 15 2012 part of the reason for the increase is primarily due to material increases in *poles* 16 and fixtures and associated overhead conductor and devices. Hydro 2000's offices 17 moved to a slightly larger location and therefore purchased additional office furniture to 18 furnish the new office as well as to accommodate the part-time employee. Hydro 2000's 19 new offices needed renovations, maintenance and upgrades before they could be used. 20 Lastly, as per the minimum filling requirements, Hydro 2000 removed stranded meters 21 from account 1860 and then added Smart Meter related Capital Assets back into 1860. 22 Further details of this transaction can be found at Exhibit 2 Tab 3 Schedule 5.

## 23 2010 Actual vs. 2009 Actual:

The total ending balance of \$875K in 2010 was \$62K greater than in 2009. Similarly to 25 2012 the increase is primarily due to material increases in *poles and fixtures* and 26 associated *overhead conductor and devices*. Hydro 2000 invested in software to 27 accommodate their new CIS system.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 3 Schedule 2 Page 2 of 2

#### 1 **2009 Actual vs. 2008 Actual:**

The ending balance in 2009 was \$813K, \$79K greater than 2008. The increases included *Poles, Towers and Fixtures* as well as *Overhead conductors/devices* was the primary reason for this increase. Hydro 2000 also invested it upgrading and maintaining its underground distribution system (19K) Investments were required following an inspection from the ESA.

<sup>1</sup> Provide a Fixed Asset Continuity Schedule for 5 historic Years, Bridge Year and Test Year

Notes:

1 Tables in the format outlined above covering all fixed asset accounts should be submitted for the Test Year, Bridge Year and all relevant historical years. At a minimum, the applicant must provide data for the earlier of: 1) all historical years back to its last rebasing; or 2) at least three years of historical actuals, in addition to Bridge Year and Test Year forecasts.

2 The "CCA Class" for fixed assets should agree with the CCA Class used for tax purposes in Tax Returns. Fixed Assets sub-components may be used where the underlying asset components are classified under multiple CCA Classes for tax purposes. If an applicant uses any different classes from those shown in the table, an explanation should be provided. (also see note 3 below).

<sup>1</sup> Provide a Fixed Asset Continuity Schedule for 5 historic Years, Bridge Year and Test Year

#### Notes:

<sup>1</sup> Tables in the format outlined above covering all fixed asset accounts should be submitted for the Test Year, Bridge Year and all relevant historical years. At a minimum, the applicant must provide data for the earlier of: 1) all historical years back to its last rebasing; or 2) at least three years of historical actuals, in addition to Bridge Year and Test Year forecasts.

<sup>2</sup> The "CCA Class" for fixed assets should agree with the CCA Class used for tax purposes in Tax Returns. Fixed Assets sub-components may be used where the underlying asset components are classified under multiple CCA Classes for tax purposes. If an applicant uses any different classes from those shown in the table, an explanation should be provided. (also see note 3 below).

<sup>1</sup> Provide a Fixed Asset Continuity Schedule for 5 historic Years, Bridge Year and Test Year

Notes:

1 Tables in the format outlined above covering all fixed asset accounts should be submitted for the Test Year, Bridge Year and all relevant historical years. At a minimum, the applicant must provide data for the earlier of: 1) all historical years back to its last rebasing; or 2) at least three years of historical actuals, in addition to Bridge Year and Test Year forecasts.

2 The "CCA Class" for fixed assets should agree with the CCA class used for tax purposes in Tax Returns. Fixed Assets sub-components may be used where the underlying asset components are classified under multiple CCA Classes for tax purposes. If an applicant uses any different classes from those shown in the table, an explanation should be provided. (also see note 3 below).

<sup>1</sup> Provide a Fixed Asset Continuity Schedule for 5 historic Years, Bridge Year and Test Year

Notes:

1 Tables in the format outlined above covering all fixed asset accounts should be submitted for the Test Year, Bridge Year and all relevant historical years. At a minimum, the applicant must provide data for the earlier of: 1) all historical years back to its last rebasing; or 2) at least three years of historical actuals, in addition to Bridge Year and Test Year forecasts.

2 The "CCA Class" for fixed assets should agree with the CCA class used for tax purposes in Tax Returns. Fixed Assets sub-components may be used where the underlying asset components are classified under multiple CCA Classes for tax purposes. If an applicant uses any different classes from those shown in the table, an explanation should be provided. (also see note 3 below).

## Capital Asset Amortization Table

- 1 2
- 3 Definition

4 The purpose of the accumulated depreciation account is to reduce the carrying value of

5 an assets to reflect the loss of value due to wear, tear, and usage.

6

## 7 <u>Utility Specifics</u>

8 The calculation of Hydro 2000's annual amortization expense is presented in Exhibit 4,

9 Tab 7. The following table summarizes annual expense amounts on this basis calculated

10 on this basis:

11

| 2008 Board Approved | -296,647 |
|---------------------|----------|
| 2008 Actual         | -321,666 |
| 2009 Actual         | -374,148 |
| 2010 Actual         | -432,329 |
| 2011 Bridge         | -496,778 |
| 2012 Test           | -566,346 |

12

13 As described earlier, Hydro 2000 has applied the half-year rule for rate-setting purposes

and uses the Board prescribed rates to calculate its amortization expenses andaccumulated depreciation.

2

## 7 Company Specifics

8 Table 2.3.3 presented at schedule 3 of this exhibit shows continuity statements for fixed

9 assets, from the previously approved 2008 EDR balances to the projected 2012 year-

10 end balances. Explanations for annual balance changes in excess of the materiality

11 threshold are provided in Schedule 4 (Capital Plan).

# Treatment of Stranded Assets Related to Smart Meter Deployment

In the minimum filing requirements<sup>1</sup>, The Board's states that the *Smart Meter Funding and Cost Recovery* (G-2008-0002) provides two options to distributors regarding the
 accounting treatment for stranded meters related to the installation of smart meters:

- (Scenario A) If the stranded meter costs were transferred to "Sub-account
   Stranded Meter Costs" of Account 1555;.or
- (Scenario B) If the stranded meter costs remained recorded in Account 1860.

9 Hydro 2000 attests that its utility falls under Scenario B as the stranded meters have,10 until now, resided in Account 1860 - Meters.

- 11 Appendix 2-R of the Board's Appendices shown at the next page presents the value of
- 12 Hydro 2000's stranded smart meters:

1 2

Appendix 2-R requests that utilities complete the following information relating to the treatment of the utility's stranded meters.

- A description of the accounting treatment followed by the applicant on stranded
   meter costs for financial accounting and reporting purposes.
- 6 Thus far, stranded meters were included in account 1860 and therefore 7 were treated accordance with CGAAP with the same accounting rules as 8 standard meters.
- 9 Hydro 2000 transferred net balances as 2009, when the bulk of the smart
  10 meters were installed. \$18,242 was removed from Account 1860-Meters
- The amount of the pooled residual net book value of the removed from service
   stranded meters, less any contributed capital (net of accumulated amortization),
   and less any net proceeds from sales, as of December 31, 2010.
- 14The amount of pooled residual net book value as of December 31st, 201015is in the amount of \$18,242.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 3 Schedule 5 Page 3 of 5

1

3. A statement as to whether or not the recording of depreciation expenses
continued in order to reduce the net book value through accumulated
depreciation. If so, provision of the total (cumulative) depreciation expense for
the period from the time that the meters became stranded to December 31, 2010.

- 6 Smart meters were fully installed by the end of 2009. The 2010 7 depreciation expense was \$3,775.
- 8 4. If no depreciation expenses were recorded to reduce the net book value of
  9 stranded meters through accumulated depreciation, the total (cumulative)
  10 depreciation expense amount that would have been applicable for the period
  11 from the time that the meters became stranded to December 31, 2010.
- 12 N/A Please see question #3 above.
- 5. The estimated amount of the pooled residual net book value of the removed from
  service meters, less any net proceeds from sales and contributed capital, at the
  time when smart meters will have been fully deployed. If the smart meters have
  been fully deployed, please provide the actual amount.
- 17 The estimated net amount at end of 2009 was \$22,017.
- 18

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 3 Schedule 5 Page 4 of 5

1

6. A description as to how the applicant intends to recover in rates the costs for
stranded meters, including the proposed accounting treatment, the proposed
disposition period and the associated bill impacts.

5 The applicant intends to recover the cost of the Stranded Meters through 6 a Rate Rider. The proposed recovery period is 4 years. Calculations of 7 the proposed rate rider are presented at Table 1 below

8

| Net Book Valuet:                                                                                      | 18,242                                   |                                 |                          |                                           |                                              |                          |

#### **Table 1: Stranded Meter Rate Rider**

9

10 Although the amount may seem relatively small, Hydro 2000's is of the 11 opinion that if balances are owed to the customers, the utility prefers a 12 shorter disposition period as it provides its customer with immediate relief 13 while if the amount needs to be collected, a longer disposition period is 14 preferred in order to soften the bill impacts.

Distributors should also provide the Net Book Value per class of meter as of
 December 31, 2010 as well as the number of meters that were removed /

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 3 Schedule 5 Page 5 of 5

stranded. In preparing this information, distributors should review the Board's
 letter of January 16, 2007 Stranded Meter Costs Related to the Installation of
 Smart Meters which stated that records were to be kept of the type and number
 of each meter to support the stranded meter costs.

5

## Table 2: Net Book Value by class

| Class          | Meters | Net book Value |
|----------------|--------|----------------|
| Residential    | 1027   | \$13,458       |
| GS<50kW        | 140    | \$3,997        |
| GS>50kW-4999kW | 11     | \$787          |

## Tab 4 (of 6): Capital Plan

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 4 Schedule 1 Page 1 of 2

## **Project/Program Classification**

1 2

The first section of this schedule provides brief overview of the project classification
followed by a description of actual capital project spending from 2008 to 2012.
Attachment 1 presents annual summaries of capital spending by project and account.

6

## 7

8

9 This classification defines projects that are deemed necessary to maintain the steady 10 and continuous delivery of power throughout Hydro 2000's service area. These projects 11 are done in accordance with section 4.4.1 of the Distribution System Code (the "DSC") 12 which states;

SAFETY, RELIABILITY AND CONTINUITY OF SERVICE

"4.4.1. A distributor shall maintain its distribution system in accordance with good utility
practice and performance standards to ensure reliability and quality of electricity service
on both a short-term and long-term basis."

16

## 17 **GROWTH DRIVEN**:

18

19 These are projects that the Applicant undertakes to meet its customer service 20 obligations in accordance with the OEB's DSC. Activities include all overhead and 21 underground works to connect new customers or service upgrades, connection and 22 inspection of new subdivisions and relocating system plant for roadway reconstruction 23 work. Such projects involved load growth caused by new customer connections and 24 increased demand of existing customers over time can result in a need for capacity 25 improvements on the system. Projects can take the form of new or upgraded feeders, 26 transformers or transformer stations.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 4 Schedule 1 Page 2 of 2

## 2 GOVERNMENT DRIVEN.

3

1

Government Driven projects are requested or mandated by government, regulators or
municipalities. Compliance with these projects are for the most part, necessary in order
to maintain compliance. These projects are considered out of the utility's control. These
project also include recommendations and orders from the ESA following yearly
inspections.

## Investment Planning Process and Strategy

1 2

> Hydro 2000 does not currently have a formal asset management plan in place. Asset betterment requirements are reviewed on an annual basis as part of the capital budgeting process. The size of the utility and the relatively small service area allows staff to have a good understanding of the condition of the system and the work plan required to maintain the system in reliable and safe order. The utility is currently working on its own asset management process which involves documenting the location, conditions and age of every pole, transformer and other assets.

10

Hydro 2000 uses various tools to aid in this work; a three year inspection of the
underground system and a yearly visual inspection of the overhead distribution system
as required by the Distribution System code.

14

Hydro 2000's investment planning deals primarily with renewing aging or defective
equipment. Hydro 2000 reviews historical patterns in order to forecast its future
investments.

18

Hydro 2000 has also taken a keen interest in the report prepared by KPMG as part of the OEB's review of Asset Management practices, which states: Smaller utilities should work toward the same objectives (e.g. optimized lifecycle costing, high reliability, and high standards of safety). The utility uses the survey to improve its asset management process. Hydro 2000 is of the opinion that the in-house development of a simplified, less formalized processes of keeping track of its asset condition suffices for a relatively small utility.

6 7

3 Please find below Hydro 2000's Capital Project Tables presenting classification, need

4 and scope for the utility's capital expenditures. Note that the totals presented in the

5 summary table do not include capital contribution<sup>1</sup>

## **Capital Additions for 2009**

| Account Description                      | USA Acct | Total        |
|------------------------------------------|----------|--------------|
| Poles, Towers & Fixtures                 | 1830     | \$44,456.75  |
| <b>Overhead Conductors &amp; Devices</b> | 1835     | \$10,819.75  |
| Underground Conductors & Devices         | 1845     | \$19,909.64  |
| Line Transformers                        | 1850     | \$17,484.40  |
| Services                                 | 1855     | \$8,607.25   |
| Meters                                   | 1860     | \$4,616.00   |
| Office Furniture                         | 1915     | \$297.00     |
| Computer Hardware                        | 1920     | \$1,049.93   |
| Computer Software                        | 1925     | \$2,045.47   |
| TOTAL                                    |          | \$109,286.19 |

#### 8

## 10 Project #1 – Pole Replacement

| Account & Description   | Amount     |
|-------------------------|------------|
| 1830-Poles and Fixtures | \$4,152.00 |
| TOTAL                   | \$4,152.00 |

- 12 **Classification:** Safety and Reliability and Continuity of Service
- 13 **Need:** Asset Maintenance
- 14 Scope: Pole replacement at corner of St-Placid and replacement of cross arms at St-
- 15 Paul and St-John. Pole and cross arms showed signs of deterioration.

