Dear Sirs/Mesdames:

**Re: Atlantic Power Services Canada LP
Application for an Electricity Generation Licence
Board File No. EB-2011-0348**

We are counsel to Atlantic Power Services Canada LP ("Atlantic LP").

We are pleased to advise that Atlantic Power Corporation, Atlantic LP's parent, will close the transaction to purchase Capital Power Income LP, the owner of five power plants in Ontario on November 5, 2011.

Accordingly, we intend to write to the Board on Monday, November 7, 2011 in order to advise that this transaction has closed and request that Atlantic LP's licence, which was granted by Decision and Order dated October 31, 2011, **be issued effective on Tuesday, November 8, 2011**. We are advised by the IESO that Tuesday is the day when Atlantic LP will be registered with and switched over by the IESO. We respectfully request that you take any steps necessary before Monday to prepare the licence for issuance, so that it can be issued as soon as possible after you receive our notice of closing. Our goal is to have the licence issued only shortly before the IESO throws the switch so that the period between the two events is less than a day.

Should the Board have any questions or concerns, please do not hesitate to contact us.

Yours very truly,

GOODMANS LLP

Daniel Cappe
