DECISION AND ORDER

Background and Application

In November 2003 the Ontario government announced that it would permit local distribution companies to apply to the Board for the next installment of their allowable return on equity beginning March 1, 2005. The Government also indicated that the Board's approval would be conditional on a financial commitment to reinvest in conservation and demand management initiatives, an amount equal to one year's incremental returns.

Also in November 2003, the Government announced, in conjunction with the introduction of Bill 4, the *Ontario Energy Board Amendment Act, (Electricity Pricing), 2003*, that electricity distributors could start recovering Regulatory Assets in their rates, beginning March 1, 2004, over a four year period.

In February and March, 2004, the Board approved the applications of distributors to recover 25% of their December 31, 2002 Regulatory Asset balances (or additional amounts for rate stability) in their distribution rates on an interim basis effective March 1, 2004 and implemented on April 1, 2004.

On December 20, 2004 the Board issued filing guidelines to all electricity distribution utilities for the April 1, 2005 distribution rate adjustments. The guidelines allowed the applicants to recover three types of costs. These costs concern (i) the rate recovery of the third tranche of the allowable return on equity (Market Adjusted Revenue Requirement or "MARR"), (ii) the 2005 proxy allowance for payments in lieu of taxes ("PILs") and (iii) a second installment of the recovery of Regulatory Assets.

A generic Notice of the proceeding was published on January 25, 2005 in major newspapers in the province, which provided a 14 day period for submissions from interested parties. On February 4, 2005, the Board issued Procedural Order No. 1, providing for an extension for submissions until February 16, 2005 and also providing for reply submissions from applicants and other parties.

The Applicant filed an application for adjustments to their rates for the following amounts:

MARR: \$ 0 (NIL)

2005 PILs Proxy: \$ 13,230

Regulatory Assets Second Tranche: \$ 93,052

The Applicant also applied for recovery of amounts and/or items outside of the guidelines. Specifically, it requested the use of kWh shares for non-RSVA accounts (instead of distribution revenue shares) as the allocation factor.

Submissions

The Board received one submission which addressed the 2005 rate setting process in general. This submission was made by School Energy Coalition (SEC). SEC objected to the guideline which caused the recovery of the 2005 PILs proxy to be reflected only on the variable charge. SEC was also concerned that monthly service charges and overall distribution charges varied significantly between utilities across the province. SEC also raised concerns regarding the consistency of, and access to, information on the applications as filed by the utilities.

Reply submissions to SEC's general submissions were received from the Coalition of Large Distributors, the Electricity Distributors Association, Hydro One Networks, and the LDC Coalition (a group of 7 distributors). These parties generally argued against the recommendations put forward by SEC, by and large indicating that the Board's existing processes for 2006 and 2007 have been planned to address these issues going forward and that these issues should not be added to the 2005 rates adjustment process.

SEC also made a specific submission in regards of the Applicant's proposal for an "amended" application to use a different allocation methodology from the one prescribed by the Board. SEC submitted that any changes to the allocation of Regulatory Assets should be consistent with Board's Regulatory Asset decision of December 9, 2004.

The full record of the proceeding is available for review at the Board's offices.

Board Findings

The Board first addresses the general submission of SEC. While SEC raises important issues regarding electricity distribution rates, the Board has put in place a process which will address most of the issues raised by SEC on a comprehensive basis with coordinated cost of service, cost allocation and cost of capital studies for all distributors in 2006, 2007 and 2008. The Board does agree that unless there are compelling reasons to diverge from the Board's original filing guidelines for the 2005 distribution rate adjustment process, distributors should follow the guidelines in their applications.

At this time, the Board will approve only the portion of the application that conforms to the guidelines as the generic notice published informed customers and the public of only the changes contemplated in the guidelines. As a result, the Board does not approve the request to use kWh shares (instead of distribution revenue shares) as the non-RSVA regulatory asset allocation factor.

The Board finds that the application conforms with earlier decisions of the Board (including approval for the Applicant's Conservation and Demand Management plan), directives and guidelines.

The Board will issue a separate decision on cost awards.

THE BOARD ORDERS THAT:

- 1) The rate schedule attached as Appendix "A" is approved effective March 1, 2005, to be implemented on April 1, 2005. All other rates currently in effect that are not shown on the attached schedule remain in force. If the Applicant's billing system is not capable of prorating to accommodate the April 1, 2005 implementation date, the new rates shall be implemented with the first billing cycle for electricity consumed or estimated to have been consumed after April 1, 2005.
- 2) The Applicant shall notify its customers of the rate changes, no later than with the first bill reflecting the new rates and include the brochure provided by the Board.

West Nipissing Energy Services Ltd.
Schedule of Changed Distribution Rates and Charges

Effective Date: March 1, 2005

Implementation Date: April 1, 2005

RP-2005-0013

EB-2005-0093

RESIDENTIAL

Monthly Service Charge	(per month)	\$11.62
Distribution Volumetric Rate	(per kWh)	\$0.0117

GENERAL SERVICE < 50 KW

Monthly Service Charge	(per month)	\$11.88
Distribution Volumetric Rate	(per kWh)	\$0.0122

GENERAL SERVICE > 50 KW (Non Time of Use)

Monthly Service Charge	(per month)	\$30.32
Distribution Volumetric Rate	(per kW)	\$0.5503

SENTINEL LIGHTS (Non Time of Use)

Monthly Service Charge	(per month)	\$0.00
Distribution Volumetric Rate	(per kW)	\$10.6696

STREET LIGHTING (Non Time of Use)

Monthly Service Charge	(per connection)	\$1.01
Distribution Volumetric Rate	(per kW)	\$3.2582

Unmetered Scattered Loads

Billed at General Service < 50 kW rates

Monthly Service Charge	(per connection)	\$11.88
Distribution Volumetric Rate	(per kWh)	\$0.0122

The rates on this schedule include an interim recovery of Regulatory Assets.