<sup>&</sup>lt;sup>1</sup> Capital contributions are taken into account for rate making purposes.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 4 Schedule 3 Page 2 of 27

1

## 2 **Project #2 – Maintenance program (yearly visual inspection)**

| Account & Description              | Amount      |
|------------------------------------|-------------|
| 1830-Poles and Fixtures            | \$4,750.00  |
| 1835-Overhead Conductor Devices    | \$3,759.50  |
| 1845-Underground Conductor Devices | \$6,284.35  |
| TOTAL                              | \$14,793.85 |

3

## 4 Classification: Safety and Reliability and Continuity of Service

#### 5 **Need:** Asset Maintenance

6 Scope: Following the yearly inspection conducted by the ESA, Hydro 2000 replaced

7 several poles, fixtures and associated devices that showed signs of deterioration and/or

- 8 wear and tear.
- 9

## 10 **Project #3 – Pole Replacement**

| Account & Description   | Amount     |
|-------------------------|------------|
| 1830-Poles and Fixtures | \$7,355.00 |
| TOTAL                   | \$7,355.00 |

11

- 12 **Classification:** Safety and Reliability and Continuity of Service
- 13 Need: Asset Maintenance

Scope: Pole replacement at 806 Station Road. Pole and cross arms showed signs ofdeterioration.

16

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 4 Schedule 3 Page 3 of 27

## 1 Project #4 – Pole and Cross Arm replacement

| Account & Description   | Amount      |
|-------------------------|-------------|
| 1830-Poles and Fixtures | \$12,786.00 |
| TOTAL                   | \$12,786.00 |

2

## 3 **Classification:** Safety and Reliability and Continuity of Service

- 4 Need: Asset Maintenance
- 5 Scope: Work for this particular project involved replacing cross arms at station road,
- 6 replace a transformer at station road and replace an insulator at 360 St-Philippe

7

## 8 Project #5 – Line improvement

| Account & Description   | Amount      |
|-------------------------|-------------|
| 1830-Poles and Fixtures | \$11,068.00 |
| TOTAL                   | \$11,068.00 |

9

- 10 Classification: Safety and Reliability and Continuity of Service
- 11 Need: Asset Maintenance
- 12 **Scope:** Work involved line improvement between Water Street and Nation River.

13

## 14 **Project #6 – Pole and Cross Arm replacement**

| Account & Description   | Amount     |
|-------------------------|------------|
| 1830-Poles and Fixtures | \$1737.00  |
| 1830-Poles and Fixtures | \$684.00   |
| TOTAL                   | \$2,542.00 |

- 16 Classification: Safety and Reliability and Continuity of Service
- 17 Need: Asset Maintenance

Scope: Upgrade of the distribution line to accommodate the new subdivision approved
 in 1960. Although it is technically a subdivision, the lots were severed in 1960 and
 therefore each customer is individually connected to Hydro 2000's distribution system.

4

## 5 Project #7 – New Service

| Account & Description   | Amount     |
|-------------------------|------------|
| 1830-Poles and Fixtures | \$2,60800  |
| TOTAL                   | \$2,608.00 |

6

## 7 Classification: Growth

8 **Need:** Installation of new service.

9 **Scope:** Work involved installation of pole and overhead device to accommodate a new

10 service.

11

## 12 Project #8 – Pole and Cross Arm replacement

| Account & Description           | Amount     |
|---------------------------------|------------|
| 1835-Overhead Conductor Devices | \$1,702.00 |
| 1855- Service                   | \$748.50   |
| TOTAL                           | \$2,450.00 |

- 14 Classification: Safety and Reliability and Continuity of Service
- 15 **Need:** Asset Maintenance / New Service
- 16 **Scope:** Work involved repairing burnt wire on secondary bus for a new connection at
- 17 795 Concession

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 4 Schedule 3 Page 5 of 27

1

#### 2 **Project #9 – Broken Post Insulator at St-Philippe**

| Account & Description            | Amount     |
|----------------------------------|------------|
| 1835-Overhead Conductors Devices | \$1,347.00 |
| TOTAL                            | \$1,347.00 |

3

#### 4 **Classification:** Safety and Reliability and Continuity of Service

- 5 **Need:** Asset Maintenance
- 6 **Scope:** Work for this particular project involved replacing a post insolator at the corner
- 7 of St-Philippe and Bourgeois.
- 8

#### 9 Project #10 – Repair of Overhead Device

| Account & Description            | Amount   |
|----------------------------------|----------|
| 1835-Overhead Conductors Devices | \$324.00 |
| TOTAL                            | \$324.00 |

#### 10

- 11 **Classification:** Safety and Reliability and Continuity of Service
- 12 Need: Asset Maintenance
- 13 **Scope:** Work for this particular project involved replacing a lightening arrestor.
- 14

#### 15 **Project #11 – New Service**

| Account & Description          | Amount     |
|--------------------------------|------------|
| 1835-Overhead Conductor Device | \$1,303.00 |
| 1835-Overhead Conductor Device | \$1,698.75 |
| 1855-New Service               | 266.75     |
| TOTAL                          | \$1,648.00 |

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 4 Schedule 3 Page 6 of 27

- 1 Classification: Safety and Reliability and Continuity of Service / new service
- 2 **Need:** New Service

3 Scope: This work involved connection of a new service at 815 Station Rd in
4 Plantagenet as well as connection of new service at 860 Concession.. This project
5 involved installation of traverse pole to supply the customer and adjoining property.

6

#### 7 **Project #12 – Lalonde Subdivision**

| Account & Description              | Amount      |
|------------------------------------|-------------|
| 1845-Underground Conductor Devices | \$12,606.00 |
| 1845-Underground Conductor Devices | \$1,009.29  |
| 1850-Line Transformation           | 1544.40     |
| TOTAL                              | \$15,159.00 |

8

#### 9 Classification: Growth

#### 10 **Need:** Connection of a new subdivision

11 **Scope:** Work for this particular project involved underground device to accommodate a

12 new subdivision.

13

#### 14 **Project #13 – Transfer from inventory**

| Account & Description    | Amount      |
|--------------------------|-------------|
| 1850-Line TransformatiOn | \$13,660.00 |
| TOTAL                    | \$13,660.00 |

15

#### 16 Classification: Safety and Reliability and Continuity of Service / new service

- 17 **Need:** transfer from inventory to books
- 18 **Scope:** Inventory not previously in the books was entered into accounting system.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 4 Schedule 3 Page 7 of 27

1

### 2 Project #14 – Replacement of transformer at Guelph University Alfred

#### 3 Campus

| Account & Description    | Amount     |
|--------------------------|------------|
| 1850-Line TransformatiOn | \$2,280.00 |
| TOTAL                    | \$2,280.00 |

4

5 **Classification:** Safety and Reliability and Continuity of Service

#### 6 **Need:** Asset Maintenance

- 7 Scope: Work for this particular project involved replacing a broken transformer at the
- 8 Guelph University Alfred Campus.

9

#### 10 Project #15 – New Service

| Account & Description | Amount     |
|-----------------------|------------|
| 1855-New Service      | \$524.00   |
| 1855-New Service      | \$179.00   |
| 1855-New Service      | \$200.00   |
| 1855-New Service      | \$400.00   |
| TOTAL                 | \$1,303.00 |

11

- 12 **Classification:** Safety and Reliability and Continuity of Service / new service
- 13 **Need:** New Service and line improvement
- Scope: This work involved connection and improvement of an exisiting line at MarinaLalonde

16

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 4 Schedule 3 Page 8 of 27

#### 1 Project #16 – New Service

| Account & Description | Amount     |
|-----------------------|------------|
| 1855-New Service      | \$6,289.00 |
| TOTAL                 | \$6,289.00 |

2

3 **Classification:** Safety and Reliability and Continuity of Service / new service

- 4 **Need:** New Service and line improvement
- 5 **Scope:** This work involved connection and improvement of an exisiting line at Marina
- 6 Lalonde

7

#### 8 **Project #17 – New Transformer and meter**

| Account & Description | Amount     |
|-----------------------|------------|
| 1860-Meters           | \$1,376.00 |
| 1860-Meters           | \$3240.00  |
| TOTAL                 | \$4,616.00 |

9

- 10 **Classification:** Safety and Reliability and Continuity of Service
- 11 **Need:** Asset Maintenance

12 Scope: Work for this particular project involved replacement of a meter and13 transformer.

14

15

#### 16 **Project #18 – Office Equipment desk**

| Account & Description | Amount   |
|-----------------------|----------|
| 1915 – office desk    | \$297.00 |
| TOTAL                 | \$297.00 |

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 4 Schedule 3 Page 9 of 27

- 1 **Classification:** Safety and Reliability and Continuity of Service
- 2 **Need:** Replace an old desk
- 3 Scope: A new desk was needed for the office
- 4

#### 5 **Project #19-27 – Computer Hardware and Software Upgrade**

| Account & Description            | Amount    |
|----------------------------------|-----------|
| 1920-Computer Equipment Hardware | \$163.35  |
| 1920-Computer Equipment Hardware | \$414.72  |
| 1920-Computer Equipment Hardware | \$123.12  |
| 1920-Computer Equipment Hardware | \$348.74  |
| 1925-Computer Software           | 187.50    |
| 1925-Computer Software           | 113.40    |
| 1925-Computer Software           | 43.20     |
| 1925-Computer Software           | 281.25    |
| 1925-Computer Software           | 189.81    |
| 1925-Computer Software           | 1230.31   |
|                                  |           |
| TOTAL                            | \$3095.40 |

6

7 Classification: Safety and Reliability and Continuity of Service / new service

8 **Need:** Necessary expenses related to computer hardware and software

9 Scope: These computer related expenses. It involved purchases such as; video driver
10 for webex and training courses; battery backup ES series; Printer replacement drum
11 (Brother MFC-9440CN); ACC PAC assistance ; Antivirus; KVM Switch + setup; Harris
12 CWIP.

13

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 4 Schedule 3 Page 10 of 27

#### 1

#### **Capital Additions for 2010**

| Account Description                         | USA Acct | Total        |
|---------------------------------------------|----------|--------------|
| Poles, Towers & Fixtures                    | 1830     | \$ 8,839.25  |
| <b>Overhead Conductors &amp; Devices</b>    | 1835     | \$ 25,886.00 |
| <b>Underground Conductors &amp; Devices</b> | 1845     | \$ 220,00    |
| Line Transformers                           | 1850     | \$6,428.00   |
| Services                                    | 1855     | \$5,383.26   |
| Office Furniture and Equipment              | 1860     | \$461.70     |
| Computer Hardware                           | 1915     | \$7,133.01   |
| Computer Software                           | 1925     | \$15,865.94  |
| TOTAL                                       |          | 70,217.00 \$ |

2

#### 3 **Project #1 – Pole Replacement**

| Account & Description     | Amount     |
|---------------------------|------------|
| 1830 – Poles and Fixtures | \$4,000.00 |
| TOTAL                     | \$4,000.00 |

4

#### 5 **Classification:** Safety and Reliability and Continuity of Service

- 6 **Need:** Asset Maintenance
- 7 Scope: Work involved replacement of 2 poles at 130 St-Joseph

8

#### 9 **Project #2 – Pole Replacement**

| Account & Description     | Amount     |
|---------------------------|------------|
| 1830 – Poles and Fixtures | \$1,670.00 |
| TOTAL                     | \$1,670.00 |

- 10
- 11 **Classification:** Safety and Reliability and Continuity of Service
- 12 Need: Asset Maintenance
- 13 Scope: Work involved pole replacement at 295 Water St

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 4 Schedule 3 Page 11 of 27

1

#### 2 Project #3 – Install of Fuses and Guard

| Account & Description     | Amount     |
|---------------------------|------------|
| 1830 – Poles and Fixtures | \$3,169.25 |
| TOTAL                     | \$3,169.25 |

3

#### 4 Classification: Safety and Reliability and Continuity of Service

#### 5 Need: Asset Maintenance

6 **Scope:** Work involved replacing fuses and install guards at various locations.

#### 7

#### 8 **Project #4 – Defective insolators**

| Account & Description           | Amount      |
|---------------------------------|-------------|
| 1835 Overhead Conductor Devices | \$1,386.70  |
| 1835 Overhead Conductor Devices | \$14,220.32 |
| TOTAL                           | \$15,607.02 |

9

- 10 **Classification:** Safety and Reliability and Continuity of Service
- 11 **Need:** Asset Maintenance
- 12 **Scope:** Work involved replacement the following; replace defective insolator on primary
- 13 4.8kV on St-Philippe; replace 68lin post insolators.

