**RE: File No. RP-2004-0203 / EB-2004-0502
West Coast Huron Energy Inc. (Goderich Hydro)**

Dear Ms. Walli,

Further to West Coast Huron Energy Inc. (Goderich Hydro) letter dated February 4, 2008, Goderich Hydro would not only like to apply for permission to change the allocation of monies for Montreal Street Lighting but also, PROJECT SAVE-Energy Efficient and ENERGY STAR-Air Conditioner & Dehumidifier Rebate Programs. Goderich Hydro also requests moving \$2429.57 into the Light Bulb Giveaway budget, the project was over spent. The following is the breakdown of each item:

Item	Total \$ Budgeted	Total \$ Spent to date	Left to Spend
PROJECT SAVE-Energy Efficient Rebate	\$5000.00	\$3143.27	\$1856.73
ENERGY STAR-Air Conditioner & Dehumidifier Rebate	\$5000.00	\$1360.48	\$3639.52
Light Bulb Giveaway	\$4750.00	\$7179.57	(\$2429.57)
Montreal Street Lighting	\$2700.00	\$2700.00	\$2700.00

Since 2005, Goderich Hydro has had a number of staff changes within the Conservation and Demand Management plan. Therefore, some managers did not always realize what money had been spent and what hadn't. As I have only been in placed as manager of this program since late 2007, I recently asked for a revised summary of the spending for this program.

Unfortunately, I ask for the updated summary after I sent you my February 4th letter. I had originally thought there was \$8885.05 left out of the original \$33,000 total. It turns out that there is actually \$6510.11. The rest of the remaining funds not mentioned in this

letter do fall under the 20% of the original funding amounts therefore no permission is needed for them to be reallocated.

Goderich Hydro would like to use the remaining funds, to aid in the purchase of LED traffic lights for the Town of Goderich. The LED project has already started and is expected to be completed by mid-April, before the April 30, 2008 Third Tranch deadline.

Therefore, please consider our request to reallocate of funds.

Request to Dispose of Matter without a Hearing

Goderich Hydro respectfully requests that the Ontario Energy Board dispose of the proceeding without hearing pursuant to subsection 21(4)(b) of the Ontario Energy, Board Act, 1998 (the "Act") which states that the Board may dispose of a proceeding without a hearing if the Board determines that "no person, other than the applicant, appellant or license holder will be adversely affected in a material way by the outcome of the proceeding, and the applicant, appellant or license holder has consented to disposing of a proceeding without a hearing".

It is our contention that "no person" will be adversely affected in any material way, as the programs and the amount of funding allocated to these programs remains the same.

Goderich Hydro simply wishes to change the allocation of the funds; the monies will still be used for electricity conservation just in a different context, resulting in more money saved in the long run.

Thank you for this opportunity to continue our exciting and successful CDM programs. I am available at your convenience to address any questions that you may have or to discuss Goderich Hydro's plans in more detail.

Sincerely,

Jennette Walker, C.E.T.

Environmental Services Technologist

Goderich Hydro
