BY RESS & COURIER

Mr. Michael Buonaguro Counsel for VECC 1 Nicholas St., Suite 1204 Ottawa, ON K1N 7B7

Re: EB-2011-0167

Festival Hydro Inc. Response to VECC Interrogatories

2012 IRM3 Electricity Distribution Rates

Dear Mr. Buonaguro:

On October 4, 2011, Festival Hydro Inc., referred to herein as the Applicant, filed its application for 2012 IRM3 electricity distribution rates and, subsequently, on November 21, 2011, VECC submitted its interrogatories to the Applicant. The Applicant now submits its responses to those interrogatories.

A copy of this package has been electronically filed through the Ontario Energy Board's RESS system and emailed to the Board Secretary. The original has been couriered to the Board's offices.

Should you require any further information or clarification of any of the above, kindly contact the writer.

Respectfully submitted, Originally Signed by

W.G. Zehr, President Cc All Intervenors

EB-2011-0167 Filed: December 5, 2011

ONTARIO ENERGY BOARD

IN THE MATTER OF

the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15 (Schedule B), as amended;

AND IN THE MATTER OF an Application by Festival Hydro Inc. for an order or orders approving or fixing just and reasonable distribution rates to be effective May 1, 2012.

Information Requests of the Vulnerable Energy Consumers Coalition (VECC)

Revenue to Cost Ratios

VECC Question #1

Reference: 2012 IRM Revenue to Cost Ratio Workform

<u>Preamble</u>: On Sheet 5:Re-based Billing Determinants & Rates of the Workform, the Re-based Billed kWh shown for the Large User class differs from the 65,544,852 kWh shown at Exhibit 3, Tab 2, Schedule 1, Page 23 (Summary of Forecast Data) in EB-2009-0263.

a) Please reconcile.

RESPONSE

a) Festival Hydro incorrectly entered the kWh for the large use class. The kWh quantity for Large use rate class should be 65,544,852, which agrees to the 2010 COS Load Forecast. The Revenue to Cost Ratio Workform has been updated accordingly and was submitted as part of the response to Board Staff interrogatories. Thank you for bringing this to our attention.

EB-2011-0167 Filed: December 5, 2011

Page 3 of 8

b) VECC Question # 2

Reference: Manager's Summary, Pages 6-7, Revenue to Cost Ratio Adjustments

<u>Preamble</u>: Festival includes a Table in the evidence on Page 6 of the Manager's Summary that shows the 2012 Proposed Revenue to Cost Ratios in Column C as per the Board's Decision in EB-2009-0263 (2010 COS). In Column D, Festival provides the 2012 Proposed Revenue to Cost Ratios in the current application. Column E provides the difference between Column C and D. There is a 0.1% variance in the residential class and a 0.8% variance in the GS>50 kW class.

a) Please explain the rationale for choosing to keep the ratio for GS>50 kW class the same at 81.39% rather than adjusting it downwards to 81.31% as per the Board's Decision in EB-2009-0263.

RESPONSE

a) The Revenue to Cost ratio for G.S. > 50 kW is very close to the Board prescribed bottom range for this rate class, so Festival decided to leave at the current factor of 81.39% rather than move closer to the bottom range. However, that does not agree with the Board's finding as per EB-2009-0083. Festival has updated the Workform to adjust the ratio down to 81.31%. The revised residual amount of \$(8,609) has been applied to the residential rate class. This change has been applied to the IRM Rate Generator model submitted as part of the response to Board Staff Interrogatories.

Lost Revenue Adjustment Mechanism (LRAM)

VECC Question #3

Reference: Manager's Summary, Page 10

<u>Preamble</u>: Festival filed for LRAM/SSM recovery for the years 2005 to 2009 as part of its 2011 IRM Application.

> EB-2011-0167 Filed: December 5, 2011

Page 4 of 8

a) Please confirm that the LRAM amounts Festival is seeking to recover in this application are new amounts not included in past LRAM claims.

b) Please confirm the 2010 load forecast used to calculate the LRAM Rate Riders does not account for CDM impacts.

RESPONSE

- a) The LRAM amounts Festival is seeking to recover in this application are new amounts not included in past LRAM claims.
- b) The 2010 load forecast used to calculate the LRAM Rate Riders does not account for CDM impacts. For a more detailed explanation see 14(b) in the response to Board Staff Interrogatories.

VECC Question #4

Reference: Appendix B, LRAM & SSM Report by Burman Energy Consultants Group Inc., Page 3

<u>Preamble:</u> The evidence indicates "The most recent 2010 published program evaluation results were used to calculate 2010 LRAM amounts." "Input assumptions and free ridership rates are identified in Attachment D (for OPA Programs)...."