14

#### 15 **Project #5 – Burnt line clamp**

| Account & Description           | Amount   |
|---------------------------------|----------|
| 1835 Overhead Conductor Devices | \$568.00 |
| TOTAL                           | \$568.00 |

16

17 Classification: Safety and Reliability and Continuity of Service

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 4 Schedule 3 Page 12 of 27

#### 1 Need: Asset Maintenance

2 **Scope:** Work involved replacing burnt line clamp and leg on transformer 599 St-Joseph

3

#### 4 **Project #6– Blown lightning Arrestor**

| Account & Description           | Amount   |
|---------------------------------|----------|
| 1835 Overhead Conductor Devices | \$193.00 |
| TOTAL                           | \$193.00 |

5

- 6 **Classification:** Safety and Reliability and Continuity of Service
- 7 Need: Asset Maintenance
- 8 **Scope:** Work involved replacing blown lighting arrestor at 320 St-Joseph

9

#### 10 **Project #7 – Travers installation**

| Account & Description           | Amount     |
|---------------------------------|------------|
| 1835 Overhead Conductor Devices | \$2,204.00 |
| TOTAL                           | \$2,204.00 |

11

- 12 **Classification:** Safety and Reliability and Continuity of Service
- 13 Need: Asset Maintenance
- 14 Scope: Work involved travers pole installation at 805 Station Rd

15

16 Project #5 – Burnt line clamp

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 4 Schedule 3 Page 13 of 27

#### 1 **Project #8 – Cable Install**

| Account & Description               | Amount   |
|-------------------------------------|----------|
| 1845 – Underground Conductor Device | \$220.00 |
| TOTAL                               | \$220.00 |

2

#### 3 **Classification:** Safety and Reliability and Continuity of Service

- 4 Need: Asset Maintenance
- 5 **Scope:** Work involved installing cable guard at the corner of Main and Concession.

#### 6

#### 7 **Project #9 – Line improvement**

| Account & Description           | Amount     |
|---------------------------------|------------|
| 1835 Overhead Conductor Devices | \$7,114.00 |
| TOTAL                           | \$7,114.00 |

8

- 9 Classification: Safety and Reliability and Continuity of Service
- 10 Need: Asset Maintenance
- 11 **Scope:** Work involved line improvements at 585 Albert Street and switch install at 145
- 12 Jessops Falls.
- 13

#### 14 **Project #10 – New transformer**

| Account & Description   | Amount   |
|-------------------------|----------|
| 1850 – Line Transformer | \$693.00 |
| TOTAL                   | \$693.00 |

- 16 **Classification:** Safety and Reliability and Continuity of Service
- 17 Need: Asset Maintenance

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 4 Schedule 3 Page 14 of 27

1 **Scope:** Work involved installation of a new transformer at St-Victor School

#### 2

#### 3 **Project #11 – New Transformer**

| Account & Description   | Amount   |
|-------------------------|----------|
| 1850 – Line Transformer | \$800.00 |
| TOTAL                   | \$800.00 |

4

- 5 Classification: Safety and Reliability and Continuity of Service
- 6 **Need:** Asset Maintenance
- 7 Scope: Purchase of 2 used transformers from Cooperative Embrun

8

#### 9 **Project #11 – New Transformer/Sproule**

| Account & Description   | Amount    |
|-------------------------|-----------|
| 1850 – Line Transformer | \$4935.00 |
| TOTAL                   | \$4935.00 |

10

- 11 **Classification:** Safety and Reliability and Continuity of Service
- 12 Need: Asset Maintenance
- 13 **Scope:** Purchase of transformers sproule.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 4 Schedule 3 Page 15 of 27

#### 1 Project #12 – New Service

| Account & Description | Amount     |
|-----------------------|------------|
| 1855 – Services       | \$455.50   |
| 1855 – Services       | \$83.25    |
| 1855 – Services       | \$541.00   |
| 1855 – Services       | \$698.75   |
| 1855 – Services       | \$700.00   |
| 1855 – Services       | \$456.50   |
| 1855 – Services       | \$300.00   |
| TOTAL                 | \$3,235.00 |

2

#### 3 **Classification:** Growth

- 4 **Need:** Connection of new services
- 5 **Scope:** Work involved various costs associated with new customer connection.

6

#### 7 **Project #13 – Interval Meters**

| Account & Description | Amount     |
|-----------------------|------------|
| 1855 – Meters         | \$2,148.00 |
| TOTAL                 | \$2,148.00 |

8

9 **Classification:** Safety and Reliability and Continuity of Service

#### 10 Need: Asset Maintenance

11 Scope: Work involved purchase and installation of interval meter for CDECO (school).

12

#### 13 Project #14 – Interval Meters

| Account & Description | Amount   |
|-----------------------|----------|
| 1915-Office Equipment | \$461.70 |
| TOTAL                 | \$461.70 |

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 4 Schedule 3 Page 16 of 27

- 1 **Classification:** Safety and Reliability and Continuity of Service
- 2 Need: Safety and Reliability and Continuity of Service
- 3 **Scope:** Purchased of new office equipment.
- 4

#### 5 **Project #15 – Computer hardware Upgrade**

| Account & Description              | Amount     |
|------------------------------------|------------|
| 1920 – Computer Equipment Hardware | \$7,133.00 |
| TOTAL                              | \$7,133.00 |

6

7 **Classification:** Safety and Reliability and Continuity of Service

8 Need: Upgrade of Computer Equipment, new back-up server

9 **Scope:** Hydro 2000 installed a backup service including required software and updates.

10 Hydro 2000 purchased keyboard and mouse for the backup server as well as a printer

11 drum. Also, Harris purchased "NorthStar" and thus Hydro 2000 was forced to convert

12 their billing software to Harris. Although Harris ultimately provided the software free of

13 charge, related costs included the purchase of necessary hardware.

14

15

#### 16 Project #16 – Computer Software Upgrade

| Account & Description    | Amount      |
|--------------------------|-------------|
| 1925 – Computer Software | \$14,300.00 |
| 1925 – Computer Software | \$492.07    |
| 1925 – Computer Software | \$152.55    |
| 1925 – Computer Software | \$386.00    |
| 1925 – Computer Software | \$396.00    |
| 1925 – Computer Software | \$139.32    |
| TOTAL                    | \$15,865.94 |

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 4 Schedule 3 Page 17 of 27

- 1 **Classification:** Safety and Reliability and Continuity of Service
- 2 **Need:** Replace Advanced CIS software
- 3 Scope: As mentioned above Harris purchased "NorthStar" and thus Hydro 2000 was
- 4 forced to convert their billing software to Harris. The 2010 related costs included 14,300
- 5 in conversion costs. Amongst other costs were; training and workshops.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 4 Schedule 3 Page 18 of 27

#### **Capital Additions for 2011**

| Account Description                         | USA Acct | Total     |
|---------------------------------------------|----------|-----------|
| Leasehold Improvements                      | 1810     | \$16,028  |
| Poles, Towers & Fixtures                    | 1830     | \$14,424  |
| <b>Overhead Conductors &amp; Devices</b>    | 1835     | \$19,840  |
| <b>Underground Conductors &amp; Devices</b> | 1845     | \$ 0      |
| Line Transformers                           | 1850     | \$5000    |
| Services                                    | 1855     | \$273     |
| Meters                                      | 1860     | \$222     |
| Office Furniture and Equipment              | 1915     | \$6,012   |
| Computer Hardware                           | 1920     | \$3,735   |
| Computer Software                           | 1925     | \$15,402  |
| TOTAL                                       |          | 80,936 \$ |

#### 2

1

#### 3 **Project #1 (and 10)– Office move**

| Account & Description         | Amount   |
|-------------------------------|----------|
| 1810 – Leasehold improvements | \$433    |
| 1810 – Leasehold improvements | \$800    |
| 1810 – Leasehold improvements | \$1,530  |
| 1810 – Leasehold improvements | \$290    |
| 1810 – Leasehold improvements | \$429    |
| 1810 – Leasehold improvements | \$547    |
| 1810 – Leasehold improvements | \$12,000 |
| TOTAL                         | \$16,028 |

4

#### 5 Classification: Safety and Reliability and Continuity of Service

#### 6 Need: Office Space

Scope: The work involved, new office sign, window blinds, paint, floor sealer and wax, Installation phone lines. Included in the 16K was the purchase of a generator for the office (12K). Prior to moving, Hydro 2000 shared its offices with the municipality. The previous office space was approximately 400 square feet. Larger offices were required to accommodate new part time staff. Hydro 2000 also needed a conference room to accommodate the Board of Director meetings that were previously held at the town's community centre.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 4 Schedule 3 Page 19 of 27

1

#### 2 **Project #2 – Pole Replacement**

| Account & Description     | Amount     |
|---------------------------|------------|
| 1830 – Poles and Fixtures | \$7,434.00 |
| TOTAL                     | \$7424.00  |

3

4 Classification: Safety and Reliability and Continuity of Service

#### 5 Need: Asset Maintenance

- 6 Scope: Work involved pole replacement pole replacement 550, St-Philippe (Alfred),
- 7 pole replacement 57 Laniel (Alfred), Install line switch Pine Crest (Plantagenet), Capital
- 8 expenditure 2010 visual inspection. Two other poles needed replacement.

9

#### 10 **Project #3 – Install of Fuses, Guards and Squeeze**

| Account & Description           | Amount   |
|---------------------------------|----------|
| 1835 Overhead Conductor Devices | \$461    |
| 1835 Overhead Conductor Devices | \$380    |
| TOTAL                           | \$19,841 |

11

#### 12 Classification: Safety and Reliability and Continuity of Service

#### 13 Need: Asset Maintenance

Scope: Work involved replacing fuses and install guards at various locations. It also
involved replacement of overhead devices related to the replacement of Poles, Towers
and Fixtures.

17

18

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 4 Schedule 3 Page 20 of 27

#### 1 **Project #4 – New Service**

| Account & Description | Amount |
|-----------------------|--------|
| 1855 – Services       | \$273  |
| TOTAL                 | \$273  |

2

#### 3 **Classification:** Growth

- 4 **Need:** Connection of new services
- 5 Scope: Work involved various costs associated with new customer connection at 465
- 6 Nation St (Plantagenet).

7

#### 8 Project #5 – Metering

| Account & Description | Amount |
|-----------------------|--------|
| 1855 – Meters         | \$222  |
| TOTAL                 | \$222  |

- 10 Classification: Safety and Reliability and Continuity of Service
- 11 Need: Asset Maintenance
- 12 **Scope:** Work involved purchase and installation of interval meter for CDECO.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 4 Schedule 3 Page 21 of 27

1

#### 2 Project #6 – Computer Software Upgrade

| Account & Description   | Amount |
|-------------------------|--------|
| 1915 – Office Equipment | \$664  |
| 1915 – Office Equipment | \$2718 |
| 1915 – Office Equipment | \$182  |
| 1915 – Office Equipment | \$145  |
| 1915 – Office Equipment | \$575  |
| 1915 – Office Equipment | \$62   |
| 1915 – Office Equipment | \$844  |
| 1915 – Office Equipment | \$616  |
| 1915 – Office Equipment | \$70   |
| 1915 – Office Equipment | \$134  |
| TOTAL                   | \$6012 |

3

- 4 **Classification:** Safety and Reliability and Continuity of Service
- 5 **Need:** New office equipment to accommodate the new location.
- 6 **Scope:** Various office equipment to accommodate the new location.

7

#### 8 Project #7 – Computer hardware Upgrade

| Account & Description              | Amount  |
|------------------------------------|---------|
| 1920 – Computer Equipment Hardware | \$70    |
| 1920 – Computer Equipment Hardware | \$180   |
| 1920 – Computer Equipment Hardware | \$2,557 |
| 1920 – Computer Equipment Hardware | \$928   |
| TOTAL                              | \$3,735 |

- 10 Classification: Safety and Reliability and Continuity of Service
- 11 **Need:** Upgrade of Computer Equipment, new back-up server
- 12 Scope: This work involved setting up of the board conference room, Replaced power
- 13 supply on computer, screen & computer conference rooms, Tape drive server

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 4 Schedule 3 Page 22 of 27

| 1925 – Computer Software | (\$159)  |
| 1925 – Computer Software | \$1500   |
| 1925 – Computer Software | \$1500   |
| 1925 – Computer Software | \$3100   |
| TOTAL                    | \$15,402 |

2

- 3 Classification: Safety and Reliability and Continuity of Service
- 4 Need: Replace Advanced CIS software
- 5 Scope: Harris Upgrade, Update office suite & Norton, ACC Pac update, Software
- 6 purchase, D&A Accpac software, Elenchus, Purchase & Install software, Tape backup,
- 7 Acc pac software, software credit, Website Design.

8

#### 9 **Project #10 – Generator**

| Account & Description      | Amount   |
|----------------------------|----------|
| 1810 Leasehold improvement | \$12,000 |
| TOTAL                      | \$12,000 |

- 11 **Classification:** Safety and Reliability and Continuity of Service
- 12 Need: Backup
- 13 **Scope:** Purchase of a backup generator for the office.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 4 Schedule 3 Page 23 of 27

#### 1 **Project #11 – Transformer**

| Account & Description | Amount  |
|-----------------------|---------|
| 1850 Transformer      | \$5,000 |
| TOTAL                 | \$5,000 |

2

#### 3 **Classification:** Safety and Reliability and Continuity of Service

- 4 Need: Asset Maintenance
- 5 **Scope:** The work involved purchase and replacement of a transformer.

#### 6

#### 7 **Project #12 – Pole Replacement**

| Account & Description    | Amount   |
|--------------------------|----------|
| 1830-Poles and Fixtures  | \$7,000  |
| 1855-Overhead conductors | \$5,000  |
| TOTAL                    | \$12,000 |

8

- 9 Classification: Safety and Reliability and Continuity of Service
- 10 **Need:** Asset Maintenance
- 11 **Scope:** The work involved the replacement of 2 aging/defective poles.
- 12

#### 13 **Project #13 – Maintenance on overhead conductor devices**

| Account & Description    | Amount   |
|--------------------------|----------|
| 1855-Overhead conductors | \$14,000 |
| TOTAL                    | \$14,000 |

- 15 **Classification:** Safety and Reliability and Continuity of Service
- 16 Need: Asset Maintenance

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 4 Schedule 3 Page 24 of 27

- 1 Scope: The work involved maintenance of Overhead distribution system following an
- 2 the yearly ESA inspection.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 4 Schedule 3 Page 25 of 27

1

2

#### **Capital Additions for 2012**

| Account Description                      | USA Acct | Total      |
|------------------------------------------|----------|------------|
| Poles, Towers & Fixtures                 | 1830     | \$15,000   |
| <b>Overhead Conductors &amp; Devices</b> | 1835     | \$23,000   |
| Line Transformers                        | 1850     | \$5,000    |
| Office Furniture and Equipment           | 1915     | \$1,000    |
| Computer Hardware                        | 1920     | \$3,000    |
| Computer Software                        | 1925     | \$9,000    |
| TOTAL                                    |          | \$56,000\$ |

3

#### 4 **Project #1 – Pole Replacement**

| Account & Description    | Amount   |
|--------------------------|----------|
| 1830-Poles and Fixtures  | \$15,000 |
| 1855-Overhead conductors | \$13,000 |
| TOTAL                    | \$28,000 |

5

- 6 **Classification:** Safety and Reliability and Continuity of Service
- 7 Need: Asset Maintenance
- 8 **Scope:** Hydro 2000 plans to replace approximately 5 poles in 2012.

9

#### 10 **Project #2 – Maintenance on overhead conductor devices**

| Account & Description    | Amount   |
|--------------------------|----------|
| 1855-Overhead conductors | \$10,000 |
| TOTAL                    | \$10,000 |

- 12 **Classification:** Safety and Reliability and Continuity of Service
- 13 **Need:** Asset Maintenance

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 4 Schedule 3 Page 26 of 27

- 1 **Scope:** Hydro 2000 plans on performing maintenance of Overhead distribution system
- 2 following its yearly ESA inspection.

3

#### 4 Project #3 – Transformer

| Account & Description | Amount  |
|-----------------------|---------|
| 1850 Transformer      | \$5,000 |
| TOTAL                 | \$5,000 |

5

- 6 Classification: Safety and Reliability and Continuity of Service
- 7 Need: Asset Maintenance
- 8 **Scope:** the utility budgets for the replacement of 1 transformer for the test year.

9

#### 10 **Project #4 - Office Equipment**

| Account & Description   | Amount |
|-------------------------|--------|
| 1915 – Office Equipment | \$1000 |
| TOTAL                   | \$1000 |

11

- 12 **Classification:** Safety and Reliability and Continuity of Service
- 13 **Need:** Office Equipment

Scope: The utility budgets a nominal amount for the purchase or replacement of officeequipment.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 4 Schedule 3 Page 27 of 27

#### 1 **Project #5 – Computer Equipment**

| Account & Description     | Amount  |
|---------------------------|---------|
| 1920 – Computer Equipment | \$3,000 |
| TOTAL                     | \$3,000 |

- 2
- 3 **Classification:** Safety and Reliability and Continuity of Service
- 4 **Need:** new laptop
- 5 Scope: The utility budgets for the replacement of the general manager's lap top. The
- 6 general manager's current laptop does not have a big enough hard drive nor enough
- 7 RAM to handle the increase in software and model complexities.

8

#### 9 **Project #6 – Computer Software**

| Account & Description    | Amount  |
|--------------------------|---------|
| 1925 – Computer Software | \$9,000 |
| TOTAL                    | \$9,000 |

10

- 11 Classification: Safety and Reliability and Continuity of Service
- 12 Need: CIS Upgrade
- 13 **Scope:** The utility anticipates an upgrade to its CIS software.

## Working Capital Allowance by Expense Account

2

Hydro 2000 acknowledges that the Board is reviewing the possibility of asking distributor
to file a lead/lag study to determine in 2013 and beyond.<sup>1</sup>

5

In an attempt to minimize regulatory expenses, Hydro 2000 opted to determine its
working capital allowance by applying the traditional 15% factor to projected eligible
expenses, which consist of power supply expenses and controllable expenses for OM&A
(Operations, Maintenance and Administration).

10

The previous table shows the calculation of the working capital allowance by account, for
the 2012 test year and preceding years since the previous Board-approved amount from
the 2008 Cost of Service.

14

Operating costs tend to be static across the various utilities in Ontario. In example, the cost of rebasing, cost of office furniture or the cost of a computer is the same for a large utility as it is for a small utility such as Hydro 2000. It is important keep in mind that variances for specific accounts can seem exaggerated when they are compared to relatively small overall totals.

20

#### 21 2012 Projection vs 2011 Actual

The projected working capital allowance of \$413K is \$21K higher than the 2011 amount. The variance arises mainly from slightly higher power supply expenses, and higher Administrative and General Expenses due primarily to the cost of rebasing and a provision for conversion to IFRS.

<sup>&</sup>lt;sup>1</sup> Chapter 2 of the Filing Requirements for Transmission and Distribution Applications issued July 22, 2011

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 5 Schedule 1 Page 2 of 2

#### 1 2011 Actual vs 2010 Actual

In 2011, the working capital allowance of \$393K was \$104K higher than the 2010
amount. The variance arose from a return to usual expenses in *Load Dispatching* and *Billing and Collecting*.

5

#### 6 2010 Actual vs 2009 Actual

The working capital allowance of \$288K in 2010 Acutal was \$64K lower than the 2009
amount. The variance arose from lower operating expense, specifically *Load Dispatching* and a return back to normal levels in the area of *Administrative and General Expenses*.

#### 11 2009 Actual vs 2008 Actual

In 2009, the working capital allowance of \$354K was \$19K higher than the 2008 amount.
The variance arose mainly from Billing and Collecting going back to its normal levels in
comparison to 2008 Actual. Hydro 2000 also increased its operation expenses to comply
with various regulatory requirements (i.e. Smart Meters) (see Exhibit 4, Tab 3, Schedule
1).

17

#### 18 2008 Actual vs 2008 Board Approved

The working capital allowance of \$334K for 2008 Actual was \$10K lower than the 2008
Board Approved. The variance arose mainly from an unusual decreased in *Billing and Collecting expenses* and *Administrative and General Expenses* (see Exhibit 4, Tab 3,
Schedule 1).

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 2 Tab 6

Exhibit 2: Rate Base

# Tab 6 (of 6): Service Quality and Reliability Performance

### 1 Analysis of Service Quality and Reliability Performance

2

Hydro 2000 reports its service quality indicators ("SQIs") annually to the Ontario Energy
Board. The SQIs are defined in Chapter 7 of the Distribution System Code. Hydro 2000
has met the minimum standards for all SQIs each year, as indicated in the following
table:

7 8

#### **Table 1: Service Quality Indicators**

| Service Quality Indicator                                | Minimum Standard                                                | 2008  | 2009   | 2010  | 2011  | 2012 |
|----------------------------------------------------------|-----------------------------------------------------------------|-------|--------|-------|-------|------|
| Connection of New Services – Low<br>Voltage              | 90% or better                                                   | 100%  | 100%   | 100%  | 100%  |      |
| Connection of New Service – High<br>Voltage              | 90% or better                                                   | 100%  | 100%   | 100%  | 100%  |      |

| CAIDI ( Customer Average<br>Interruption Duration Index) | Within the range of<br>performance over the<br>previous 3 years | .35   | 3.9    | 3.29  |       |      |
| Reliability Metrics – Excluding Loss o                   | f Supply                                                        |       |        |       |       |      |
| SAIDI (System Average Interruption<br>Duration Index)    |                                                                 | .41   | 3.86   | 3.24  |       |      |
| SAIFA (System Average<br>Interruption Frequency Index)   |                                                                 | .2    | 1.00   | 1.4   |       |      |
| CAIDI ( Customer Average<br>Interruption Duration Index) |                                                                 | 2.1   | 3.86   | 2.31  |       |      |

<sup>9</sup> 

10 Analysis: Reliability metrics are within acceptable range performance. Interruptions are

11 mainly due to weather related incidents such as storms.

<sup>1</sup> Metered kWh's multiplied by Loss Factor

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 3 Tab 1 Schedule 1 Page 1 of 1

### Volumetric Trend Table

3 Table 3.1.1 at the previous schedule shows the actual and forecast trends for 4 customer/connection counts, kWh consumption and billed kW demand.

5

1

2

6 Historically, the Residential class shows stable but slow growth in customers.

One the other hand, Residential consumption has shown a slight decrease since 2008.
The reason for this decrease is that in 2009, Enbridge brought natural gas distribution to

9 Alfred and Plantagenet. With the rise in electricity costs, all new customers have opted 10 to heat their homes with natural gas, propane or oil. In essence, although the customer 11 count has show a slight increase, Hydro 2000 has a lost a portion of it winter load to 12 natural gas and other heating options.

13

The customer count for GS<50 kW has changed very little since 2008. This reflects the</li>
stagnant commercial growth in Hydro 2000's service area.

16

The customer count for the GS>50 kW class has also remained steady since 2008.
Hydro 2000 does not anticipate any growth in 2011 and in 2012 for both General Service
classes.

20

Street Lighting connections have also been stable over the period, reflecting the fact that
there has not been a large amount of new development. The number of USL
connections has not changed in a number of years either.

24

The utility load has been fairly steady over the historical period, with average wholesale deliveries (on an actual weather basis) decreasing by approximately 0.2% per cent per year from 2008 to 2012. Further details on the load forecast can be found at Exhibit 3, Tab 1, Schedule 2, Attachment 1.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 3 Tab 1 Schedule 2 Page 1 of 2

### Approach to Weather Normalized Load Forecast

2

1

Attachment 1 is the weather normalized load forecast report prepared by Elenchus Research Associates on behalf of [Utility]. The forecasting approach was selected by Elenchus on the basis of historical data provided by [Utility] and is described in the report.

7

8 The load forecast was developed based on monthly wholesale purchased kWh by the 9 Distribution System from January 2007 to March 2011 (exclusive of losses; i.e., not loss 10 adjusted). Class specific forecasts are not possible at this time for [Utility] due to data 11 constraints (monthly class data is not available). However, monthly wholesale deliveries 12 data are available, and provides a good fit with accurate within sample predictions for 13 the regression model used. It is [Utility]'s understanding that many other LDC distribution 14 rate applications considered by the Board have also used this approach and that this 15 approach has been approved by the Board in the past.

16

17 The methodology predicts wholesale consumption using a multiple regression analysis 18 that relates historical monthly wholesale kWh usage to monthly historical heating degree 19 days and cooling degree days. Historical monthly full-time employment levels are also 20 used to account for regional economic patterns that may influence consumption of 21 electricity within the LDC. For degree days, daily observations as reported at Ottawa 22 (Macdonald-Cartier) International Airport are used. For employment levels, monthly full-23 time employment levels for the Ottawa Economic Region, as reported in Statistics 24 Canada's Monthly Labour Force Survey (CANSIM series v2054772) has been used.

25

Neither the number of peak days nor the number of days in the month yielded
meaningful results in predicting [Utility]'s load. Therefore, these were not included as
explanatory variables.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 3 Tab 1 Schedule 2 Page 2 of 2

The resulting regression equation yields an adjusted R-squared of 0.967. When actual annual wholesale values are compared to annual values predicted by the regression equation, the mean absolute percentage error (MAPE) is 0.7 per cent. More detailed model statistics can be found in the report prepared by Elenchus Research Associates (Attachment 1 to this Schedule).

6

Weather normalized values are determined by using the regression equation with a 10year average monthly degree days (2001-2010). The 10-year average is consistent with
recent years' weather and has been used in other electricity distribution rate applications
and has been accepted by the Board.

11

Allocation to specific weather sensitive rate classes (Residential, GS<50, GS>50) is
based on the average share of each classes' actual retail kWh (exclusive of distribution
losses) of actual wholesale kWh for the 2007 to 2010 period.

15

In order to forecast 2012, an average of 4 chartered banks' economic forecasts that are
available to the public on their corporate web sites is used. These forecasts include
projections for employment growth in Ontario for 2011 and 2012.

19 20

## LOAD FORECAST

This section outlines the load forecast methodology and results used by Hydro2000. The process used to derive the weather normal forecast is similar to the process used and approved for many other LDCs that have applied for COS rebased rates before the Board. It uses data for monthly wholesale deliveries and monthly degree days, as measured at Ottawa International Airport (both heating degree days (HDD) and cooling degree days (CDD) defined by Environment Canada as the number of degrees Celsius the mean daily temperature varies from 18 degrees Celsius). The forecast also uses monthly full-time employment data for the Ottawa Region (the Ottawa Census Metropolitan Area and Ontario Municipalities Adjacent to Ottawa, or OMATO) as reported by Statistics Canada (CANSIM v2054772). Weather normal degree days are defined as the 10-year average degree days for each month for the period 2001 to 2010. Forecast employment levels are based on the average of 4 major chartered banks' most recent employment growth forecasts for Ontario (BMO, RBC, Scotia, and TD).