- a) Please confirm the source of the input assumptions in the LRAM calculations for OPA programs.
- b) If the OPA results used are not 2010 OPA Program results, please indicate when the OPA results for the 2010 Programs will be available and how this may affect the LRAM?
- c) Attachment D, OPA Conservation and Demand Management Program Results references Festival Hydro Inc. on page 1 of the spreadsheet and Whitby Hydro LRAM at the bottom of page 1. Please explain.
- d) Please make any adjustments to update the LRAM claim as required.

RESPONSE

EB-2011-0167

Filed: December 5, 2011

Page 5 of 8

a) The following OPA files were used to calculate LRAM:

2006-2010 Final OPA CDM Results.Festival Hydro Inc..xls 2010 CDM Results Summary_Festival Hydro Inc..xlsx

- b) The final 2010 OPA Results Evaluation Report was received by Festival Hydro on November 15, 2011. The claim has been updated accordingly in this response.
- c) The measures on Attachment D are those measures installed and results for Festival Hydro. The tab was mislabelled. The assumptions and measures have been updated to include the finalized 2010 program results, assumptions and measures.
- d) Attachment D was updated to include the most recent 2010 OPA Assumptions and Measures.

VECC Question #5

Reference: Appendix B, LRAM & SSM Report by Burman Energy Consultants Group Inc., Attachments A and B

<u>Preamble:</u> Attachments A and B show the OPA program results for 2010 and 2011 by customer class for the years implemented for each program.

- a) Please provide the net and gross program results and foregone revenue for the residential programs separately for each year implemented.
- b) Please provide the following details of the OPA EKC campaigns for each year, that add to the data shown in attachment A: # of units, measure life, unit and total kWh savings. Reconcile to the revenue for each year.

RESPONSE

- a) Please see revised attachments included in appendices.
- b) Please see revised attachments included in appendices.

VECC Question #6

> EB-2011-0167 Filed: December 5, 2011

> > Page 6 of 8

Reference: Appendix B, LRAM & SSM Report by Burman Energy Consultants Group Inc.

- a) For each program for each year, at the program/measure level, please confirm the number of units, measure life, LRAM free ridership, annual energy savings (kWh/a), annual peak demand savings (kW/a) and contribution to LRAM.
- b) List and confirm OPA's input assumptions for Every Kilowatt Counts (EKC) 2006 and 2007 separately including the measure life, unit kWh savings and free ridership for Compact Fluorescent Lights (CFLs) and Seasonal Light Emitting Diodes (LED). Confirm some of these assumptions were changed in 2007 and again in 2009 and compare the values.
- c) Demonstrate/confirm that savings for 2005 Mass Market Measures and EKC 2006 Mass Market measures 13-15 W Energy Star CFLs have been removed from the LRAM claim beginning in 2010.
- d) Adjust the LRAM claim as necessary to reflect the measure lives and unit savings for any/all measures that have expired starting in 2010.
- e) Identify all Mass Market Measures (CFLS etc) installed in 2005 and 2006 with measure lives of 4 years or less for which savings have been claimed in any prior claim.
- f) Adjust the current Third Tranche LRAM claim as necessary to reflect the measure lives (and unit savings) for any/all measures that have expired.

RESPONSE

- All assumptions and measures used by the OPA can be found in the Attachment D. Assumptions and measures for Third Tranche Programs can be found in Attachment E.
- b) Please see revised attachments assumptions were changed in 2007 and again in 2009.
- c) Please see revised attachments.
- d) No adjustments are necessary as expired measures were not included in 2010.

EB-2011-0167 Filed: December 5, 2011

Page 7 of 8

- e) Please see revised attachments.
- f) Measures lives have already been taken into account and therefore no changes are necessary to Third Tranche calculations.

VECC Question #7

Reference: Manager's Summary, Page 12

<u>Preamble</u>: Burman Energy has calculated Festival's LRAM claim to be \$191,653.

- a) Please provide the LRAM totals for Third Tranche and OPA Programs by rate class separately for 2010 and 2011.
- b) Please provide the calculation of the LRAM Rate Riders for each applicable rate class for 2010 and 2011 separately.
- c) Does the LRAM claim include carrying charges?
 - i) If yes, please provide the calculation.
 - ii) If no, please explain.

RESPONSE

a) Please note the total claim was revised to \$187,644.21 due to updates required as a result of the release of the finalized 2010 program results.