Class specific forecasts are not possible at this time for Hydro2000 due to data constraints (monthly class data is not available). However, monthly wholesale deliveries data are available, and provides a good fit with accurate within sample predictions for the regression model used. This approach has been used by many LDCs previously.

## HISTORICAL MONTHLY DELIVERIES (KWH)

The following table (Table 1) outlines monthly wholesale deliveries to Hydro2000 from January 2007 to March 2011.

| Table 1: Monthly Actual Wholesale Energy (kWh), Hydro2000 |            |            |            |            |           |  |  |  |  |  |

## FORECASTING USING NORMAL DEGREE DAYS

As indicated above, Hydro2000 has adopted the most recent 10 year average (2001 to 2010) as the definition of weather normal. Many other LDCs have also adopted this definition for the purposes of cost-of-service rebasing, and the Board has approved many applications using this definition.

Chart 1: Hydro2000 Actual vs. Predicted Wholesale kWh

Presented below (Table 4) are monthly HDD and CDD for the 10-year period 2001-2010 observed at Ottawa International Airport (Macdonald-Cartier).

|                                                             |                                                                |                                                              | ŀ                                                                 | leating Deg                                                          | ree Days                                                         |                                                              |                                                                   |                                                               |                                                                 |                                                     |                                                             |                                                                |                                                                         |

#### Table 4 –10-yr average (1999-2008) HDD and CDD, Ottawa Macdonald-Cartier Int'l Airport

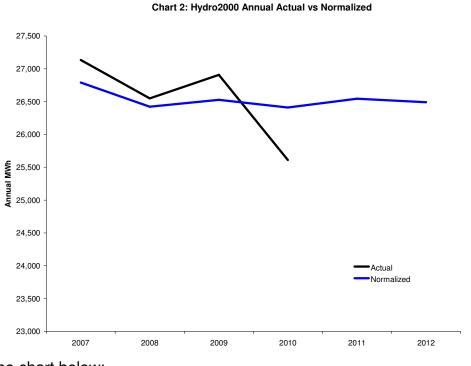

Forecasts for Ontario's employment outlook for 2011 and 2012 are available from four Canadian Chartered Banks at time of writing. Their forecasts are summarized below.

|      |             | - Employment Fore     |                |             |     |
|------|-------------|-----------------------|----------------|-------------|-----|
|      | (tig        | gures in annual perce | entage change) |             |     |
|      | BMO         | RBC                   | Scotia         | TD          | Avg |
|      | (Jan, 2011) | (May 11, 2011)        | (May 3, 2011)  | (Mar ,2011) |     |
| 2011 | 1.1         | 2.1                   | 1.6            | 1.9         | 1.7 |
| 2012 | 1.3         | 2.1                   | 1.1            | 1.4         | 1.5 |

Incorporating the forecast employment and weather normal degree days using the regression model displayed in table 2, the following weather corrected consumption and forecast values are calculated:

|       | Table 6 - Weather Corrected Wholesale kWh, Hydro2000 |       |                |       |  |  |  |  |  |  |
|-------|------------------------------------------------------|-------|----------------|-------|--|--|--|--|--|--|
|       | 10-yr (1999-2008)                                    |       |                |       |  |  |  |  |  |  |
| Year  | Actual Wholesale kWh                                 | %chg  | Weather Normal | %chg  |  |  |  |  |  |  |
| 2007  | 27,134,454                                           |       | 26,790,447     |       |  |  |  |  |  |  |
| 2008  | 26,547,550                                           | -2.2% | 26,421,722     | -1.4% |  |  |  |  |  |  |
| 2009  | 26,907,152                                           | 1.4%  | 26,525,840     | 0.4%  |  |  |  |  |  |  |
| 2010  | 25,611,898                                           | -4.8% | 26,410,218     | -0.4% |  |  |  |  |  |  |

| 2012F |                                                      |       | 26,490,916     | -0.2% |  |  |  |  |  |  |

Annual actual wholesale kWh compared to normalized and predicted are displayed in

the chart below:

## ALLOCATION TO SPECIFIC CLASSES

The following table (Table 7) presents class specific weather normal historic and forecast values for those classes that have weather sensitive load. Class specific kWh consumption for weather sensitive classes is allocated based on the 2007 to 2010 average of each class' share in wholesale kWh, exclusive of distribution losses.

| Table 7 | Table 7 – Actual, Normalized and Forecast Class kWh, Hydro2000 |       |                |       |  |  |  |  |  |
|---------|----------------------------------------------------------------|-------|----------------|-------|--|--|--|--|--|

Actual, normalized and forecast kW for the weather sensitive GS>50 class are summarized in Table 8 below. Normalized values are calculated based on the average annual ratio of class kW to class kWh for 2007 to 2010.

| Year  | Actual kW | Class kW/kWh ratio | Normalized kW | % change |
|-------|-----------|--------------------|---------------|----------|
| 2007  | 12,582    | 0.00254            | 12,085        |          |
| 2008  | 12,030    | 0.00252            | 11,918        | -1.4%    |
| 2009  | 12,380    | 0.00263            | 11,965        | 0.4%     |
| 2010  | 10,940    | 0.00254            | 11,913        | -0.4%    |
| 2011F |           | 0.00256            | 11,973        | 0.5%     |
| 2012F |           |                    | 11,949        | -0.2%    |

Table 9 presents actual and forecast kWh and kW for Street Lighting, and kWh for USL, both of which are not weather sensitive. The forecast throughput for Street Lighting and

USL classes is not expected to change as no changes to the number of customer connections is anticipated in 2011 or 2012.

## Table 9 – Hydro2000 Street Lights and USL

|       | Street  | •    | USL |      |        |      |

## Table 10 – Load Forecast (Historical, Bridge and Test Years).

## **CUSTOMER FORECAST**

Historic customer figures on an annual basis are presented below, along with projections for the 2011 bridge year and 2012 test year.

New Residential connections in 2011 and 2012 are projected to grow at 1.3% (13 and 14 new attachments, respectively). This is consistent with the recent historical growth (except for 2010 with 11 new attachments) and is also consistent with population growth projections for the Prescott and Russell OMATO municipality available from the City of Ottawa.<sup>1</sup>

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 3 Tab 1 Schedule 3 Page 1 of 2

## Pass-Through Charges

Attachment 1 shows the estimated power supply expenses for 2011 and 2012. Hydro 2000 is an embedded distributor of Hydro One Networks Inc. ("HONI") and is charged monthly by HONI for its power supply expenses.

6

1

2

Pass-through charges for power supply include commodity, retail transmission services,
wholesale market service, rural rate protection and low voltage service. Debt retirement
charges are not included. A total loss factor applies to forecast retail volumes for all
pass-through charges other than low voltage service, when the billing determinant is
kWh. The calculation of total loss factors is described in Exhibit 8, Tab 3, Schedule 5.

### 12 Commodity Price

The assumed commodity prices are based on the Regulated Price Plan ("RPP") Report issued by the OEB on April 19, 2011. The estimated price for RPP customers corresponds to the average supply cost for RPP customers specified in the report's Table ES-1. For non-RPP customers, the estimated price was based on the term average of the Hourly Ontario Electricity Price ("HOEP") for the 2011-2012 rate year (Table 1 in the report), plus the Global Adjustment (from Table ES-1).

19

## Table 1: 2011 Commodity Price Forecasts

|                           | \$/MWh  | \$/kWh    |
|---------------------------|---------|-----------|
| HOEP Forecast             | \$36.66 | \$0.04015 |
| Global Adjustment         | \$27.72 | \$0.02822 |
| Forecast for non-RPP load | \$64.38 | \$0.06837 |
| Forecast for RPP load     | \$69.38 | \$0.07298 |

20

21 A weighted average commodity price was estimated on the basis on actual 2010 kWh's

for RPP, MUSH<sup>1</sup> and other non-RPP customers:

1

### 4 Retail Transmission Service ("RTS") Rates

5 Proposed RTS rates for Network Service and Line and Transformation Connection

6 Service are described in Exhibit 8, Tab 3, Schedule 3.

## 7 Wholesale Market Service ("WMS") Rate

8 The existing WMS charge of \$0.0052 per kWh has been maintained.

### 9 **Rural Rate Protection**

10 The existing Rural Rate Protection charge of \$0.0013 per kWh has been maintained.

## 11 Low Voltage ("LV") Service

- 12 Hydro 2000 estimates total charges of \$100,429 in 2012 for LV service. Proposed retail
- 13 rates for LV are described in Exhibit 8, Tab 3, Schedule 4.

2012 EDR Application (EB-2011-0326) version: 10 October 10, 2011

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 3 Tab 2 Schedule 1 Attachment 1 Page 1 of 1

## **Overview of Distribution Revenues**

1

Table 3.2.1 at the previous schedule shows estimated revenues from current distribution 2 charges for 2011 and 2012. 3 4 Distribution Revenues are derived through a combination of fixed monthly charges and 5 volumetric charges based either on consumption (kWh's) or demand (kW's). Revenues 6 7 are collected from 5 customer classes: Residential, General Service less than 50 kW, General Service greater than 50 kW, Unmetered Scattered Load (USL) and Street 8 Lighting 9 10 Fixed rate revenue is determined by applying the current fixed monthly charge to the 11 number of customers or connections in each of the customer classes in each month. 12 Variable rate revenue is based on a volumetric rate applied to meter readings for 13 14 consumption or demand volume. 15 16 Hydro 2000 does not recover allowances for transformer ownership as none of Hydro 17 2000's customers own transformers.

| TOTAL                                                                  |       |                                 |            | 20,303  |

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 3 Tab 3 Schedule 1 Attachment 1 Page 1 of 1

| 1  | <b>Overview of Revenue from Service Charges</b>                                      |
|----|--------------------------------------------------------------------------------------|
| 2  | The table at the previous schedule (Table 3.3.1) shows the trend Specific Service    |
| 3  | Charges.                                                                             |
| 4  |                                                                                      |
| 5  | Hydro 2000's revenue from Specific Service Charges increased in 2011 and 2012 due to |
| 6  | the fact that there is a slight customer increase forecasted for 2010.               |
| 7  |                                                                                      |
| 8  | The downturn in the economy in 2009 also caused an increase in revenues from Late    |
| 9  | Payment charges which increased by 21% from 2009 to 2010. The Late Payment           |
| 10 | charges have remained steady since then.                                             |
| 11 |                                                                                      |

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 4 Tab 1 Schedule 2 Page 1 of 2

## **Overview of OM&A Expenses**

1 2

An overview of Hydro 2000's OM&A trend is provided in Table 1 of Exhibit 4, Tab 1,
Schedule 2.

5

Projected OM&A expenses in 2012 are approximately \$86K higher than the 2011 bridge amount. The drivers of major year over year changes in OM&A are described in Exhibit 4, Tab 1, Schedule 4. Hydro 2000 submits that the expected growth in its spending is prudent, reasonable and/or necessary, as it relates principally to the need to fulfill of regulatory requirements (i.e. cost of service and IFRS) and to recruit, part time staff to support safety, reliability and the day to day running of the utility.

12

Hydro 2000's 2011's OM&A include one-time impacts for (1) one-time costs related to
setting up the Hydro 2000's new offices and (2) a one-time cost related to the conversion
to Harris billing systems.

16

Hydro 2000's proposed expenses in 2012 for Operations, Maintenance and
Administration ("OM&A") include one-time impacts for (1) rate filings, (2) one-time impact
of transitioning to IFRS, (3) one-time cost related to Smart Meter related operating
expenses.

21

Hydro 2000's proposed OM&A for 2012, excluding one-time items, reflects an increaseof 59K over its 2011 results.

24

The following table presents Hydro 2000's OM&A expenses from 20010 to 2012, adjusted for the one-time costs and savings:

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 4 Tab 1 Schedule 2 Page 2 of 2

|                                         | 2010       | 2011       | 2012        |
|-----------------------------------------|------------|------------|-------------|
| Total OM&A                              | \$ 297,226 | \$ 348,467 | \$ 434,834  |

| % year/year change                      |            |            |             |
| % compound annual growth                |            |            |             |

#### Table 1: 2010-2012 OM&A Expenses

2

1

The most significant factors driving the increase of 59K in 'Adjusted OM&A' (excluding
one-time costs and savings) are:

Salary adjustments to bring compensation levels and associated pensions and
benefits of management and administrative staff in line with those of cohorts.

Hydro 2000 converted its bi-monthly residential billing to monthly billing. Hydro 2000's customer base contains many low income customers as well as senor customers. With the new regulation surrounding deposit policies and payment arrangements, Hydro 2000 feels that billing on a monthly basis will aid customers in meeting their bill commitments. Billing on a monthly calendar basis will simplify billing of time-of-use and from a customer's perspective, ease the transition to a monthly time-of-use billing cycle.

\$11,150 in yearly on-going smart meter related operating expenses. Details can be
 found at Exhibit 9 Tab 3.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 4 Tab 1 Schedule 3 Page 1 of 2

**Conservation & Demand Management Programs** 

2

1

Hydro 2000 delivers the following Conservation & Demand Management ("CDM")
programs in association with the Ontario Power Authority ("OPA"):

- 5 Great Refrigerator Roundup
- Energy Retrofit Incentive Plan (ERIP)
- 7 Power Savings Blitz
- 8 PeakSaver

9 On October 29, 2010, Hydro 2000 filed a proposed Conservation and Demand 10 Management/Green Energy Act 2011-2014 strategy filing in which the utility stated that it 11 did not have any Board-Approved programs planned. The assumption was that the OPA 12 CDM programs would allow Hydro 2000 to achieve 100% of its targets. Hydro 2000 13 further stated that if this assumption needed to be readdressed in order for the CDM 14 Targets to be met, it would most likely be done in conjunctions with other Local 15 Distribution Company (LDC).

16

17 The proposed plan in question is presented at Attachment 1 of this schedule.

18 Approval of the proposed plan is still pending.

19

At this time, Hydro 2000 is not requesting any funding through distribution rates for CDM activities. Hydro 2000 has filed as required a CDM plan in order to adhere to its deemed conditions of license, including the achievement of demand and energy savings targets to be allocated by the Board in accordance with the ministerial directive,<sup>1</sup> and

<sup>&</sup>lt;sup>1</sup> <u>Directive of the Minister of Energy and Infrastructure to the Ontario Energy Board</u>, March 31, 2010

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 4 Tab 1 Schedule 3 Page 2 of 2

- 1 compliance with a new CDM Code for Electricity Distributors<sup>2</sup> as well as any other
- 2 regulatory requirements relating to CDM.

<sup>&</sup>lt;sup>2</sup> On June 22, 2010, the Board issued a Notice of Proposal to Issue a New Code, for the creation of a CDM Code for Electricity Distributors (EB-2010-0215).

# Hydro 2000 Inc.

# CDM Strategy Filing

November 1, 2010

- 1. **Distributor's Name:** Hydro 2000 Inc. ED-2002-0542 is filing this CDM Strategy with the Ontario Energy Board (OEB) in accordance with the OEB's September 16, 2010 Issuance of the Conservation and Demand Management Code for Electricity Distributors (EB-2010-0215). This Strategy outlines how Hydro 2000 Inc. will meet the electricity demand and consumption targets set out in its license.
- 2. **Total Reduction in Peak Provincial Electricity Demand (MW) Target:** 0.2 MW per the proposed CDM Targets for Electricity Distributors issued by the Ontario Energy Board (OEB) on June 22, 2010. Please note that this is a preliminary figure currently under review by the OEB.
- 3. **Total Reduction in Electricity Consumption (kWh) Target:** 1,000,000 kWh per the proposed CDM Targets for Electricity Distributors issued by the OEB on June 22, 2010. Please note that this is a preliminary figure currently under review by the OEB.

### 4. CDM Strategy

4.1. High Level Description of CDM Strategy

Hydro 2000 utilized the Ontario Power Authority's (OPA) Resource Planning Tool, taking into consideration Hydro 2000's service territory's residential profile and past CDM program results, to forecast their reductions in Peak Provincial Electricity Demand and Electricity Consumption. The streamlined version of the Resource Planning Tool was used, as recommended by the OPA, along with the OEB 2009 Yearbook data to forecast the 2011-2014 results for the Consumer, Commercial & Institutional, and Industrial programs.

This strategy does not take into consideration the significant portion of the target that the OPA expects to result from smart meter and time-of-use rate implementation. OPA advised that the CDM targets assigned to all electricity distributors should include approximately 308MW of savings related to smart meters and time-of-use rates. This advice was based on a study commissioned by the OPA and filed with the OEB as part of the Integrated Power Supply Plan proceeding.

| Annual Savings                             | 2011 | 2012 | 2013 | 2014 |
|--------------------------------------------|------|------|------|------|
| Peak Demand Reduction – MW                 | 0.04 | 0.06 | 0.05 | 0.06 |
| Electricity Consumption Reduction -<br>MWh | 117  | 181  | 131  | 135  |

| Cumulative Savings                         | 2011 | 2012 | 2013 | 2014 |
|--------------------------------------------|------|------|------|------|
| Peak Demand Reduction – MW                 | 0.04 | 0.10 | 0.15 | 0.21 |
| Electricity Consumption Reduction -<br>MWh | 117  | 410  | 811  | 1324 |

#### Consumer Programs

| Name                               | Years   | Description                                                                                                                                               | Target<br>Customers |
|------------------------------------|---------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|
| Instant Rebates                    | 2011-14 | In-store discounts on energy efficient products                                                                                                           | Residential         |
| Midstream Electronics<br>Incentive | 2011-14 | Retail promotion of energy efficient televisions                                                                                                          | Residential         |
| Midstream Pools Incentive          | 2011-14 | Retail promotion of "right sized" pool equipment                                                                                                          | Residential         |
| HVAC Rebates                       | 2011-14 | On-line rebates on high efficiency replacement of<br>heating/cooling systems                                                                              | Residential         |
| Appliance Retirement               | 2011-14 | Free pick-up/decommissioning of old, working inefficient appliances                                                                                       | Residential         |
| Exchange Events                    | 2011-14 | Room air conditioner and dehumidifier exchange events<br>at retailers                                                                                     | Residential         |
| Residential New<br>Construction    | 2011-14 | Incentives for builders to construct efficient, smart, and integrated new homes                                                                           | Residential         |
| Residential Demand<br>Response     | 2011-14 | Free, installed direct load control devices and in-home<br>display systems/capability. Non-DR offers: subsidized in-<br>home display systems/capabilities | Residential         |

| TOTAL | 2011-14 | 70 KW | 440 MWh |
|-------|---------|-------|---------|
|-------|---------|-------|---------|

Hydro 2000's plan is based upon the assumption that there will be sufficient funding available to manage and promote the OPA-contracted Province-Wide Consumer programs. Due to the fact that our CDM Targets are currently under review and the funding formula has yet to be announced, the above listing of programs and total expected reductions are preliminary. Adjustments to this plan may be required when final OEB CDM Targets are issued and OPA funding information is received. No budget projections have been included.

| Name                                      | Years   | Description                                                                                                                                               | Target<br>Customers         |

|-------|

Hydro 2000's plan is based upon the assumption that there will be sufficient funding available to manage and promote the OPA-contracted Province-Wide Commercial & Institutional programs. Due to the fact that our CDM Targets are currently under review and the funding formula has yet to be announced, the above listing of programs and total expected reductions are preliminary. Adjustments to this plan may be required when final OEB CDM Targets are issued and OPA funding information is received. No budget projections have been included.

### Industrial Programs

| Nam                        | e | Years   | Description                                                                                           | Target<br>Customers |
|----------------------------|---|---------|-------------------------------------------------------------------------------------------------------|---------------------|
| Equipment Re<br>(currently |   | 2011-14 | Incentive program designed to encourage high-efficiency electricity retrofits to existing structures. | Industrial          |

| TOTAL         2011-14         10 KW         136 MV |
|----------------------------------------------------|
|----------------------------------------------------|

Hydro 2000's plan is based upon the assumption that there will be sufficient funding available to manage and promote the OPA-contracted Province-Wide Industrial programs. Due to the fact that our CDM Targets are currently under review and the funding formula has yet to be announced, the above listing of programs and total expected reductions are preliminary. Adjustments to this plan may be required when final OEB CDM Targets are issued and OPA funding information is received. No budget projections have been included.

### Low Income Programs

Hydro 2000 intends on participating in the OPA-Contracted Province-Wide Low Income Program. Our strategy and forecasted reductions in provincial peak electricity demand and electricity consumption will be filed with the Board once this program has been finalized and its details regarding funding and program components are made available.

### 6. Potential Board-Approved CDM Programs

6.1. At this time Hydro 2000 Inc. does not have any Board-Approved programs planned. Our current assumption is that the OPA CDM programs will allow Hydro 2000 Inc. to achieve 100% of its targets. Should this assumption need to be readdressed in order for us to meet our CDM Targets, we will potentially develop, or join with another Local Distribution Company (LDC), in seeking a Board-Approved CDM Program.

### 7. Program Mix

7.1. Section 5 above illustrates the programs which will be delivered to all customer types in Hydro 2000's service territory, including residential, commercial, industrial, and institutional customers. The strategy was developed having regard to the composition of Hydro 2000's customer base.

Hydro 2000 intends on participating in the OPA-Contracted Province-Wide Low Income Program once additional information has been made available regarding program options and funding.

### 8. CDM Programs Co-ordination

8.1. Hydro 2000 plans to collaborate with other LDCs of similar size and/or geographical closeness in the administration, marketing and implementation of the OPA Contracted Province-Wide programs. Through these partnerships Hydro 2000 expects to achieve efficiencies of delivery and cost savings in the future.

Hydro 2000 will work closely with local Social Service Agencies, local municipal governments, natural gas distributors and other LDC's to deliver its portfolio of OPA-contracted Province-Wide CDM Programs, including an OPA-contracted Low Income program.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 4 Tab 1 Schedule 4 Page 1 of 2

### Appendix 2-E Summary of OM&A Expenses

Applicants should complete the two tables on this page.

#### Table 1: OM&A Year-over-Year Comparisons

This table should be completed for each of the comparisons outlined below (Note 1)

- 1 Last rebasing year (LRY) Actuals versus LRY Board approved (shown)
- 2 Year 1 Actuals versus LRY Actuals (Not necessary if LRY = Year 1)
- 3 Year 2 Actuals versus Year 1 Actuals
- 4 Year 3 Actuals versus Year 2 Actuals
- 5 Bridge Year versus Year 3 Actuals
- 6 Test Year versus Bridge Year

|                            | 2008           | 2008       | Variance   | Percentage Change |  |
|----------------------------|----------------|------------|------------|-------------------|--|

#### Notes:

(2)

(1) For each year, a detailed explanation for each cost driver and associated amount is required. (please see Exhibit 4, Tab 1, Schedule 4 for details)

The closing balance for each year becomes the opening balance for the next year.

(3) If it has been more than three years since the applicant last filed a cost of service application, additional years of historical actuals should be incorporated into the table, as necessary, to go back to the last cost of service application. If the applicant last filed a cost of service application less than three years ago, a minimum of three years of actual information is required.

#### Notes:

(1) If it has been more than three years since the applicant last filed a cost of service application, additional years of historical actuals should be incorporated into the table, as necessary, to go back to the last cost of service application. If the applicant last filed a cost of service application less than three years ago, a minimum of three years of actual information is required.

- (2) The method of calculating the number of customers must be identified.
- (3) The method of calculating the number of FTEEs must be identified. See also Appendix 2-K.
- (4) The number of customers and the number of FTEEs should correspond to mid-year or average of January 1 and December 31 figures.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 4 Tab 2 Schedule 2 Page 1 of 2

## **One-Time Costs**

1 2

Hydro 2000 projects incremental one-time costs in 2012 for this cost of service rate
application, to complete the transition to International Financial Reporting Standards
("IFRS and finally to the inclusion of Smart Meter related operating expenses. The table
below presents the one-time costs projected for 2012.

7

| Cost of filing rebasing application<br>(140,000 / 4 years)   | \$35,000 |
|--------------------------------------------------------------|----------|
| Cost of converting to IFRS<br>(60,000/4 years)               | \$15,000 |
| Smart Meter related Operating Expenses<br>(22,472 / 4 years) | \$5,618  |

8

9

#### 10 Cost of Service

As noted in Exhibit 4, Tab 2, Schedule 3, Hydro 2000 has considered its overall projected incremental costs for rate applications of \$140,000 and included one quarter of that amount, or 35K in its test year projections for account '5655-Regulatory Expenses', to enable full recovery over four years. The projection includes 30K for preparation or IRM applications or 10K per year for a period of 3 IRM years.

16

### 17 <u>IFRS</u>

As indicated in the minimum filing requirements<sup>1</sup>, the Board stipulates that "distributors whose rates are being rebased for 2012 should make all reasonable efforts to file test year forecasts for their cost of service applications using modified IFRS. The Board noted that, since utilities must transition to IFRS in 2012 for financial reporting purposes, the filing of a cost of service application using the same accounting system as is

<sup>&</sup>lt;sup>1</sup> Chapter 2 of the Filing Requirements for Transmission and Distribution Applications issued June 22, 2011. Page 13

- required to be used in a distributor's financial statements is expected to minimize future
   complexities and associated costs."
- 3

The Board goes on to say that that "The Board's letter further stated that a distributor, for whom preparing a modified IFRS based application would impose an unreasonable burden, might file under CGAAP but must provide an explanation of this choice as part of its rate application filing."

8

9 While many other utilities have been collecting IFRS funds for 1-2 years, Hydro 2000 10 has not. Moreover, unlike other larger utilities, Hydro 2000 does not have qualified 11 internal resources that can undertake such a project. The utility currently uses the 12 accounting firm of Deloitte and Touche to perform its accounting function. The utility 13 believes that its distribution revenues at current rates did not permit them to hire external 14 consultants to convert from CGAAP to IFRS.

15

Hydro 2000 has consulted with its auditor, financial system support and similarly-situated utilities in arriving at an estimated one-time incremental cost of \$60,000 to complete the transition to IFRS. One quarter of the total cost (\$15,000) has been included in the test year projections for account '5630-Outside Services Employed', to enable full recovery over four years.

21

### 22 Smart Meter OM&A

The utility also included \$5,618 (or \$22,472 amortized over 4 years) for one-time costs
related to Smart Meters related operating expenses. Specifics regarding those costs can
be found at Exhibit 9, Tab 3.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 4 Tab 2 Schedule 3 Page 1 of 2

# **Regulatory Costs**

1 2

3 Details of Hydro 2000's regulatory costs appear in Schedule 1, Attachment 4 of this
4 Exhibit/Tab.

5

Hydro 2000 estimates consulting fees of approximately \$110K to complete this 2012
cost of service rate application. Hydro 2000 engaged the services of Elenchus Research
Associates ("Elenchus") to assist in this process, given the limited internal resources
available to work on an extensive application. At the time of the filing, Hydro 2000
incurred about \$43K in fees from Elenchus and 7K for Deloitte and Touche; another
\$60K is budgeted to address the post filing phases in the proceeding. A total of \$110K is
estimated in incremental costs directly associated with the 2012 rate application.

13

Hydro 2000 also projects average incremental costs of \$10K in each of the following
three IRM<sup>1</sup> filing years, or an aggregate amount of \$30K, due to the increased efforts
expected under the Board's 3<sup>rd</sup> Generation IRM e.g. revenue to cost adjustments,
deferral/variance account dispositions including smart meters, additional filing
requirements such as those arising from the GEGEA,<sup>2</sup> etc.

19

As a result, total rate filing costs of \$140K are estimated for Hydro 2000's upcoming four-year rebasing cycle. 25% of this amount (\$35K) has been included in Hydro 2000's test year costs, in addition to \$27000K in annual baseline regulatory costs, consistent with actual costs in the most recent two historical years. Hydro 2000 has also included \$60,000 (\$15,000 amortized over 4 years) for transition to IFRS.

25

A breakdown of the proposed expenditures related to the cost of service is presented inthe table below.

1

# Low-Income Energy Assistance Program (LEAP)

2

The minimum filing guidelines states that utilities are allowed to include either 0.12% of a distributor's Board-approved distribution revenue requirement, or \$2,000. The \$2,000 minimum is intended to ensure that for smaller distributors more funding is available than otherwise would be if based solely on a percentage of distribution revenues.

- 7
- 8 Accordingly, Hydro 2000 has included the amount of \$2,000 it its 2012 projections. This
- 9 amount will be used for financial assistance to low-income energy consumers.
- 10

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 4 Tab 2 Schedule 5 Page 1 of 2

# Charges Related to the Green Energy and Green Economy Act

4 Hydro 2000 expects to comply with all licensing conditions and other regulatory 5 requirements arising from the implementation of the Green Energy and Green Economy Act, 2009. The Board, in EB-2009-0397, defined the parameters for the filing of a Basic 6 7 GEA Plan. Such indicated that a utility must file its Basic GEA Plan with a COS 8 Application. At this time, Hydro 2000 is not filing a Distribution System Plan with specific 9 initiatives or quantified incremental costs. Rather, Hydro 2000 proposes to record any 10 incremental costs associated with initiatives under this legislation to the appropriate 11 Board-approved deferral accounts:

- 12 1531 Renewable Connection Capital Deferral Account
- 13 1532 Renewable Connection OM&A Deferral Account
- 14 1534 Smart Grid Capital Deferral Account
- 15 1535 Smart Grid OM&A Deferral Account

Having reviewed the Basic Green Energy Plans currently before the Board, Hydro 2000 has taken the approach that it needs to gain knowledge, experience and expertise before it can invest in the necessary resources to complete such a Plan. Hydro 2000 also seeks to gain efficiencies in working with its cohorts and minimizing its costs by learning from other applications.

21

1

2

3

Being fully embedded in Hydro One's territory, Hydro 2000 is required to obtain permission from Hydro One to connect renewable generation to its system. Hydro 2000 is also obligated to comply with Hydro One's connection requirements for which the utility could incur additional costs. Hydro 2000 intends to cooperate closely with Hydro One in order to optimize the connection of renewable generators; gain a better Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 4 Tab 2 Schedule 5 Page 2 of 2 1 understanding of the impacts of renewable generation on Hydro 2000's distribution

2 system and its regulatory costs.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 4 Tab 2 Schedule 6 Page 1 of 1

# Charitable Donations

1 2

No amounts for charitable donations are included in Hydro 2000's proposed distribution
expenses for the 2012 test year.

5

Hydro 2000 has a policy not to make charitable donations. Its Board of Directors has
determined that it would not be prudent to use revenues from Hydro 2000's customers to
fund charitable organizations.

9

Hydro 2000 does however; provide assistance where its skilled expertise can aid in community activities. Staff are involved in such activities as volunteering their time to different causes and service organizations such as educating social workers in Prescott-Russell as to how to handle deposits and how to deal with retailers.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 4 Tab 3 Schedule 1 Attachment 1 Page 3 of 6

1 The following sections provide explanations for material year over year variances.

## 2 2012 Test Year vs 2011 Bridge Year

- 3 OM&A expense in 2012 are projected to increase by \$86K over actual 2011 expenses.
- 4 The variance consists primarily of increases in Administrative and General Expenses
- 5 (\$62K). The variance in Administrative and General Expenses is principally attributable to
- 6 the following factors:

## 7 Operations: 17K

- costs associated with the inclusion of 2012 cost of service application including 3 years of IRM: \$35K
- 10 Admin and General Expenses: 62K
- costs associated with the 2012 cost of service application including 3 years of IRM: \$35K
- costs associated with the transition to International Financial Reporting Standards ("IFRS"): \$15K
- Other costs are attributed to office expenses.
- 16

## 17 **2011 Bridge Year vs 2010 Historical Actual**

OM&A expenses in 2011 increased by \$85K from 2010 actual expenses. The variance consists primarily of higher costs for Administrative and General Expenses (\$103K) and an increase in Operations of (19K). This increase is offset by a reduction of (40K) in Billing and Collection. The variance in Administrative and General Expenses is principally attributable to the following factors:

## 23 Operations: 19K

• Expenses in the amount of 10K related to Load Dispatching and a increased maintenance to Overhead Distribution Lines following inspection from the ESA

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 4 Tab 3 Schedule 1 Attachment 1 Page 4 of 6

1 2

## 3 Admin and General Expenses: 103K

Following a salary review by Hydro 2000's Board of Directors in 2008, it was decided that a salary increases was necessary to bring salaries to the level of the utility's cohorts (see Exhibit 4, Tab 4, Schedule 1). This was to be done over a 4 year period. As of 2011, salaries are considered to be in line with the utility's cohorts.

Hydro 2000 hired a part-time employee to cover the increased requirements
 surrounding conservation and demand side management. The Part-time
 employee also helps with day to day activities of the utility such as answering the
 phone, dealing with customers, assisting with billing and helps with basic
 regulatory filings.

14 Hydro 2000 decided to move its offices to a better suited location. Prior to moving 15 to its new location, the utility shared office space with other municipal 16 departments. The square footage of the utility was roughly 400 square feet. 17 Board meetings were held at a hall because the utility did not have a meeting room to accommodate its board or any consultants. The new location includes an 18 19 office of the part-time employee as well as a meeting room. The square footage of the new office is 1200 square feet. The utility purchased new and better fitting 20 office furniture for its new location. . 21

There was a slight increase in monthly rent from the old location to the new office
 location.

A lump sum in the amount of \$50 was paid Harris for the conversion of the old
 billing system to Harris's billing system.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 4 Tab 3 Schedule 1 Attachment 1 Page 5 of 6

## 1 2010 Historical Actual vs 2009 Historical Actual

OM&A expenses in 2010 increased by \$29K from 2009 actual expenses. The increase
was due mainly to increase in Administrative & General Expenses (\$35K), largely offset
by decreasing costs for Operation as well as Maintenance.

### 5 Admin and General Expenses: 35K

The implementation of a new Customer Information System with increased software maintenance, increased labour by all office staff to learn the new system, and the shifting of the officer manager's time from administration to billing to spearhead the project and An adjustment to Salaries and Expenses in order to bring salaries to the level of the utility's cohorts (see Exhibit 4, Tab 4, Schedule 1): 8K

Regulatory expenses related to restatement of deferral and variance balances for
 the Global Adjustment. RRR filings were also revised accordingly. (\$30K)

The decrease in Distribution Expenses – Operation was mainly due to a decreased of
10K in Load Dispatching and a decrease in maintenance activities for overhead lines,
underground plant and substations.

17 2009 Historical Actual vs 2008 Historical Actual

OM&A expenses in 2009 increased by \$24K over 2008 actual expenses. The variance
consists primarily of higher costs for Administrative & General Expenses (\$9K) and
Operations (\$9K).

- 21 Admin and General Expenses: 9K
- An adjustment to Salaries and Expenses in order to bring salaries to the level of the utility's cohorts (see Exhibit 4, Tab 4, Schedule 1).

24

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 4 Tab 3 Schedule 1 Attachment 1 Page 6 of 6

### 1 Operations: 9K

- Expenses in the amount of 10K related to Load Dispatching and a increased
   maintenance to Overhead Distribution Lines following inspection from the ESA
- 4

## 5 2008 Historical Actual vs 2008 EDR Board-Approved

- 6
- 7 OM&A for 2008 Actuals were 18K lower than the 2008 Board Approved projections. The
- 8 reduction affected the Administration & General Expense (16K).
- 9

Note:

<sup>1</sup> If an applicant wishes to use headcount, it must also file the same schedule on an FTE basis.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 4 Tab 4 Schedule 1 Attachment 1 Page 1 of 2

#### Staffing and Compensation Levels 1 2 Table 4.4.1 at the previous schedule presents a breakdown of Hydro 2000's staffing 3 levels and employee compensation costs. The executive salary is aggregated with 4 5 management salaries, in accordance with Board policy that states: Where there are 6 three or fewer employees in any category, the applicant may aggregate this category with the category to which it is most closely related.<sup>1</sup> 7 8 9 Hydro 2000 has 3 employees, a General Manager, and Administrative Assistant as well 10 as a part-time employee. 11 12 Both non-union employees' compensation levels are reviewed by the general manager and the Board of Directors 13 14 15 In 2007, Hydro 2000's and Alfred Plantagenet Township, started a review of the salaries 16 for, management and administrative staff. The committee initially did a comparison of the 17 general manager's salary with those in surrounding utilities and utilities of a similar size, as well as salaries of local executives. As a result of this review, the general manager's 18 19 salary was partly adjusted in late 2008. Since the General Manager's salary was far below those of the comparators (equivalent to a CSR at a utility in the GTA) it was 20 21 decided that further adjustments to management salaries over a number of years was 22 necessary in order to bring these to their cohorts' levels. The total adjustment over a 23 period of 4 years was 16K. 24 25 In December of 2010, Hydro 2000's administrative assistant of 20 years retired. The position of administrative assistant was posted, with the successful candidate being 26 27 hired in January of 2011.

1

# Shared Service & Corporate Cost Allocation

2

As defined by the Board, Shared Services is the concentration of a company's resources performing like activities (typically spread across the organization) in order to service affiliates (and/or a parent company), with the intention of achieving lower costs and higher service levels.

7

8 Hydro 2000 does not have any affiliates and having only 3 employees, does not have

9 shared services or allocate corporate costs.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 4 Tab 6

Exhibit 4: Operating Costs

## **Purchases from Suppliers**

1 2

3 Hydro 2000 purchases supplies and services from third parties in order to distribute 4 electricity to its customers. Attachment 1-4 lists Hydro 2000's expenditures on 5 purchased products and services in 2008, 2009, 2010 and up to June 2011, from any 6 single supplier. While spending projections are not prepared on this basis. Hydro 2000 7 expects its pattern of expenditures to remain generally consistent with recent history, 8 except for material variances in expenses for Operations, Maintenance and 9 Administration (see Exhibit 4, Tab 3, Schedule 1) and planned capital projects (see 10 Exhibit 2, Tab 4, Schedule 3).

11

Hydro 2000 purchases equipment, materials and services in a cost effective manner, with full consideration give to price as well as product quality, availability, the ability to deliver on time, reliability, compliance with ESA as well as engineering specifications and quality of services. Vendors are screened to ensure knowledge, reputation, and the capability to meet Hydro 2000's needs. The procurement of goods and services for Hydro 2000 is carried out with the highest of ethical standards and consideration to the public nature of the expenditures.

## 19 Purchase Authorization

20 Major purchases are acquired through a tender process, while purchases of lesser 21 values are purchased using a quotation system. The General Manager submits 22 recommendation while the Board of Director approves all major purchases.

23

24 Hydro 2000's Board of Directors approves the capital and operating budgets annually.

#### Notes:

<sup>1</sup> This adjusts for assets still on the books but which have been fully amortized or depreciated.

<sup>2</sup> Applicable for the standard Board policy of the "half-year" rule, that additions in the year attract a half-year depreciation expense in the first year. Deviations from this standard practice must be supported in the application.

<sup>3</sup> Applicants must indicate YES or NO as to whether the "Depreciation Rate" for the asset in column "g" has changed from the last rebasing year approved by the Board. Changes may arise due to the adoption of International Financial Reporting Standards (IFRS) requirements or other reasons.

#### Notes:

<sup>1</sup> This adjusts for assets still on the books but which have been fully amortized or depreciated.

<sup>2</sup> Applicable for the standard Board policy of the "half-year" rule, that additions in the year attract a half-year depreciation expense in the first year. Deviations from this standard practice must be supported in the application.

<sup>3</sup> Applicants must indicate YES or NO as to whether the "Depreciation Rate" for the asset in column "g" has changed from the last rebasing year approved by the Board. Changes may arise due to the adoption of International Financial Reporting Standards (IFRS) requirements or other reasons.

#### Notes:

<sup>1</sup> This adjusts for assets still on the books but which have been fully amortized or depreciated.

<sup>2</sup> Applicable for the standard Board policy of the "half-year" rule, that additions in the year attract a half-year depreciation expense in the first year. Deviations from this standard practice must be supported in the application.

<sup>3</sup> Applicants must indicate YES or NO as to whether the "Depreciation Rate" for the asset in column "g" has changed from the last rebasing year approved by the Board. Changes may arise due to the adoption of International Financial Reporting Standards (IFRS) requirements or other reasons.

#### Notes:

<sup>1</sup> This adjusts for assets still on the books but which have been fully amortized or depreciated.

<sup>2</sup> Applicable for the standard Board policy of the "half-year" rule, that additions in the year attract a half-year depreciation expense in the first year. Deviations from this standard practice must be supported in the application.

<sup>3</sup> Applicants must indicate YES or NO as to whether the "Depreciation Rate" for the asset in column "g" has changed from the last rebasing year approved by the Board. Changes may arise due to the adoption of International Financial Reporting Standards (IFRS) requirements or other reasons.

#### Notes:

<sup>1</sup> This adjusts for assets still on the books but which have been fully amortized or depreciated.

<sup>2</sup> Applicable for the standard Board policy of the "half-year" rule, that additions in the year attract a half-year depreciation expense in the first year. Deviations from this standard practice must be supported in the application.

<sup>3</sup> Applicants must indicate YES or NO as to whether the "Depreciation Rate" for the asset in column "g" has changed from the last rebasing year approved by the Board. Changes may arise due to the adoption of International Financial Reporting Standards (IFRS) requirements or other reasons.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 4 Tab 7 Schedule 1 Attachment 1 Page 1 of 1

# Depreciation Rates and Methodology

- Hydro 2000's depreciation policy is described in Exhibit 2, Tab 2, Schedule 3.
- 4 Table 4.7.1 at the previous schedule shows the calculation of annual depreciation
- 5 expense with the half-year rule applied for rate-setting purposes, in accordance with the
- 6 form prescribed in the Board' filing requirements.<sup>1</sup> These expense amounts were used
- 7 throughout Exhibit 2, in determining the net fixed asset values included in the rate base.

# Tab 8 (of 8): Income & Capital Taxes

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 4 Tab 8 Schedule 1 Page 1 of 1

**Overview of Provision in Lieu of Taxes (PILs)** 1 2 3 Hydro 2000 is subject to the PILs regime, and therefore remits payments in lieu of 4 corporate taxes to the Ontario Energy Financial Corporation. 5 6 Hydro 2000 files Federal and Provincial tax returns annually. There have been no 7 special circumstances that would require specific tax planning measures to minimize 8 taxes payable. 9 10 There are no non-utility activities included in Hydro 2000's financial results, therefore the 11 entire amount of PILs payable is considered in the proposed allowance to be included in 12 the revenue requirement. 13 14 There are no outstanding audits, reassessments or disputes relating the tax returns filed 15 by Hydro 2000. 16 17 Schedule 2 of this tab addresses the PILs allowance previously approved by the Board 18 and the actual expenses for PILs. Schedule 3 presents the allowance for PILs to be 19 included in the proposed revenue requirement for the 2012 test year. 20

21 Hydro 2000 is requesting disposition of deferral account 1562 in this application. 22 Specifics on the request are presented at Exhibit 9, Tab 2, Schedule 3.

Hydro 2000 Filed: October 10, 2011 EB-2011-0326 Exhibit 4 Tab 8 Schedule 2 Page 1 of 1

# **Historical PILs**

1 2

3 Attachment 1 presents the model used to derive the allowance for the Provision In Lieu

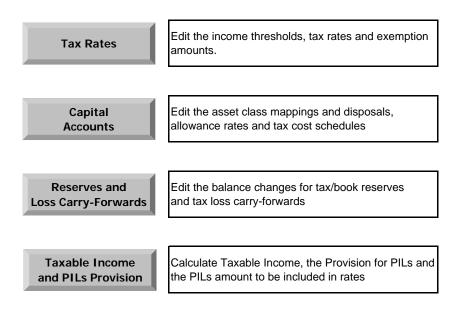

4 of Taxes ("PILs") included in Hydro 2000's 2008 Board-approved revenue requirement.

5 Attachments 2 and 3 show returns filed in 2008, 2009 and 2010 by the utility for Federal

6 and Ontario income taxes, respectively.

# Business Consent form (RC59 continued)

## $_{ m extsf{ iny Part}}$ 3 – Select the program accounts, years and authorization level (continued) –

b) Details of program accounts and fiscal periods - Complete this area only if you ticked box B in Part 3a) on page 1.

If you ticked box B in part 3a), you have to provide at least one program identifier (see Instructions on page 1). You can then tick the "All program accounts" box for that program identifier or enter a reference number. Provide the authorization level (tick either box 1 to disclose information or box 2 to disclose information and accept changes to your program account).

You can also tick the "All years" box to allow unlimited tax year access **or** enter a specific fiscal period (specific period authorization **is not available** for online access). You can also enter an expiry date to automatically cancel authorization. If more authorizations or more than four program identifiers are needed, complete another Form RC59.

We wil not process this form unless it is signed and dated by an authorized person of the business.

The Privacy Act protects information given on this form, which is kept in personal information bank numbers CRA PPU-175 and 223.

# **Federal Tax Instalments**

## - Federal tax instalments

For the taxation year ended 2009-12-31

The following is a list of federal instalments payable for the current taxation year. The last column indicates the instalments payable to Revenue Canada. The instalments are due no later than on the dates indicated, otherwise non-deductible interest will be charged. A cheque or money order should be made payable to the Receiver General. Payment may be made by cheque or money order payable to the Receiver General either to an authorized financial institution or filed with **the appropriate remittance voucher to the following address**:

#### Canada Revenue Agency 875 Heron Road Ottawa ON K1A 1B1

Note that you may also be able to pay by telephone or Internet banking. For more information, consult the Corporation Instalment Guide.

#### **SCHEDULE 141**

Canadä

**NOTES CHECKLIST** 

| Corporation's name | Business Number   | Tax year-end   |
|--------------------|-------------------|----------------|
|                    |                   | Year Month Day |
| HYDRO 2000 INC.    | 86595 5397 RC0001 | 2008-12-31     |

- Parts 1, 2, and 3 of this schedule must be completed from the perspective of the person (referred to in these parts as the "accountant") who prepared or reported on the financial statements.
- For more information, see Guide RC4088, General Index of Financial Information (GIFI) for Corporations and Guide T4012, T2 Corporation Income Tax Guide.
- Complete this schedule, and include it with your T2 return along with the other GIFI schedules.

If the person preparing the tax return is not the accountant referred to above, they must still complete Parts 1, 2, 3, and 4, as applicable.

#### Part 1 – Information on the accountant preparing or reporting on the financial statements -

| Is the accountant connected* with the corporation? | <br>097 | 1 Yes | 2 No | X |
|----------------------------------------------------|---------|-------|------|---|

- \* A person connected with a corporation can be: (i) a shareholder of the corporation who owns more than 10% of the common shares; (ii) a director, an officer, or an employee of the corporation; or (iii) a person not dealing at arm's length with the corporation.
- **Note:** If the accountant does not have a professional designation **or** is connected to the corporation, you do not have to complete Parts 2 and 3 of this schedule. However, you do have to complete Part 4, as applicable.

#### $\_$ Part 2 – Type of involvement with the financial statements $\cdot$

| Choose the option that represents the highest level of involvement of the accountant: | 198        |
|---------------------------------------------------------------------------------------|------------|
| Completed an auditor's report                                                         | 1 <b>X</b> |
| Completed a review engagement report                                                  | 2          |
| Conducted a compilation engagement                                                    | 3          |

#### Part 3 – Reservations ·

| If you selected option "1" or "2" under Type of inve | olvement with the financial statements above, answer the following que | stion:    |
|------------------------------------------------------|------------------------------------------------------------------------|-----------|
| Has the accountant expressed a reservation?          |                                                                        | es 2 No X |

#### Part 4 – Other information -

| If you have a professional designation and are not the accountant associated with the financial statements in Part 1 above, choose one of the following options: |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                                                                                                                  |
| Prepared the tax return (financial statements prepared by client)                                                                                                |
| Prepared the tax return and the financial information contained therein (financial statements have not been prepared) 2                                          |
| Were notes to the financial statements prepared?         101         1 Yes X         2 No                                                                        |
| If <b>yes</b> , complete lines 102 to 107 below:                                                                                                                 |
| Are any values presented at other than cost?                                                                                                                     |
| Has there been a change in accounting policies since the last return?                                                                                            |
| Are subsequent events mentioned in the notes?                                                                                                                    |
| Is re-evaluation of asset information mentioned in the notes?                                                                                                    |
| Is contingent liability information mentioned in the notes?                                                                                                      |
| Is information regarding commitments mentioned in the notes?                                                                                                     |
| Does the corporation have investments in joint venture(s) or partnership(s)? 108 1 Yes 2 No X                                                                    |
| If <b>yes</b> , complete line 109 below:                                                                                                                         |
| Are you filing financial statements of the joint venture(s) or partnership(s)? 109 1 Yes 2 No                                                                    |
|                                                                                                                                                                  |

Note: Class numbers followed by a letter indicate the basic rate of the class taking into account the additional deduction allowed. Class 1a: 4% + 6% = 10% (class 1 to 10%), class 1b: 4% + 2% = 6% (class 1 to 6%).

\* Include any property acquired in previous years that has now become available for use. This property would have been previously excluded from column 3. List separately any acquisitions that are not subject to the 50% rule, see Regulation 1100(2) and (2.2).

\*\* Include amounts transferred under section 85, or on amalgamation and winding-up of a subsidiary. See the *T2 Corporation Income Tax Guide* for other examples of adjustments to include in column 4.

\*\*\* The net cost of acquisitions is the cost of acquisitions (column 3) plus or minus certain adjustments from column 4. For exceptions to the 50% rule, see Interpretation Bulletin IT-285, *Capital Cost Allowance – General Comments*.

\*\*\*\* If the tax year is shorter than 365 days, prorate the CCA claim. Some classes of property do not have to be prorated. See the *T2 Corporation Income Tax Guide* for more information.

T2 SCH 8 (06)

# **Fixed Assets Reconciliation**

Reconciliation of change in fixed assets per financial statements to amounts used per tax return.

| Tax return                                                                                 |                        |   |         |

Ministry of Revenue Corporations Tax 33 King Street West PO Box 620 Oshawa ON L1H 8E9

2007

This form is a combination of the Ministry of Finance (MOF) **CT23 Corporations Tax Return** and the Ministry of Government Services (MGS) **Annual Return**. Page 1 is a common page required for both Returns. For tax purposes, depending on which criteria the corporation satisfies, it must complete either the **Exempt from Filing (EFF)** declaration on page 2 or file the **CT23 Return** on pages 3-17. Corporations that **do not** meet the EFF criteria but **do** meet the Short-Form criteria, may request and file the **CT23 Short-Form Return** (see page 2).

#### CT23 Corporations Tax and Annual Return Annual Return Annual Return

Corporations Tax Act – Ministry of Finance (MOF) Corporations Information Act – Ministry of Government Services (MGS)

The **Annual Return** (common page 1 and MGS Schedule A on pages 18 and 19, and Schedule K on page 20) contains non-tax information collected under the authority of the *Corporations Information Act* for the purpose of maintaining a public database of corporate information. This return must be completed by Ontario share-capital corporations or Foreign-Business share-capital corporations that have an extra-provincial licence to operate in Ontario. <u>Ministry Use</u>

#### **Determination of Applicability**

Applies if either Total Assets 249 exceeds \$5,000,000 or Total Revenue 250 exceeds \$10,000,000.

Short Taxation Years – Special rules apply for determining total revenue where the taxation year of the corporation or any associated corporation or any fiscal period of any partnership(s) / joint venture(s) of which the corporation or associated corporation is a member, is less than 51 weeks.

Associated Corporation – The total assets or total revenue of associated corporations is the total assets or total revenue for the taxation year ending on or before the date of the claiming corporation's taxation year end.

If CMT is applicable to current taxation year, complete section Calculation: CMT below and Corporate Minimum Tax Schedule 101.

# Calculation of Capital Tax for all Corporations except Financial Institutions

**Note:** This version (2007) of the CT23 may only be used for a taxation year that commenced after December 31, 2004. Financial Institutions use calculations on page 13.

If the corporation is a family farm corporation, family fishing corporation or a credit union that is not a Financial Institution, complete only Section A below.

- **OR** If the corporation is **not** a member of an associated group and/or partnership, complete Section B below, then review only the Capital Tax calculations in Section C on page 11, selecting and completing the one specific subsection (e.g. C3) that applies to the corporation.
- **OR** If the corporation **is** a member of an associated group and/or partnership, complete Section B below and Section D on page 11, and if applicable, complete Section E or Section F on page 12. Note: if the corporation is a member of a connected partnership, please refer to the CT23 Guide for additional instructions before completing the Capital Tax section.

#### SECTION A

This section applies only if the corporation is a family farm corporation, a family fishing corporation or a credit union that is not a Financial Institution (Int.B. 3018).

Enter NIL in 550 on page 12 and complete the return from that point.

#### SECTION B
